Eliot H. Dunskey, MD, is a retired physician who since his diagnosis in 2009 has been living with ALS, the complex, progressively debilitating disorder commonly known as Lou Gehrig's disease. Determined to maintain the best quality of life possible—for as long as possible—he extensively researched the condition and its management. As he immersed himself, talking to ALS patients and exploring emerging assistive technologies and aids, he realized that misunderstanding of this complicated disease was rife, preventing many from making the most of the precious years left. The result is this compilation of not only his personal experiences as his own condition advanced but also current research and links to additional specialized resources. Its aim is to help other patients learn to live with their diagnosis and navigate the day-to-day struggles associated with it. Appropriate symptom management can help fend off the devastating effects of the disease for a longer period of time. ALS: An Orientation offers a practical guide for patients and their families on maximizing quality of life through strategic care and, importantly, coping with the emotional toll the disease can take. A terminal diagnosis simply means savoring to the fullest the life that is still possible.

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Following the Pulitzer prize-winning collection Stag's Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in

language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

It is the wet season in the Australian outback. Drunk and delirious, an old ex-pilot known as "Pisspot Stevie" lies dying in a remote cabin in the Queensland bush. When a priest named Roger Hargreaves comes upon him, Stevie is smoking opium to relieve the pain of his last moments. The priest listens as Stevie, in an opium-fueled haze, begins to describe a very different life he once lived—not in the past, but decades in the future, as a mixed-race aviator who finds love and glory in service to the Queen. After Stevie's death, as Hargreaves tries to sort dream from reality, he makes discoveries that cause him to wonder if he has been granted a glimpse beyond the veil.

"Fear Not my dear, Fear not of me Fear Not for fear shall not help thee The time is short, my plans are made Your casket shall be trimmed with jade." Thus begins Aurore Leigh Barrett's poem, "Fear Not" - an homage to one of her favorite poets, Edgar Allan Poe. It masterfully combines the macabre with the humorous. This stellar work, which Poe, no doubt, would wish he had written, is just one of a few poems in this current collection written in his honor - and one of many poems you will find that ably represent Barrett's enormous talent. This collection of poems and stories by Aurore Leigh Barrett invites you to step into the world of this creative artist, and sample the breadth and depth of her literary world. Rather than being an exhaustive representation of a solitary style or mood, this book is a buffet of delights as it takes you from the lows of her loneliness to the heights of her happiness - from the dark and scary side of her imagination to the forthright and intelligent adventures of her alter-ego, Holly Hedges Whistler. Through it all, we share in her view of the world, and the way she makes the most of every day this life has to offer. In "Stardust", Barrett tells how she begins each day - throwing a spoonful of stardust into the wind. "The Stardust flies, the light sparkles, the grass begins to twinkle as the blades catch each falling 'star', and the flowers bow their heads as if to receive this glistening gift." As Barrett lays bare her feelings, she tells us that writing is "a beautiful sweet torture of the soul". She tells us that "writing is the pain of pulling away precious bits of memory or time. It is the quickening of birth within the loins of creation. It is the delicious ecstasy of desire that only I can satisfy." Welcome to her world. This all-too-brief collection of Aurore Leigh Barrett's writing will leave you hungry for more.
