Ludwig Wittgenstein famously said, "Ethics is aesthetics." It is unclear what such a claim might mean and whether it is true. This book explores contentious issues arising at the interface of ethics and aesthetics. The contributions reflect on the status of aesthetic and ethical judgments, the relation of aesthetic beauty and ethical goodness and art and character development. The book further considers the potential role art could play in ethical analysis and in the classroom and explores in what respects aesthetics and ethics might be intertwined and even mutually supportive.

Shading Our Cities is a handbook to help neighborhood groups, local officials, and city planners develop urban forestry projects, not only to beautify their cities, but also to reduce energy demand, improve air quality, protect water supplies, and contribute to healthier living conditions.

Now in its ninety-third year of publication, this standard Canadian reference source contains the most comprehensive and authoritative biographical information on notable living Canadians, carefully selected because of the positions they hold in Canadian society, or because of the contribution they have made to life in Canada. The volume is updated annually to ensure that 1,000 new entries are added each year to keep current with developing trends and issues in Canadian society. Included are outstanding Canadians from all walks of life: politics, medicine, sports and the arts, from every area of human activity. Each entry details birth date and place, education, family, career history, memberships, creative works, honours and awards. Indispensable to researchers, students, media, business, government and schools, Canadian Who's Who is an invaluable source of general knowledge. The complete text of Canadian Who's Who is available on CD-ROM, in a comprehensively indexed and fully searchable format. Search 'astronaut' or 'entrepreneur of the year,' 'aboriginal achievement award' and 'Order of Canada' and display information. Fast, easy and more accessible than ever, the Canadian Who's Who on CD-ROM is an essential addition to your computer library. Network Licencing available. ISBN 0-89603-386/25Mhz - 4mb RAM (8mb recommended) MAC: System 7 or higher - 4mb RAM (8mb recommended)

Offering suggestions for would-be entrepreneurs, identifies the barriers that start-ups encounter and provides specific strategies, research, case histories, and tools to help readers achieve success.

For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide.

Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

How much 'say' should employees have in the running of business organizations, and what form should the 'voice' take? This is both the oldest and latest question in employment relations. Answers to these questions reflect our fundamental assumptions about the nature of the employment relationship, and inform our views on almost every aspect of Human Resource Management (HRM) and Employment Relations. Voice can also mean different things to different people. For some, employee voice is a synonym for trade union representation which aims to defend

and promote the collective interests of workers. For others voice, is means of enhancing employee commitment and organisational performance. Others advocate workers control as an alternative to conventional capitalist organisations which are run for shareholders. There is thus both a moral and political argument for a measure of democracy at work, as well as a business case argument, which views voice as a potential link in the quest for increased organisational performance. The key debate for employment relations is which of the approaches 'works best' in delivering outcomes which balance competitiveness and productivity, on the one hand, and fair treatment of workers and social justice on the other. Policy makers need pragmatic answers to enduring questions: what works best in different contexts, what are the conditions of success, and what are the drawbacks? Some of the most significant developments in employee voice have taken place within the European Union, with various public policy and employer experiments attracting extensive academic research. The book offers a critical assessment of the main contemporary concepts and models of voice in the UK and Europe, and provides an in-depth theoretical and empirical exploration of employee voice in one accessible and cohesive collection.

Learn the art--and science--of risk management In this exceptionally lucid, accessible book, one of the most highly regarded industry experts illuminates the delicate process of making decisions in an uncertain world and helps both lay people and professional risk managers understand the role of "risk-management" in their work, their lives, and their businesses. This book will enable professional risk managers to truly grasp the concepts behind their tools, and it will enable their clients (investors) and their coworkers to understand them as well. Handy and easy-to-read, The Book of Risk provides a down-to-earth look at an exciting field that has practical applications for everyone. Dan Borge, PhD (Clinton Corners, NY), was managing director and partner at Bankers Trust Company. He was with Bankers Trust for the last twenty years and was the architect of the first-ever risk management system implemented institutionally--Bankers Trust's renowned RAROC system. Prior to working at Bankers Trust, he designed airplanes at Boeing. He is an aeronautical engineer and has a PhD in finance from Harvard Business School.

IN BUSINESS AND IN LIFE: THE SHORTEST DISTANCE BETWEEN TWO POINTS IS STRAIGHT TALK! Candor doesn't necessarily come naturally. It requires practice, but one can learn the behaviors and authentic ways of speaking that tap into the power of candor. With her executive experience, Nancy knows how to help people build success from the inside out. She coaches them to understand their passions, identify a vision, and follow through with velocity. If you feel you are working harder than ever but falling short on your desired results, Uncommon Candor will give you a fresh and nononsense approach for moving the needle. Strategic thinking and execution planning only work when leaders talk straight about what is working and what is not. Nancy Eberhardt's Uncommon Candor is a key component to getting uncommon results. —VERNE HARNISH, author of Mastering the Rockefeller Habits, creator of the One Page Strategic Plan™, founder of Gazelles, Inc. Nancy Eberhardt shows you exactly what to say and do when handling dozens of sensitive situations you encounter on and off the job. You'll appreciate her pragmatic, "I can use that today" advice and real-life examples you can relate to. Read it and reap. —SAM HORN, author of POP! and Tongue Fu!

Who's who in Finance and Industry

Saudi Arabia has in recent years committed large-scale investments in digitalizing its economy. In this special report, we delve deeper into these developments through the eyes of the business and political leaders who are leading the charge. This special report comes in a new series of online publications, focusing on a certain aspect or industry in one of our 35 global markets. Our reports are consumed by investors, analysts, and decision makers around the world. This 74-page report covers digital governance, financial technology, telecoms and cybersecurity, logistics, industry, and education.

"The impact of the global financial and economic crisis on the Middle East and North Africa region was relatively mild. Lack of integration and a large public sector helped insulate the region to some extent, but now these and other factors are slowing down the speed of its economic recovery. The report examines the major factors threatening the recovery and those that obstruct long-term growth, especially non-oil export growth, which in net terms contributed little to regional growth during the past decade, with non-oil exports remaining below potential in many countries in the region. The report emphasizes several major areas in need

of policy makers\2019 attention, including restrictive trade policies, particularly those affecting trade in services; governance issues linked to uneven application of rules and regulations; inefficient and inflexible labor markets and scarcity of skills, innovation and technological capabilities."--page xi.
