From coding languages and hardware to cyberbullying and gaming, this comprehensive homework helper for kids and parents covers the

essentials of computer science. This unique visual study guide examines the technical aspects of computers, such as how they function, the latest digital devices and software, and how the Internet works. It also builds the confidence of parents and kids when facing challenges such as staying safe online, digital etiquette, and how to navigate the potential pitfalls of social media. Jargon-free language helps to explain difficult and potentially dread-inducing homework such as hacking, "big data" and malware, while colorful graphics help makes learning about the world of computer science exciting. Whether at home or school, this clear and helpful guide to computer science is the tool you need to be able to support students with confidence. Series Overview: DK's bestselling Help Your Kids With series contains crystal-clear visual breakdowns of important subjects. Simple graphics and jargon-free text are key to making this series a user-friendly resource for frustrated parents who want to help their children get the most out of school.

The aim of this book is to provide an accessible text for students, covering each of the elements in the OCR GCSE (9-1)

Computer Science specification J276. It will
be invaluable both as a course text and in
revision for students nearing the end of the
course. It is divided into eight sections,
each broken down into manageable chapters of
roughly one lesson. Sections 5 and 6 of the
textbook cover algorithms and programming
concepts with a theoretical approach to
provide students with experience of writing,
tracing and debugging pseudocode solutions
without the aid of a computer. These sections
would complement practical programming
experience. Each of the eight sections cover
one of the major topics in this course, and
each subtopic contains sample examination
questions from past papers, which can be set
as homework.
