with increasing numbers of learners of English worldwide and the growing relevance of EAL to numerous education systems. The volume examines different aspects of English from a multimodal perspective, showcasing empirical research from across five continents and all three levels of education. Applying frameworks based on Multimodal Social Semiotics and Systemic Functional Linguistics, chapters focus on the use and affordances of multimodal texts in pedagogy, literature, culture, text production, assessment and curriculum development connected to EAL.

Directing attention to the significance of modes beyond speech and writing in EAL, the volume provides a wide range of perspectives and experiences that can be applied more widely and inspire other practices in the global and diverse field of EAL teaching, learning and assessment. This collection will be of interest to scholars in multimodality, language education, and teacher education.

oral language skills and the particular needs of young "additional English language learners" settling into a new environment. It provides an introduction to the Foundation Stage curriculum and the ways in which links can be made with English as an additional language activity. The second part of the book presents practical activities grouped under the six areas of learning forming the early years curriculum. Each activity includes an appropriate objective, materials and preparation, key vocabulary to focus on and extension suggestions, as well as full guidance on how to manage the activity effectively. The book will be a valuable resource for all teachers, teaching assistants and other early years staff
