Ferhenga Biruski Dictionary Volume 2 - M-Z;

Ferhenga Biruski is the go-to dictionary for Kurmanji a dialect of Kurdish spoken originally in parts of Iran, Iraq, Syria, Turkey while also being common among a large diaspora of Kurds in Europe, North America and elsewhere. This comprehensive Kurmanji-English dictionary is prepared in two volumes by Michael L. Chyet, a renowned linguist with extensive knowledge of the major dialects of Kurdish. This dictionary is an essential reference source for linguists and others interested in Kurdish language and people. "The second edition of my Kurmanji-English dictionary, which I would like to call

“Ferhenga Bir û sk î ” to honor the memory of my beloved friend and colleague Bir û sk Tugan, contains considerably more entries, and in many cases offers fuller information on earlier entries. In addition, I have found and corrected several typographical errors. Moreover, it is to be accompanied by a companion English to Kurdish volume. [...] It is my goal to accurately reflect the language as it exists today.”

This volume painstakingly formulates a composite model of translation procedures that covers both linguistic and cultural aspects inherent in translation. The model is based on an integration of three classic taxonomies of translation procedures proposed by influential translation scholars, namely Vinay and Darbelnet (1995), Newmark (1988), and Dickins, Hervej and Higgins (2002/2016). The book combines these three taxonomies into an integrated model and extends it, effectively, to identify patterns of translation procedures and overall strategies in English-Kurdish translation of journalistic texts. The book is a breakthrough in the field of journalistic translation between the two languages. With a clear definition and exemplification of each translation procedure, the importance of the model is that it is replicable for future descriptive translation studies and can be carried out in other language pairs and on other genres. Moreover, the model is comprehensive in nature, and covers almost all

translational changes and shifts that may occur in the translation process. Thus, this model of translation procedures transcends previous frameworks in such a way that prospective translation researchers will not need to go back to these older models of translation procedures.

The way autoimmune disease is viewed and treated is undergoing a major change as an estimated 50 million Americans (and growing) suffer from these conditions. For many patients, the key to true wellness is in holistic treatment, although they might not know how to begin their journey to total recovery. The Autoimmune Wellness Handbook, from Mickey Trescott and Angie Alt of Autoimmune-Paleo.com, is a comprehensive guide to living healthfully with autoimmune disease. While conventional medicine is limited to medication or even surgical fixes, Trescott and Alt introduce a complementary solution that focuses on seven key steps to recovery: inform, collaborate, nourish, rest, breathe, move, and connect. Each step demystifies the process to reclaim total mind and body health. With five autoimmune conditions between them, Trescott and Alt have achieved astounding results using the premises laid out in the book. The Autoimmune Wellness Handbook goes well beyond nutrition and provides the missing link so that you can get back to

Kurdish is spoken in parts of Iraq, Turkey, Iran, Syria, Lebanon, Armenia, Georgia, Kyrgyzstan, Azerbaijan, Kazakstan and Afghanistan. In 2010 an estimated 20-30 million people spoke Kurdish. In Kyrgyzstan, 96.4% of the Kurdish population speak Kurdish as their native language. In Kazakhstan, the corresponding percentage is 88.7%. There are a number of dialects of Kurdish, which are not mutually intelligible. - Northern Kurdish (Kurmanji) is spoken in Turkey, Syria, northern Iraq and northwestern Iran by about 15-20 million people. - Central Kurdish (Sorani) is spoken in Iraq Kurdistan and the Kurdistan Province of Iran by about 6-7 million people. - Southern Kurdish (Pehlewani) is spoken by about 3 million people in Kermanshah and Ilam provinces in northwestern Iran, and in the Khanaqin district in eastern Iraq. This dictionary uses the latin script and the Northern Kurdish (urmanji) dialect. We also publish resources for the Sorani dialect. Check our website for availability. Kurdish began to appear in writing in a version of the Persian alphabet during the 7th century AD. However, for much of their history, the Kurds have

preferred to use Arabic, Persian or Turkish for their literary works. Since 1932 Kurdish has been written with the Latin alphabet in Turkey and Syria. Before then, it was written with a version of the Arabic script. In parts of the former USSR it is written with a version of the Cyrillic alphabet, and in Soviet Armenia it was written with a version of the Armenian alphabet. When Kurdish is written with the Arabic script, Arabic loan words retain their original spelling, though they are often pronounced quite differently in Kurdish. This dictionary uses the latin script and the Northern Kurdish (Kurmanji) dialect. It contains over 12,000 words in English and Kurmanji with parts of speech and definitions in English with a Kurmanji / English index included. It is excerpted from our Words R Us system which is a derivative of Princeton Wordnet. We also publish a Turkish / Kurdish / English Dictionary and a Kurdish Dictionary in the Sorani script as well as books on Kurdish Grammar. See our website for availability. www.wordsrus.info
