The quintessential guide to yoga assisting and hands-on teaching, Yoga Adjustments introduces the art and practice of providing yoga assists to yoga students. Addressing one of the most important topics in the yoga field, expert yoga instructor and best-selling author Mark Stephens covers the philosophy of yoga practice, the sensibilities of touch in teaching yoga and improving alignment, the seven principles of hands-on yoga teaching, and the twenty-five most effective methods of tactile cueing. An invaluable resource for all yoga teachers, teacher trainers, and serious yoga students, this book includes a foreword by yoga star Shiva Rea as well as over 850 unique instructional photos and explanatory captions demonstrating precise ways of guiding a variety of flowing sequences. Opening with an in-depth discussion of the philosophy of yoga assisting, Part I--Foundations describes the methods and techniques of giving yoga assistance, with detailed discussions of all of the elements of yoga assisting including communicating with students, qualities of touch, the five basic steps of providing hands-on cues, hands-on positioning and stance. Part II--Applications demonstrates how to assist students in each of over 100 postures in the seven families of asanas (poses). Each chapter begins with background on an asana family and close consideration of its foundation asana. Each asana is presented in a two-page spread with photos that show how to give students effective guidance and support. Part III--Evolution offers thoughts on the further development of yoga in the twenty-first century.

An exceptionally beautiful and hospitable country, Oman is a researchers delight, with archives and manuscripts, archaeological and ethno-archaeological attractions ranging from pre-Islamic Arabia to the present, and modern multi-tribal communities. Located on the southern edge of the Persian Gulf, where the Arabian Sea and the Indian Ocean meet and control the entrance to the Persian Gulf, it has stood at a commercial and cultural crossroads for centuries. But with commercial sea routes also to Africa and Asia, it is simultaneously a contemporary state that combines modernity and tradition, religion and multiculturalism -- a place where the present meets the past without being bound by it. It is, thus, no accident that Ibadis have played and continue to play an important role in the history of Muslim theology and its political theory, a role that only in recent years has begun to be acknowledged in international academic circles. This volume presents the proceedings of the first international conference dedicated to Ibadism and the Sultanate of Oman, which was held at Aristotle University of Thessaloniki in November 2009. The goal of the conference was to introduce Ibadism and Ibad Studies to the worldwide research community and, indeed, it has served as the springboard for other conferences and the founding of academic groups dedicated to Ibadism and the Sultanate of Oman. In the first part of this volume, we are guided through Ibad history, theology, and jurisprudence while the second part opens the reader to a broad vista on the dialectics between religion, society, and politics within contemporary Ibad communities and especially that of Oman. By introducing Ibadism to the broader academic community, we hope to contribute to the mutual understanding and rapprochement of peoples, cultures, and religions. In this regard, each paper in the present volume has lasting value. (Luxury Edition)

This book collects experimental 'visual poetry.' With The Last Vispo Anthology, Fantagraphics spotlights the intersection of art and language in this innovative new collection ? without peer in English ? that gathers the work of visual poets from around the world into one stunning volume. The alphabet is turned on its head and inside-out as surprising verbo-visual gems. The Last Vispo is composed of visual poetry (a portmanteau of the words 'visual' and 'poetry') from the years 1998 to 2008, during a burst of creative activity fueled by file sharing and e-mail, which made it possible for the vispo community to establish a more heightened and sophisticated dialogue with one another and literature that began with ancient 'shaped text,' medieval pattern poetry, and dada typography, pushing past the concrete poetics of the 1950s and the subsequent mail art movement of the 1980s to its current incarnation. Rather than settle into predictable, unchallenged patterns, this vibrant poetry seizes new tools to expand the boundaries of the poetic language. The Last Vispo features 148 contributors from 23 countries on five continents. It includes 12 essays that illuminate the abundant history and the state of vispo today. The anthology offers a broad amalgam of long-time practitioners and poets new to visual poetry over the last decade, underscoring the longevity and the vitality of the Visual Poetries 1998-2008
