Children are naturally inquisitive and eager to explore and learn about the world around them. It is important for their guardians, both Parents and Teachers, to satisfy their queries, and that too, in such a way that the children are able to understand and comprehend the concepts as well as learn from them. Also, there exists a gap in the level of information and knowledge provided to the children by the Parents vs. that provided by their Teachers. Discrepancies might also exist in the methodology(ies) through which the information and knowledge is relayed. This increases the possibility that the children might either not understand the concept clearly or become confused about the correct interpretation of the concepts. With these objectives in mind, and to build connectivity between the teaching methodologies by Parents and Teachers, we at Oswaal Books, have come up with this Manual for Teachers and Parents. Some benefits of using this manual are: • It aims to aid the Teachers and Parents in simplifying the concepts studied by children as a part of their curriculum • It equips the parents and teachers to enable the children to understand the subjects, and also evaluate their measure of understanding and creativity. • It includes Learning and Understanding Aids along with a Lesson Plan for each Chapter • It demonstrates Effective Teaching Techniques • It also gives various Propositions for Step-wise Learning and Building up of Concepts

**IMPORTANT FEATURES OF THE BOOK:** Strictly based on latest NCERT Textbook The manual is based on the latest NCERT Textbook 6 Exploratory Learning objectives These provide explicit instructions to parents and teachers to teach their wards Effective Teaching Techniques The manual has tried and tested teaching techniques for higher success rate

The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

Mr. Greer reviews the very sporadic appearance of new weapons of war during the first three millennia of recorded military history. He contrasts this with the increasing frequency of new weapons in the most recent two centuries and the short time generally taken to develop those later weapons. The increased pace of technology improvement in several important categories of weapons is discussed and the sequence is concluded by a review of an extremely long development period of a recent weapon, the Osprey.
