It's time to address the elephant in the ark. In Baby Dinosaurs on the Ark? The Bible and Modern Science and the Trouble of Making It All Fit, Janet Kellogg Ray reached out to Christians who experience cognitive dissonance between their creationist commitments and modern science. With this new study guide, she returns to her argument with fresh perspective and an eye toward practical instruction. Ray approaches her topic with empathy for her readers while maintaining scientific rigor. This discussion guide is the perfect companion for students and nonexpert readers of her book, as it includes notes, discussion questions, and lists of external resources to supplement the original. Expanded treatments of each chapter's topics encourage thinking with and beyond the concepts introduced in the main text.
