

English And European Legal Systems

Eine Gruppe von deutschen Kennern des Rechts der Kapitalgesellschaften aus Wissenschaft und Praxis hat sich zusammengefunden, um Sinn und Nutzen des festen Kapitals und seiner einzelnen Elemente zu untersuchen. Im vorliegenden Band finden sich, neben einer Zusammenfassung der Ergebnisse, insgesamt 16 Einzeluntersuchungen zu Aspekten des Kapitals in Deutschland und seiner Bezüge zu angrenzenden Rechtsbereichen (z.B. Rechnungslegung, Insolvenz) sowie 7 Berichte zum festen Kapital im Ausland (Frankreich, Großbritannien, Italien, Niederlande, Polen, Spanien und USA).

A clear and concise account of the main sources of English Law, the personnel of the law and the main aspects of civil and criminal procedure. The textbook analyses important developments in relation to diversity in the judiciary, the Law Commission and the Constitutional Reform Act 2005.

How does the English legal system work? How does it affect everyday life? How well does it achieve its aims? Addressing these questions and more, English Legal System provides students with the fundamental knowledge they need to approach the subject with confidence. Packed with questions, case studies and examples, this book takes students

File Type PDF English And European Legal Systems

on a journey, inviting them to read, understand, see the law in practice, and then think for themselves. The strongest foundation for students at the start of their study of law; this is a clear, complete, and contextualized account of the English legal system and an essential guide. Online resources English Legal System is supported by extensive online resources, featuring the following: For students:- Self-test questions to check understanding and progress- Multiple-choice questions to test the application of knowledge- Web links to aid reading around the topics- Video material to bring topics to life- A guide to reading cases to help build this key legal skill For lecturers:- Diagrams from the book for use in presentations

International commerce is made more difficult and costly by the requirements of all the different legal systems involved and nowhere more so than within the European Union. There are fundamental differences here between the attitudes and responses of the English common law and those of the civil law systems across the rest of Europe. The answers they give may be much the same in the end, but business people and legal practitioners clearly need to understand how very different the vocabularies and processes of argument and analysis can be. Earlier editions of this work proved very helpful for these purposes, and now another update has become necessary. The book explains in

File Type PDF English And European Legal Systems

plain English the day-to-day realities of British business practices and usages as reflected in the decisions of the courts, and provides concise statements of equivalent rules in eight other EU jurisdictions Denmark, France, Germany, Italy, The Netherlands, Poland, Spain, and Sweden written by distinguished legal scholars from those countries. Scottish, Commonwealth and United States rules are also noted, As are the proposed Principles of European Contract Law. Appendices include essential United Kingdom statutory materials And The Vienna Convention on Contracts For The International Sale of Goods. This fifth edition of this important work, featuring some 150 new cases and new provisions in national codes, will be as widely welcomed by practitioners as by students of business and comparative law.

Legal Capital in Europe

Unlocking the English Legal System

English and European Legal Systems

European Legal Cultures in Transition

Contract Law and Practice

The EU legal order sits above a diverse mix of 27 national legal systems, with some 23 different languages. Amongst such diversity, how can the unity and coherence of the European legal system be guaranteed? Is there a common understanding between lawyers from different national backgrounds as to the meaning and application of EU law? In addressing these issues the idea of 'common

concepts' has played a crucial role - it is argued that the unity of the system is guaranteed by the consistent application of certain core principles shaping the law. To what extent can these concepts be trusted to provide a firm basis for the coherence of the EU legal order? Believers in common concepts argue that there is a relatively clear, shared and accepted framework of ideas, providing an understanding of the system that is ultimately unified in spite of all apparent divergence. Sceptics hold that there is no such framework; 'common concepts' turn out to be additional sources of misunderstanding, confusion and, subsequently, legal divergence. According to a third thesis, there is indeed no common conceptual core, but the necessary unity and coherence of EU law can be articulated and even reinforced through the use of divergent concepts. The contributors to this collection of essays address these issues from different disciplinary perspectives - legal sociology, linguistics, comparative law, European legal scholarship, legal theory and practical experience. The research group focused on the application of two general themes: the protection of rights and judicial discretion. In addition to the thematic research, case studies from core policy sectors are featured, including energy regulation and social policy. Introduction to the English Legal System is the ideal foundation for those coming new to the study of law. Writing in a highly engaging and accessible style, Martin Partington introduces the purposes and functions of English law, the law-making process, and the machinery of justice, while also challenging assumptions and exploring current debates.

File Type PDF English And European Legal Systems

Consolidating over 40 years' experience in the law, Martin Partington examines beliefs about the English legal system, and encourages students to question how far it meets the growing demands placed on it. Incorporating all the latest developments, this concise introduction brings law and the legal system to life. Online resources: This book is accompanied by online resources, including: questions for reflection and discussion; multiple choice questions; a glossary; further reading materials; web links; and a link to Martin Partington's blog, which covers his views on key developments in the English justice system.

Slapper and Kelly's The English Legal System explains and critically assesses how our law is made and applied. Annually updated, this authoritative textbook clearly describes the legal rules of England and Wales and their collective influence as a sociocultural institution. This latest edition of The English Legal System has been substantially rewritten and updated to include: updates to anti-terrorism legislation and control orders; an entirely new chapter on Family Courts and Process; the new Crime and Courts Act 2013; coverage of the Ministry of Justice proposals for reform of judicial review; expanded coverage of mediation and the Children and Families Bill 2013 and this edition also includes substantial updates arising from the Legal Aid, Sentencing and Punishment of Offenders Act 2012. Key learning features include: a clear and logical structure with short, manageable, well-structured individual chapters; useful chapter summaries which act as a good check point for students; sources for further reading and suggested websites at the end of

each chapter to point students towards further learning pathways; an online skills network including how tos, practical examples, tips, advice and interactive examples of English law in action. Relied upon by generations of students, Slapper and Kelly's *The English Legal System* is a permanent fixture in this everevolving subject. Companion Website Visit *The English Legal System* companion website: www.routledge.com/cw/slapper Here you can find a bank of activities and exercises corresponding to the chapters in the book designed to give you the opportunity to test your knowledge and further your understanding of the English legal system. These include:

- News and updates
- Comprehensive legal skills guide
- Multiple choice questions
- Interactive glossary

Legal Systems & Skills provides students with a practical guide to all the essential knowledge and skills they will need for their law degree and beyond. Divided into three core areas, it forms a foundation for legal studies and for graduate employment. *Essential Legal Systems: Part I* delivers a focused and practical guide to the purpose and application of law. Contemporary and holistic in approach, it covers all the essential topics in legal systems, considering social, moral, ethical, and jurisprudential perspectives. Taking learning further, it helps students to critically evaluate legal systems and their implications for individuals, businesses, and commerce. *Essential Legal Skills: Part II* demonstrates step-by-step approaches to acquiring and honing the skills needed for the academic study of law and professional practice. Numerous visual aids and learning features help students to become

File Type PDF English And European Legal Systems

adept researchers, nimble problem-solvers, dexterous writers, and competent communicators. They will acquire the tools they need to analyse, evaluate, and apply the law, and to thrive in their future careers. Essential Employability and Commercial Awareness: Part III helps students to see how their knowledge and skills can be practically applied, in the legal world or outside of it. Students are encouraged to reflect on and actively improve their commercial awareness through case studies, practice interview questions, and activities, giving them the skills to thrive in the world of work.

Targeted coverage of employability, CV development, and transferrable skills helps students to approach their future careers with confidence and communicate their own competencies effectively. This book is the essential contemporary toolkit for savvy law students, enabling them to: Learn how law works; Develop the essential skills; and Apply them to succeed. Online Resource Centre This text is accompanied by an Online Resource Centre offering a range of stimulating resources, including: Self-test questions The authors' guidance on the thought-provoking questions in the book A library of web links for students Regular updates in the law

A History of Illinois Courts under French, English, and

American Law

Unlocking The English Legal System

Comparative Legal Traditions

The English Legal System provides a lively and approachable introduction for those new to the study of law. The textbook presents the main areas of the English legal system and invites students to critique the wider aspects of how law is made and reformed. Clearly structured in four parts, and designed to reflect the content of legal system courses, the book provides thorough and informative coverage of all main topics. These include sources of law, the legal profession, civil disputes, the criminal courts, litigation, and a whole chapter on human rights. The book is fully up to date including recent key developments and recent cases such as: * The Constitutional Reform Act 2005* Discussion of AG v Jackson 2005 (the validity of Parliament Act)* Coverage of recent topical international and human rights developments.* Criminal Justice Act 2003

The book includes several features to support student learning and inspire engagement with the subject. The crisp, colour design and numerous headings aid navigation and provide clear guidance as to the progression of the chapters. Online Resource Centre

The book is accompanied by an innovative online resource centre offering several resources to support teaching and learning. Lecturers can track student progress using an online bank of 300 multiple choice questions offering immediate answers and feedback that can be loaded on to

File Type PDF English And European Legal Systems

the university's VLE and customised . Twice yearly updates on the web site will include references to topical material and events and will draw students' attention to new developments.

A concise legal history of Illinois through the end of the nineteenth century, *Prairie Justice* covers the region 's progression from French to British to early American legal systems, which culminated in a unique body of Illinois law that has influenced other jurisdictions. Written by Roger L. Severns in the 1950s and published in serial form in the 1960s, *Prairie Justice* is available now for the first time as a book, thanks to the work of editor John A. Lupton, an Illinois and legal historian who also contributed an introduction. Illinois ' legal development demonstrates the tension between two completely different European legal systems, between river communities and prairie towns, and between agrarian and urban interests. Severns uses several rulings—including a reconstitution of the Supreme Court in 1824, slavery-related cases, and the impeachment of a Supreme Court justice—to examine political movements in Illinois and their impact on the local judiciary. Through legal decisions, the Illinois judiciary became an independent, co-equal branch of state government. By the mid-nineteenth century, Illinois had established itself as a leading judicial authority, influencing not only the growing western frontier but also the industrialized and farming regions of the country. With a close eye for detail, Severns reviews the status of the legal profession during the 1850s by looking new members of

File Type PDF English And European Legal Systems

the Court, the nostalgia of circuit riding, and how a young lawyer named Abraham Lincoln rose to prominence. Illinois has a rich judicial history, but that history has not been adequately documented until now. With the publication of *Prairie Justice*, those interested in Illinois legal history finally have a book that covers the development of the state's judiciary in its formative years.

This detailed book begins with some reflections on the importance of judicial interactions in European constitutional law, before going on to compare the relationships between national judges and supranational laws across 27 European jurisdictions. For the same jurisdictions it then makes a careful assessment of way in which ECHR and EU law is handled before national courts and also sets this in the context of the original goals and aims of the two regimes. Finally, the authors broaden the perspective to bring in the prospects of European enlargement towards the East, and consider the implications of this for the rapprochement between the two regimes. *The Interaction between Europe's Legal Systems* will strongly appeal to academics and students in European law, comparative law, theory of law, postgraduate students and LLM students in European law and in comparative law.

"*English as a Legal Language* is a lawyer's plain language guide to English legal terminology. Anyone who finds it difficult to express legal terms in English simply looks under the general heading to find the relevant terms and

File Type PDF English And European Legal Systems

their usage. This book can also be used to find explanations of words from a translating dictionary. Further, it is structured as a thesaurus, organized according to topic with an alphabetical index. More and more, lawyers need the English language. But attempts to convert the language to meet one's own purpose often result in misconceptions. English legal language has its roots in the Anglo-American legal tradition and the non-native speaking lawyer may have difficulty understanding a word choice in English without also seeing how it fits into legal thinking and relates to other words in the subject area as a whole. "English as a Legal Language offers a comparative lexicon of US and UK legal systems, with references to European legal systems. Special features of this work include: - The vocabulary of an entire area of law in each section; - A verb section which provides guidance on substantives, adjectives, adverbs, phrases, usage, as well as sample sentences and clues about typical mistakes; and - An index which gives an alphabetical rendition of the topically ordered definitions - essential for words that have multiple definitions. All lawyers working in English, and especially continental European lawyers, will find this book indispensable in their practices. The book is also of prime interest to business people, accountants, translators, legal secretaries and students. It will enable all practitioners and academics to express complex ideas in English, to understand the intricacies of English as a legal language, and to avoid the potential mishaps, when language barriers prevent a true meeting

File Type PDF English And European Legal Systems

of minds.

Legal Systems & Skills

The Common Core of European Private Law:Essays on the Project

The Reform of Class and Representative Actions in European Legal Systems

Module Planner

The Legal Construction of Personal Work Relations

Fully updated with all of the latest developments, this will give you a full understanding of the English Legal System. This book examines the principal trends and policy goals relating to collective redress mechanisms in Europe. It identifies three principal areas in which procedures and debates have emerged: within consumer protection and competition law, and from some national court systems. It identifies differing national models of public and private enforcement in consumer protection law in the Member States, and the search for more efficient and inclusive procedures that would deliver increased access to justice and enhanced compliance with desired standards (arguably through deterrence). A sequence of case studies illustrates the pros and cons of differing models. Lessons are also drawn from the experience of class actions in the USA over the transactional costs of private law mechanisms, and adverse economic consequences. The various policy strands are unravelled and prioritised, and options for

the future are recommended. The American 'private enforcement' model is contrasted with the more prevalent European public and mediated enforcement tradition. New developments involving Ombudsmen and oversight of compensation by public enforcement bodies are identified, and underlying theories of restorative justice and responsive regulation discussed. Public, private, formal, informal, ADR and voluntary methodologies are evaluated against criteria, and it is concluded that the optimal options for collective redress in Europe involve a combination of approaches, with priority given to public and voluntary solutions over private court-based mechanisms. "Reform of collective redress is the hottest topic in European civil justice today. Dr. Hodges, one of the world's leading experts in the field, provides a deeply informed evaluation of the current debates. Illustrative case studies drawn from both consumer protection and competition areas enrich and ground his provocative analysis of the complex issues at stake making this a "must-have" book for every practitioner, academic and policy-maker in the field". Professor Jane Stapleton, Australian National University, and University of Texas, Austin.

Throughout comparative administrative law there is a concept that is not unequivocally labelled: public power, administrative power or public function. Nor is its semantic load the same in each legal system. This is why it

File Type PDF English And European Legal Systems

is so difficult to translate it into English, as reflected in the title of this monograph. Nevertheless, in different legal systems this term is of increasing importance in determining the scope of application of administrative law: it is used to identify bodies, tasks or functions that must be subject to specific rules of application and control, laid down by administrative law; in some cases, regarding relationships between privates. This monograph analyses the concept of administrative public power in several European legal systems: firstly, to know the scope of the concept in each legal system, and secondly, to see how it operates as a criterion for the application of administrative law. Although it may seem a conceptual and strictly academic subject, this book is very relevant for the interpretation and practical application of the law, due to the consequences that the concept of public administrative power has for delimiting the legal regime of many activities, both in the public and private sectors.

Tamar Herzog offers a road map to European law across 2,500 years that reveals underlying patterns and unexpected connections. By showing what European law was, where its iterations were found, who made and implemented it, and what the results were, she ties legal norms to their historical circumstances and reveals the law's fragile malleability.

A Historical and Comparative Perspective on English Public Law

Textbook

A New Framework for Collective Redress in Europe

English Legal System

The Impact of the ECHR on National Legal Systems

A concise account of the main sources of English Law - the personnel of the law and the main aspects of civil and criminal procedure. The textbook analyzes important developments such as the Civil Procedure Rules (1998) and the Labour government's radical reforms of aspects of the legal system.

The European Convention on Human Rights has evolved into a sophisticated legal system, whose formal reach into the domestic law and politics of the Contracting States is limited only by the ever-widening scope of the Convention itself, as determined by a transnational court. In this book, a team of distinguished scholars trace and evaluate, comparatively, the impact of the ECHR and the European Court of Human Rights on law and politics in eighteen national systems: Ireland-UK; France-Germany, Italy-Spain, Belgium-Netherlands, Norway-Sweden, Greece-Turkey, Russia-Ukraine, Poland-Slovakia, and Austria-Switzerland. Although the Court's jurisprudence has provoked significant structural, procedural, and policy innovation in every State examined, its impact varies widely across States and legal domains. The book charts this variation and seeks to explain it.

Across Europe, national officials - in governments, legislatures, and judiciaries - have chosen to incorporate the ECHR into domestic law, and they have developed a host of mechanisms designed to adapt the national legal system to the ECHR as it evolves. But how and why State actors have done so varies in important ways, and these differences heavily determine the relative status and effectiveness of Convention rights in national systems.

Although problems persist, the book shows that national officials are, gradually but inexorably, being socialized into a Europe of rights, a unique transnational legal space now developing its own logics of political and juridical legitimacy.

A long-standing and trusted text containing everything needed for students of the English legal system. This new edition has been thoroughly revised to improve usability and ensure an even closer fit to courses.

Law of the European Union, 6/e This book clearly explores constitutional and administrative law as well as the major areas of substantive law which are also considered in the context of implementation within the UK. Law of Contract, 8/e Law of Contract provides a clear and engaging explanation of the main principles of contract law. This book guides students through each topic, explaining how the law currently operates but also considering debate on reform to provide an understanding of how the law may develop. English Legal System, 8/e This best selling book on the English legal

File Type PDF English And European Legal Systems

system is a trusted and authoritative introduction to the legal system of England and Wales, used and appreciated by many students. It provides a lively and comprehensive guide to this ever-changing area, offering critical analysis of the existing laws and discussion of reform options, necessary for a good appreciation of the subject. The Longman Dictionary of Law, 7/e For over 25 years Longman Dictionary of Law has been the authority the legal community turns to for full and accurate definitions. It provides students and practitioners with essential information relating to the study and practice of law.

English and European Union Legal Systems

The latest book in the Emerald Home Lawyer Series is an ideal introductory book for the person who needs an insight into how the English legal system functions at all levels. The book examines the workings of the English legal system, looking at its main institutions and the role of parliament, as well as the role of the European Union. The book will prove an invaluable resource for all those who wish to develop their knowledge in this area and is written in a clear, concise style accessible to all.

This text offers an activity-based approach to the often difficult topic of the English legal system. The text incorporates a wide range of activities, exercises and real examination questions along with illustrations.

Provides a novel methodological approach to the study of popular and professional legal culture within the European context.

File Type PDF English And European Legal Systems

This book is the first comprehensive historical and comparative analysis of the emergence of English Public law as a distinct branch of law to govern the state. It explains persistent problems and considers potential reforms by contrasting the development of the innovative and influential French system of public law. It attributes the relative inadequacies of English public law to differences between the English and French legal and political traditions.

Prairie Justice

Walker & Walker's English Legal System

Clear, complete, and contextualized; this guide to the English legal system provides the strongest foundation for students at the start of their studies. Straightforward explanations of key topics are paired with learning features showcasing the law in its everyday context to give students a firm grasp on the fundamentals of the legal system.

The Old Bailey Press textbook series sets out the key elements of each subject area in a concise and easy-to-read format. The series is designed to give students a thorough grounding in vital principles, cases and legislation.

Advancing legal scholarship in the area of mixed legal systems, as well as comparative law more generally, this book expands the comparative study of the world's legal families to those of jurisdictions containing not only mixtures of common and civil law, but also to those mixing Islamic and/or traditional legal systems with those derived from common and/or civil law traditions. With

File Type PDF English And European Legal Systems

contributions from leading experts in their fields, the book takes us far beyond the usual focus of comparative law with analysis of a broad range of countries, including relatively neglected and under-researched areas. The discussion is situated within the broader context of the ongoing development and evolution of mixed legal systems against the continuing tides of globalization on the one hand, and on the other hand the emergence of Islamic governments in some parts of the Middle East, the calls for a legal status for Islamic law in some European countries, and the increasing focus on traditional and customary norms of governance in post-colonial contexts. This book will be an invaluable source for students and researchers working in the areas of comparative law, legal pluralism, the evolution of mixed legal systems, and the impact of colonialism on contemporary legal systems. It will also be an important resource for policy-makers and analysts.

law, the personnel of the law and the main aspects of civil and criminal procedure. It analyses developments such as proposed legislative change to the courts and criminal justice.

Seminar paper from the year 2015 in the subject Law - Civil / Private / Trade / Anti Trust Law / Business Law, grade: 1,2, Anglia Ruskin University (Ashcroft International Business School Cambridge), language: English, abstract: Different to the vast majority of the European Countries the legal system in the United Kingdom is not based on a constitution. English law is uncodified, this means that the laws of certain areas of law are not systematically bundled into one specific code. Basically, the English law is composed of three elements: directly enforceable EU law, common law and legislation created through Parliament whereas the latter is the highest form of UK law. Under British Constitutional Law the Parliament is sovereign. Following the traditional interpretation of Parliament Sovereignty "it has the power to make any statutes on any subject matter, and British courts are bound to enforce that laws" without questioning their validity. Contrary to countries with a written constitution, UK courts do not have the power to overrule statutes that appear to be unconstitutional. Characteristically, judges have a significant role within the English legal system. Unlike the, for example, German legal system judges in the United Kingdom do not only

File Type PDF English And European Legal Systems

decide on cases according to existing laws but also are able to create and influence laws. Due to the unique role of judges in the English court system the Doctrine of Precedent and Statutory Interpretation were manifested as principles of the national court system. Consequently, this paper will discuss the following statement in the light of the Doctrine of Precedent, the rules of Statutory Interpretation and whether judges should be creating new law. "It is not for the judge to invent fancied ambiguities as an excuse for failing to give effect to its [legislation] plain meaning because they themselves consider that the consequences of doing so would be inexpedient, or even unjust or immoral."

Despite the widespread use of English and the search for pan-European legal principles, national legal concepts and norms remain of vital, practical importance. This book endeavours to explain in as simple terms as possible, in the English language, the structure and terminology of some of the main areas of German public and private law.

Administrative Public Power: Comparative Analysis in European Legal Systems

File Type PDF English And European Legal Systems

Slapper and Kelly's The English Legal System explains and critically assesses how our law is made and applied. Trusted by generations of academics and students, this authoritative textbook clearly describes the legal rules of England and Wales and their collective influence as a sociocultural institution. This latest edition of The English Legal System has been substantially updated to include changes to the civil and criminal justice systems, changes in legal funding, developments in European law, and recent applications of human rights law. Key learning features include: useful chapter summaries which act as a good check point for students 'food for thought' questions at the end of each chapter to prompt critical thinking and reflection sources for further reading and suggested websites at the end of each chapter to point students towards further learning pathways; an online skills network including how tos, practical examples, tips, advice and interactive examples of English law in action. Relied upon by generations of students, Slapper and Kelly's The English Legal System is a permanent fixture in this ever-evolving subject. This book explores the conceptual framework of European employment law, focusing on understanding the law's construction of employment relationships. The book draws on extensive comparative research of the legal architecture of employment relations in national legal systems and EU law to analyse the traditional model of the contract of employment and the difficulties of using the traditional model to frame modern working relationships. The authors then present a new model of the foundations of employment relationships, based on

File Type PDF English And European Legal Systems

the concept of a personal work nexus, and explore the potential of their model to shape the future development of employment law. Throughout the book, the authors analyse the interaction of domestic and EU employment law, and discuss the possibility of future legal harmonisation in the area. They conclude by exploring the potential for a common framework for European employment law, in the context of broader debates surrounding the harmonisation of European private law. Unlocking the English Legal System will help you grasp the main concepts of the legal system in England and Wales with ease. Containing accessible explanations in clear and precise terms that are easy to understand, it provides an excellent foundation for learning and revising. This edition also contains four new chapters: on European Law and the English Legal System; Legal Reasoning; Alternative Dispute Resolution; and Legal Skills and Examination Preparation. In addition, this edition considers the legal consequences of the UK's decision to leave the EU, or 'Brexit'; the proposed Solicitors Qualifying Examination that will be introduced in 2021; the Lammy Review of Black, Asian and Minority Ethnic (BAME) representation in the Criminal Justice System; and the proposals for a new Online Court in the civil justice system. The books in the Unlocking the Law Series get straight to the point and offer clear and concise coverage of the law, broken-down into bite-size sections with regular recaps to boost your confidence. They provide complete coverage of both core and popular optional law modules, presented in an innovative, visual format.

File Type PDF English And European Legal Systems

The real reason for the emergence of this book is that it is hard to find resources to explain complex issues of the EU Law in plain language, which makes it very difficult for those taking an interest, in particular law students. Moreover, many years of teaching experience in this subject and seeing students experience difficulties is the key driver behind this book. This book does not repeat material that is available in many textbooks that are in print. Rather, it endeavours to present every topic in plain language and concludes every chapter with a fictitious explanatory sample case. In other words, it is an introduction to the subject of EU Law, the objective of which is to explain the topic both theoretically and in its application dimension. Additionally, this book will assist students to prepare for courseworks/examinations. At the end of the book there is also a test that summarizes all the subjects contained in the book, which is appropriate to the first stage SQE (Solicitors Qualifying Examination) examination model that will be introduced in September 2021. 'This is a clear and concise book with many helpful visual aids (diagrams, tables etc...) that make it very easy to follow. The content defines, explains and covers the key aspects of the English Legal System.' Ms Amel Ketani, Barrister and Senior Lecturer at BPP University 'Through explanation, questions and application examples, this book compliments traditional English Legal System textbooks in an easily accessible and practically useful way.' Dr Ryan Hill, Deputy Head of School, Anglia Ruskin University Law School
