

Edward H Judge And John W Langdon Connections A World History Pearson Custom Edition 2011

Tells the story of an insane Wisconsin murderer who butchered his victims, robbed graves, and committed a variety of psychotic atrocities

NEW YORK TIMES BESTSELLER • A modern American epic set against the panorama of contemporary politics and culture—a hurtling, page-turning mystery that is equal parts *The Great Gatsby* and *The Bonfire of the Vanities* **ONE OF THE BEST BOOKS OF THE YEAR:** NPR, PBS, Harper’s Bazaar, Esquire, Financial Times, The Times of India On the day of Barack Obama’s inauguration, an enigmatic billionaire from foreign shores takes up residence in the architectural jewel of “the Gardens,” a cloistered community in New York’s Greenwich Village. The neighborhood is a bubble within a bubble, and the residents are immediately intrigued by the eccentric newcomer and his family. Along with his improbable name, untraceable accent, and unmistakable whiff of danger, Nero Golden has brought along his three adult sons: agoraphobic, alcoholic Petya, a brilliant recluse with a tortured mind; Apu, the flamboyant artist, sexually and spiritually omnivorous, famous on twenty blocks; and D, at twenty-two the baby of the family, harboring an explosive secret even from himself. There is no mother, no wife; at least not until Vasilisa, a sleek Russian expat, snags the septuagenarian Nero, becoming the queen to his king—a queen in want of an heir. Our guide to the Golden’s world is their neighbor René, an ambitious young filmmaker. Researching a movie about the Golden’s, he ingratiates himself into their household. Seduced by their mystique, he is inevitably implicated in their quarrels, their infidelities, and, indeed, their crimes. Meanwhile, like a bad joke, a certain comic-book villain embarks upon a crass presidential run that turns New York upside-down. Set against the strange and exuberant backdrop of current American culture and politics, *The Golden House* also marks Salman Rushdie’s triumphant and exciting return to realism. The result is a modern epic of love and terrorism, loss and reinvention—a powerful, timely story told with the daring and panache that make Salman Rushdie a force of light in our dark new age.

This unique text provides a balanced, integrated, and comprehensive survey of the main events and developments in the Cold War as viewed from a global perspective. Coverage traces the Cold War from its roots in East-West tensions before and during World War II through its origins in the immediate postwar era, up to and including the collapse of the Soviet Union during 1989-1991. It also includes a comprehensive collection of more than 100 carefully edited documents (speeches, treaties, statements, and articles), making the great events of the era come alive through the words and phrases of those who were actively involved.

Edgar Award Finalist: The true story of a serial killer who terrorized a midwestern town in the era of free love—by the coauthor of *The French Connection*. In 1967, during the time of peace, free love, and hitchhiking, nineteen-year-old Mary Terese Fleszar was last seen alive walking home to her apartment in Ypsilanti, Michigan. One month later, her naked body—stabbed over thirty times and missing both feet and a forearm—was discovered, partially buried, on an abandoned farm. A year later, the body of twenty-year-old Joan Schell was found, similarly violated. Southeastern Michigan was terrorized by something it had never experienced before: a serial killer. Over the next two years, five more bodies were uncovered around Ann Arbor and Ypsilanti, Michigan. All the victims were tortured and mutilated. All were female students. After multiple failed investigations, a chance sighting finally led to a suspect. On the surface, John Norman Collins was an all-American boy—a fraternity member studying elementary education at Eastern Michigan University. But Collins wasn’t all that he seemed. His female friends described him as aggressive and short tempered. And in August 1970, Collins, the “Ypsilanti Ripper,” was arrested, found guilty, and sentenced to life in prison without chance of parole. Written by the coauthor of *The French Connection*, *The Michigan Murders* delivers a harrowing depiction of the savage murders that tormented a small midwestern town.

"Persuasively links the Cold War and struggles against imperial rule. The authors provide a cogent and concise description of the post-World War II era and reveal the strong links between the Cold War and anticolonialism movements"--

The first major biography of a truly formidable king, whose reign was one of the most dramatic and important of the entire Middle Ages, leading to war and conquest on an unprecedented scale. Edward I is familiar to millions as "Longshanks," conqueror of Scotland and nemesis of Sir William Wallace (in "Braveheart"). Yet that story forms only the final chapter of the king's action-packed life. Earlier, Edward had defeated and killed Simon de Montfort in battle; traveled to the Holy Land; conquered Wales, extinguishing its native rulers and constructing a magnificent chain of castles. He raised the greatest armies of the Middle Ages and summoned the largest parliaments; notoriously, he expelled all the Jews from his kingdom. The longest-lived of England's medieval kings, Edward fathered fifteen children with his first wife, Eleanor of Castile and, after her death, erected the Eleanor Crosses—the grandest funeral monuments ever fashioned for an English monarch. In this book, Marc Morris examines afresh the forces that drove Edward throughout his relentless career: his character, his Christian faith, and his sense of England's destiny—a sense shaped largely by the tales of the legendary King Arthur. Morris also explores the competing reasons that led Edward's opponents (including Robert Bruce) to resist him. The result is a sweeping story, immaculately researched yet compellingly told, and a vivid picture of medieval Britain at the moment when its future was decided.

This comprehensive collection of carefully edited documents—speeches, treaties, statements, and articles—traces the rise and fall of the Cold War. The sources follow the Cold War from its roots in East–West tensions at the end of World War II to the collapse of the Soviet Union in 1991. Set in historical context by the editors' concise introductions and followed by thoughtful discussion questions, the documents are arranged in chronological order, starting with the Yalta Conference and ending with Gorbachev's resignation speech. Drawing on selections from a variety of countries and leaders involved in this prolonged global struggle, the editors treat the entire Cold War as an era in world history, not just U.S. history. Their judicious selection makes the great events of the time come alive through the words and phrases of those who were actively involved.

Churchill's Shadow: The Life and Afterlife of Winston Churchill

A World History

A Great and Terrible King

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public."
-an excerpt

NOW A MAJOR MOTION PICTURE, STARRING JASON SEGAL AND JESSE EISENBERG, DIRECTED BY JAMES PONSOLDT An indelible portrait of David Foster Wallace, by turns funny and inspiring, based on a five-day trip with award-winning writer David Lipsky during Wallace's Infinite Jest tour In David Lipsky's view, David Foster Wallace was the best young writer in America. Wallace's pieces for Harper's magazine in the '90s were, according to Lipsky, "like hearing for the first time the brain voice of everybody I knew: Here was how we all talked, experienced, thought. It was like smelling the damp in the air, seeing the first flash from a storm a mile away. You knew something gigantic was coming." Then Rolling Stone sent Lipsky to join Wallace on the last leg of his book tour for Infinite Jest, the novel that made him internationally famous. They lose to each other at chess. They get iced-in at an airport. They dash to Chicago to catch a make-up flight. They endure a terrible reader's escort in Minneapolis. Wallace does a reading, a signing, an NPR appearance. Wallace gives in and imbibes titanic amounts of hotel television (what he calls an "orgy of spectatorship"). They fly back to Illinois, drive home, walk Wallace's dogs. Amid these everyday events, Wallace tells Lipsky remarkable things—everything he can about his life, how he feels, what he thinks, what terrifies and fascinates and confounds him—in the writing voice Lipsky had come to love. Lipsky took notes, stopped envying him, and came to feel about him—that grateful, awake feeling—the same way he felt about Infinite Jest. Then Lipsky heads to the airport, and Wallace goes to a dance at a Baptist church. A biography in five days, Although Of Course You End Up Becoming Yourself is David Foster Wallace as few experienced this great American writer. Told in his own words, here is Wallace's own story, and his astonishing, humane, alert way of looking at the world; here are stories of being a young writer—of being young generally—trying to knit together your ideas of who you should be and who other people expect you to be, and of being young in March of 1996. And of what it was like to be with and—as he tells it—what it was like to become David Foster Wallace. "If you can think of times in your life that you've treated people with extraordinary decency and love, and pure uninterested concern, just because they were valuable as human beings. The ability to do that with ourselves. To treat ourselves the way we would treat a really good, precious friend. Or a tiny child of ours that we absolutely loved more than life itself. And I think it's probably possible to achieve that. I think part of the job we're here for is to learn how to do it. I know that sounds a little pious." —David Foster Wallace

Connections A World History Prentice Hall

How the obsession with quantifying human performance threatens business, medicine, education, government—and the quality of our lives Today, organizations of all kinds are ruled by the belief that the path to success is quantifying human performance, publicizing the results, and dividing up the rewards based on the numbers. But in our zeal to instill the evaluation process with scientific rigor, we've gone from measuring performance to fixating on measuring itself—and this tyranny of metrics now threatens the quality of our organizations and lives. In this brief, accessible, and powerful book, Jerry Muller uncovers the damage metrics are causing and shows how we can begin to fix the problem. Filled with examples from business, medicine, education, government, and other fields, the book explains why paying for measured performance doesn't work, why surgical scorecards may

increase deaths, and much more. But Muller also shows that, when used as a complement to judgment based on personal experience, metrics can be beneficial, and he includes an invaluable checklist of when and how to use them. The result is an essential corrective to a harmful trend that increasingly affects us all.

Proceedings and Debates of the ... Congress

"Consistently gripping.... [I]t's possessed of a zest and omnivorous curiosity that reflects the boundless energy of its subject." —Steve Donoghue, Christian Science Monitor Oliver Wendell Holmes escaped death twice as a young Union officer in the Civil War. He lived ever after with unwavering moral courage, unremitting scorn for dogma, and an insatiable intellectual curiosity. During his nearly three decades on the Supreme Court, he wrote a series of opinions that would prove prophetic in securing freedom of speech, protecting the rights of criminal defendants, and ending the Court's reactionary resistance to social and economic reforms. As a pioneering legal scholar, Holmes revolutionized the understanding of common law. As an enthusiastic friend, he wrote thousands of letters brimming with an abiding joy in fighting the good fight. Drawing on many previously unpublished letters and records, Stephen Budiansky offers the fullest portrait yet of this pivotal American figure.

Discovered in a hidden compartment of an old chest long after his death, the secret writings of John Dee, one of the leading scientists and occultists of Elizabethan England, record in minute detail his research into the occult. Dee concealed his treatises on the nature of humankind's contact with angelic realms and languages throughout his life, and they were nearly lost forever. In his brief biography of John Dee, Joseph Peterson calls him a "true Renaissance man" detailing his work in astronomy, mathematics, navigation, the arts, astrology, and the occult sciences. He was even thought to be the model for Shakespeare's Prospero. All this was preparation for Dee's main achievement: five books, revealed and transcribed between March 1582 and May 1583, bringing to light mysteries and truths that scholars and adepts have been struggling to understand and use ever since. These books detail his system for communicating with the angels, and reveal that the angels were interested in and involved with the exploration and colonization of the New World, and in heralding in a new age or new world order. While Dee's influence was certainly felt in his lifetime, his popularity has grown tremendously since. His system was used and adapted by the Hermetic Order of the Golden Dawn, and subsequently by Aleister Crowley. This new edition of John Dee's Five Books of Mystery is by far the most accessible and complete published to date. Peterson has translated Latin terms and added copious footnotes, putting the instructions and references into context for the modern reader.

Readers learn about the connections among world societies - from regional to global. *Connections: A World History* is a reader-centered text that focuses on connections within and among world societies. Concise, engaging chapters and a clear narrative make the often overwhelming amount of information in world history accessible to a wide range of readers. A uniquely comprehensive and consistent map program is combined with strong pedagogical support for increased understandability. The authors' focus on connections offers a useful and compelling framework for understanding how and why peoples and societies change over time. Note: MyHistoryLab does not come automatically packaged with this text. To purchase MyHistoryLab, please visit www.MyHistoryLab.com or use ISBN: 9780205216529.

This comprehensive text provides a balanced survey of the Cold War in a genuinely global framework. Presenting not only Soviet and Western perspectives, but also the outlooks of peoples and leaders throughout Asia, the Middle East, Africa, and Latin America, Edward H. Judge and John W. Langdon offer in-depth treatment of imperialism, anti-imperialism, decolonization, national liberation struggles, and their Cold War connections. The authors explore the background and context for all major developments during the era, as well as capsule biographies and character analyses of key figures. Tracing the Cold War from its roots in East-West tensions before and during World War II through its origins in the immediate postwar era, the book concludes with the Cold War's legacy, which continues today. Written in a clear and lively style, this compelling text will bring the era to life for readers who didn't experience its dramas and crises directly.

The Chief

A Novel

A Global History of the Cold War

The True Story of the Ypsilanti Ripper's Reign of Terror

The Cold War

Although Of Course You End Up Becoming Yourself

An incisive biography of the Supreme Court's enigmatic Chief Justice, taking us inside the momentous legal decisions of his tenure so far. John Roberts was named to the Supreme Court in 2005 claiming he would act as a neutral umpire in deciding cases. His critics argue he has been anything but, pointing to his conservative victories on voting rights and campaign finance. Yet he broke from orthodoxy in his decision to preserve Obamacare. How are we to

understand the motives of the most powerful judge in the land? In *The Chief*, award-winning journalist Joan Biskupic contends that Roberts is torn between two, often divergent, priorities: to carry out a conservative agenda, and to protect the Court's image and his place in history. Biskupic shows how Roberts's dual commitments have fostered distrust among his colleagues, with major consequences for the law. Trenchant and authoritative, *The Chief* reveals the making of a justice and the drama on this nation's highest court.

Edward St. Aubyn is "great at dissecting an entire social world" (Michael Chabon, *Los Angeles Times*) Edward St. Aubyn's Patrick Melrose novels were some of the most celebrated works of fiction of the past decade. Ecstatic praise came from a wide range of admirers, from literary superstars such as Zadie Smith, Francine Prose, Jeffrey Eugenides, and Michael Chabon to pop-culture icons such as Anthony Bourdain and January Jones. Now St. Aubyn returns with a hilariously smart send-up of a certain major British literary award. The judges on the panel of the Elysian Prize for Literature must get through hundreds of submissions to find the best book of the year. Meanwhile, a host of writers are desperate for Elysian attention: the brilliant writer and serial heartbreaker Katherine Burns; the lovelorn debut novelist Sam Black; and Bunjee, convinced that his magnum opus, *The Mulberry Elephant*, will take the literary world by storm. Things go terribly wrong when Katherine's publisher accidentally submits a cookery book in place of her novel; one of the judges finds himself in the middle of a scandal; and Bunjee, aghast to learn his book isn't on the short list, seeks revenge. *Lost for Words* is a witty, fabulously entertaining satire that cuts to the quick of some of the deepest questions about the place of art in our celebrity-obsessed culture, and asks how we can ever hope to recognize real talent when everyone has an agenda.

In the wake of Watergate, Gerald Ford appointed eminent lawyer and scholar Edward H. Levi to the post of attorney general—and thus gave him the onerous task of restoring legitimacy to a discredited Department of Justice. Levi was famously fair-minded and free of political baggage, and his inspired addresses during this tumultuous time were critical to rebuilding national trust. They reassured a tense and troubled nation that the Department of Justice would act in accordance with the principles underlying its name, operating as a nonpartisan organization under the strict rule of law. For *Restoring Justice*, Jack Fuller has carefully chosen from among Levi's speeches a selection that sets out the attorney general's view of the considerable challenges he faced: restoring public confidence through discussion and acts of justice, combating the corrosive skepticism of the time, and ensuring that the executive branch would behave judicially. Also included are addresses and Congressional testimonies that speak to issues that were hotly debated at the time, including electronic surveillance, executive privilege, separation of powers, antitrust enforcement, and the guidelines governing the FBI—many of which remain relevant today. Serving at an almost unprecedentedly difficult time, Levi was among the most admired attorney generals of the modern era. Published here for the first time, the speeches in *Restoring Justice* offer a superb sense of the man and his work.

A Road Trip with David Foster Wallace
A World History, Volume 1, Study Edition
A Hard and Bitter Peace
Responding to Relativism with Logic and Love
Twelve Years a Slave
The Golden House

This blistering novel—from the bestselling, Pulitzer Prize-winning author of The Road—returns to the Texas-Mexico border, setting of the famed Border Trilogy. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning’s headlines. No Country for Old Men is a triumph. City of love. City of splendour. City of terror. City of dreams. Inspired by the haunting, passionate story of the city of lights, this epic novel weaves a gripping tale of four families across the centuries: from the lies that spawn the noble line of de Cygne to the revolutionary Le Sourds who seek their destruction; from the Blanchards whose bourgeois respectability offers scant protection against scandal to the hard-working Gascons and their soaring ambitions. Over hundreds of years, these four families are bound by forbidden loves and marriages of convenience; dogged by vengeance and murderous secrets; torn apart by the irreconcilable differences of birth and faith, and brought together by the tumultuous history of their city. Paris bursts to life in the intrigue, corruption and glory of its people. Beloved author of Sarum, London and New York, Edward Rutherfurd illuminates Paris as only he can: capturing the romance and everyday drama of the men and women who, in two thousand years, transformed a humble trading post on the muddy banks of the Seine into the most celebrated city in the world. NEW YORK TIMES BESTSELLER Edward Snowden, the man who risked everything to expose the US government’s system of mass surveillance, reveals for the first time the story of his life, including how he helped to build that system and what motivated him to try to bring it down. In 2013, twenty-nine-year-old Edward Snowden shocked the world when he broke with the American intelligence establishment and revealed that the United States government was secretly pursuing the means to collect every single phone call, text message, and email. The result would be an unprecedented system of mass surveillance with the ability to pry into the private lives of every person on earth. Six years later, Snowden reveals for the very first time how he helped to build this system and why he was moved to expose it. Spanning the bucolic Beltway suburbs of his childhood and the clandestine CIA and NSA postings of his adulthood, Permanent Record is the extraordinary account of a bright young man who grew up online—a man who became a spy, a whistleblower, and, in exile, the Internet’s conscience. Written with wit, grace, passion, and an unflinching candor, Permanent Record is a crucial memoir of our digital age and destined to be a classic.

The gripping story of the Supreme Court’s transformation from a measured institution of law and justice into a highly politicized body dominated by a right-wing supermajority, told through the dramatic lens of its most transformative year, by the Pulitzer Prize-winning law columnist for The New York Times “A dazzling feat . . . meaty, often scintillating and sometimes scary . . . Greenhouse is a virtuoso of SCOTUS analysis.”—The Washington Post In Justice on the Brink, legendary journalist Linda Greenhouse gives us unique insight into a court under stress, providing the context and brilliant analysis readers of her work in The New York Times have come to expect. In a page-turning narrative, she recounts the twelve months when the court turned its back on its legacy and traditions, abandoning any effort to stay above and separate from politics. With remarkable clarity and deep institutional knowledge, Greenhouse shows the seeds being planted for the court’s eventual overturning of Roe v. Wade, expansion of access to guns, and unprecedented elevation of religious rights in American society. Both a chronicle and a requiem, Justice on the Brink depicts the struggle for the soul of the Supreme Court, and points to the future that awaits all of us.

No Country for Old Men

Who Am I to Judge?

Original Sourcebook of Enochian Magic

A History Through Documents

From the author of *A Prayer for Owen Meany* and *The World According to Garp* comes "his most daringly political, sexually transgressive, and moving novel in well over a decade" (*Vanity Fair*). A *New York Times* bestselling novel of desire, secrecy, and sexual identity, *In One Person* is a story of unfulfilled love—tormented, funny, and affecting—and an impassioned embrace of our sexual differences. Billy, the bisexual narrator and main character of *In One Person*, tells the tragicomic story (lasting more than half a century) of his life as a "sexual suspect," a phrase first used by John Irving in 1978 in his landmark novel of "terminal cases," *The World According to Garp*. *In One Person* is a poignant tribute to Billy's friends and lovers—a theatrical cast of characters who defy category and convention. Not least, *In One Person* is an intimate and unforgettable portrait of the solitariness of a bisexual man who is dedicated to making himself "worthwhile."

A collection of more than 130 speeches, agreements, messages, declarations, etc. edited, excerpted, and arranged in chronological order.

"Don't be so judgmental!" "Why are Christians so intolerant?" "Why can't we just coexist?" In an age in which preference has replaced morality, many people find it difficult to speak the truth, afraid of the reactions they will receive if they say something is right or wrong. Using engaging stories and personal experience, Edward Sri helps us understand the classical view of morality and equips us to engage relativism, appealing to both the head and the heart. Learn how Catholic morality is all about love, why making a judgment is not judging a person's soul, and why, in the words of Pope Francis, "relativism wounds people." Topics include: • Real Freedom, Real Love • Sharing truth with compassion • Why "I disagree" doesn't mean "I hate you"

One of the world's most esteemed and influential psychologists, Roy F. Baumeister, teams with *New York Times* science writer John Tierney to reveal the secrets of self-control and how to master it. "Deep and provocative analysis of people's battle with temptation and masterful insights into understanding willpower: why we have it, why we don't, and how to build it. A terrific read."

—Ravi Dhar, Yale School of Management, Director of Center for Customer Insights Pioneering research psychologist Roy F. Baumeister collaborates with *New York Times* science writer John Tierney to revolutionize our understanding of the most coveted human virtue: self-control. Drawing on cutting-edge research and the wisdom of real-life experts, *Willpower* shares lessons on how to focus our strength, resist temptation, and redirect our lives. It shows readers how to be realistic when setting goals, monitor their progress, and how to keep faith when they falter. By blending practical wisdom with the best of recent research science, *Willpower* makes it clear that whatever we seek—from happiness to good health to financial security—we won't reach our goals without first learning to harness self-control.

Oliver Wendell Holmes: A Life in War, Law, and Ideas

Connections, Volume 1: A World History: To 1650 [With The Prentice Hall Atlas of World History 2/E]

A *New York Times* Notable Book of the Year A major reassessment of Winston Churchill that examines his lasting influence in politics and culture. Churchill is generally considered one of the greatest leaders of the twentieth century, if not the greatest of all, revered for his opposition to appeasement, his defiance in the face of German bombing of England, his political prowess, his deft aphorisms, and his memorable speeches. He became the savior of his country, as prime minister during the most perilous period in British history, World War II, and is now perhaps even more beloved in America than in England. And yet Churchill was also very often in the wrong: he brazenly contradicted his own previous political stances, was a disastrous military strategist, and inspired dislike and distrust through much of his life. Before 1939 he doubted the efficacy of tank and submarine warfare, opposed the bombing of cities only to reverse his position, shamelessly exploited the researchers and ghostwriters who wrote much of the journalism and the books published so lucratively under his name, and had an inordinate fondness for alcohol that once found him drinking whisky before breakfast. When he was appointed to the cabinet for the first time in 1908, a perceptive journalist called him "the most interesting problem of personal speculation in English politics." More than a hundred years later, he remains a source of adulation, as well as misunderstanding. This revelatory new book takes on Churchill in his entirety, separating the man from the myth that he so carefully cultivated, and scrutinizing his legacy on both sides of the Atlantic. In effervescent prose, shot through with sly wit, Geoffrey Wheatcroft illuminates key moments and controversies in Churchill's career—from the tragedy of Gallipoli, to his shocking imperialist and racist attitudes, dealings with Ireland, support for Zionism, and complicated engagement with European integration. Charting the evolution and appropriation of Churchill's reputation through to the present day, *Churchill's Shadow* colorfully renders the nuance and complexity of this giant of modern politics.

A *New York Times* Notable Book of 1996 It was in tolling the death of Supreme Court Chief Justice John Marshall in 1835 that the Liberty Bell cracked, never to ring again. An apt symbol of the man who shaped both court and country, whose life "reads like an early history of the United States," as the *Wall Street Journal* noted, adding: Jean Edward Smith "does an excellent job of recounting the details of Marshall's life without missing the dramatic sweep of the history it encompassed." Working from primary sources, Jean Edward Smith has drawn an elegant portrait of a remarkable man. Lawyer, jurist, scholar; soldier, comrade, friend; and, most especially, lover of fine Madeira, good food, and animated table talk: the Marshall who emerges from these pages is noteworthy for his very human qualities as for his piercing intellect, and, perhaps most extraordinary, for his talents as a leader of men and a molder of consensus. A man of many parts, a true son of the Enlightenment, John Marshall did much for his country, and *John Marshall: Definer of a Nation* demonstrates this on every page.

Connections: A World History, Third Edition is also available via REVEL(tm), an immersive learning experience designed for the way today's students read, think, and learn.

This comprehensive text provides a balanced survey of the Cold War in a genuinely global framework. Tracing the Cold War from its roots in East-West tensions before World War II, the authors conclude with its ongoing legacy. Written in an engaging style, this book will bring the Cold War era to life for readers who didn't experience it directly.

The Life and Turbulent Times of Chief Justice John Roberts

Anticolonialism and the Cold War

Justice on the Brink

In One Person

A World History; Books a La Carte Edition

This print textbook is available for students to rent for their classes. The Pearson print rental program provides students with affordable access to learning materials, so they come to class ready to succeed. For courses in world history. A clear, compelling, concise rendering of world history that focuses on societal connections In an age of growing global interconnectedness, an understanding of diverse world cultures and their histories has never been more essential. Connections: A World History helps students achieve this understanding with its simple, straightforward narrative that tells the compelling story of the peoples and societies that preceded us and how they shaped the world. The title's concise chapters feature engaging, readable content that focuses on the central theme of connections among world societies. The 4th Edition features over 100 maps, History 360 interactive experiences, and updated interpretations and learnings throughout.

History isn't always written by the winners... Twenty-first-century controversies over Confederate monuments attest to the enduring significance of our nineteenth-century Civil War. As Lincoln knew, the meaning of America itself depends on how we understand that fratricidal struggle. As soon as the Army of Northern Virginia laid down its arms at Appomattox, a group of Confederate officers took up their pens to refight the war for the history books. They composed a new narrative—the Myth of the Lost Cause—seeking to ennoble the sacrifice and defeat of the South, which popular historians in the twentieth century would perpetuate. Unfortunately, that myth would distort the historical imagination of Americans, north and south, for 150 years. In this balanced and compelling correction of the historical record, Edward Bonekemper helps us understand the Myth of the Lost Cause and its effect on the social and political controversies that are still important to all Americans.

Rediscovering the Greatest Human Strength

Restoring Justice

Paris

A Requiem for the Supreme Court

The Struggle Against Imperialism

Why the South Fought the Civil War and Why the North Won
