

Edexcel Statistics Past Papers

This book contains 9 exam papers and it is aimed at May/June 2019 GCSE Mathematics exam for higher level. These papers are written according to the new 9 to 1 syllabus mainly for Edexcel however they can still be used as practice for AQA and OCR exams as well. Each section contains exam papers labelled paper 1, paper 2 & paper 3 similar to the actual exam.

A syllabus-specific textbook providing worked examples, exam-level questions and many practical exercises, in accordance to the new Edexcel AS and Advanced GCE specification.

Exam board: Edexcel Level: A-level Subject: Design and Technology First teaching: September 2019

First exams: Summer 2019 Target success in Edexcel A-level Design and Technology (Product Design) with our proven formula for effective, structured revision. Key content coverage is combined with style tasks and practical tips to create a revision guide that students can rely on to review, summarise and test their knowledge. With My Revision Notes, every student can:

- plan and manage a successful revision programme using the topic-by-topic planner
- consolidate subject knowledge by working through clear and focused content coverage
- test understanding and identify areas for improvement with regular 'Now Test Yourself' tasks and answers
- improve exam technique, including interpretation and application, through practice questions, sample answers and exam tips.

The first book of two, Advanced Subsidiary Psychology seeks to develop an understanding of the principles of Psychology and to illustrate these by reference examples relevant to students' own observations and experience. Fully in line with the AS Edexcel specifications, Book 1 covers the first three units of the course and provides a thorough preparation for the AS examination.

This book gives an overview of the different courses and qualifications available to young people post-GCSE. It profiles over 40 of the most popular A-level, AS-level and new diploma subject areas, listing everything students need to know to make an informed choice. The only book on the market to link post-16 options to future career aspirations, it contains independent advice providing all the options so that students can choose which route is best for them without outside influence/pressure. Easily navigable it is divided into sections by subject area and listed alphabetically making it easy for students to browse. Author Gary Woodward is a qualified careers consultant and has significant experience of advising young people about education and career options as well as job hunting.

Help your students push for the top grades with these focused Revision Guides! Ideal for use alongside the Student Books, they provide worked exam questions, examples and an array of examiners' hints and tips.

A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B specification, this brand new course is written to match the demands of the specification. As well as providing thorough and rigorous coverage of the spec, this book is designed to engage students in their learning and to motivate them to progress.

This series has been developed specifically for the Cambridge International AS & A Level Mathematics (9709) syllabus to be examined from 2020. Cambridge International AS & A Level Mathematics: Pure Mathematics 2 & 3 matches the corresponding units of the syllabus. It clearly indicates materials required for P3 study only, and contains materials on topics such as logarithmic and exponential functions, trigonometry, differentiation, integration, numerical solutions of equations, vectors and complex numbers. This coursebook contains a variety of features including recap sections for students to check their prior knowledge, detailed explanations and worked examples, end-of-chapter and cross-topic review exercises and 'Explore' tasks to encourage deeper thinking around mathematical concepts. Answers to coursebook questions are at the back of the book.

Written by experienced teacher and examiner, Christine Brain, this student guide for Psychology:

Helps you identify what you need to know with a concise summary of the topics examined in the AS and A-level specifications · Consolidates understanding with exam tips and knowledge check questions

· Provides opportunities to improve exam technique with sample answers to exam-style questions ·

Develops independent learning and research skills · Provides the content for generating individual revision notes

This pupil's text offers a thorough match to the Edexcel GCSE Statistics specification. It includes

foundation and higher material, coursework teaching and advice to help students complete the compulsory project, and an exam-style practice paper.

DT These highly successful revision guides have been brought right up-to-date for the new A Level specifications introduced in September 2000. DT Oxford Revision Guides are highly effective for both individual revision and classroom summary work. The unique visual format makes the key concepts and processes, and the links between them, easier to memorize. DT Students will save valuable revision time by using these notes instead of condensing their own. DT In fact, many students are choosing to buy their own copies so that they can colour code or highlight them as they might do with their own revision notes.

Exam Board: Edexcel Level: GCSE Subject: Statistics First teaching: September 2017 First exams: June 2019 Developed in line with the key principles of the new specification, our new Student Book for Edexcel GCSE (9-1) Statistics: - gives you comprehensive and accessible support for the new Edexcel GCSE (9-1) Statistics specification - includes engaging opportunities to work with authentic data - plenty of real-life statistics in every unit to bring the subject to life and highlight important applications- helps students prepare for the new linear exams - includes more support for exam preparation than ever before.

This teacher's resource file covers the requirements of all AS and Advanced level mathematics courses and major specifications. There is a section on chapter objectives that lists all the key areas covered in each chapter to aid lesson planning or assessment. Teaching notes provide guidance and ideas on developing and enhancing the material provided in the core book as well as a list of topics that students are likely to find difficult. A question bank of material is included for use in revision with fully worked solutions to all consolidation A questions.

AS/A Level Maths for Edexcel - Decision Maths 1: Student Book

Revision book written specifically for the Edexcel AS and A Level exams offering: worked examination questions and

examples with hints on answering examination questions successfully; test-yourself section; key points reinforcing what students have learned; and answers to all questions. There is a queue, the phone is ringing, the photocopier has jammed and your enquirer is waiting for a response. You are stressed and you can feel the panic rising. Where do you go to find the information you need to answer the question promptly and accurately? Answering queries from users is one of the most important services undertaken by library and information staff. Yet it is also one of the most difficult, least understood subjects. There are still very few materials available to help frontline staff - often paraprofessional - develop their reader enquiry skills. This award-winning sourcebook is an essential guide to where to look to find the answers quickly. It is designed as a first point of reference for library and information practitioners, to be depended upon if they are unfamiliar with the subject of an enquiry - or wish to find out more. It is arranged in an easily searchable, fully cross-

referenced A-Z list of around 150 of the subject areas most frequently handled at enquiry desks. Each subject entry lists the most important information sources and where to locate them, including printed and electronic sources, relevant websites and useful contacts for referral purposes. The authors use their extensive experience in reference work to offer useful tips, warn of potential pitfalls, and spotlight typical queries and how to tackle them. This new edition has been brought right up-to-date with all sources checked for currency and many new ones added. The searchability is enhanced by a comprehensive index to make those essential sources even easier to find - saving you valuable minutes! Readership: Offering quick and easy pointers to a multitude of information sources, this is an invaluable reference deskbook for all library and information staff in need of a speedy answer, in reference libraries, subject departments and other information units. Reinforce understanding throughout the course with clear topic summaries and sample questions and answers to help students target higher grades. Written by experienced teacher and subject expert Christine Brain, our Student Guides are divided into two key sections - content guidance, and sample questions and answers. Content guidance will: - - Develop understanding of key concepts and terminology; this guide covers foundations in psychology: social psychology, cognitive psychology, biological psychology and learning theories. - - Consolidate knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - - Build understanding of the different question types, so that students can approach each question with confidence. - - Enable students to target top grades in Paper 1 with sample answers and commentary explaining exactly why marks have been awarded.
