The second edition of this internationally focused book is based on the authors' theme of unity in diversity and encompasses twelve research-based principles that serve as a framework for bringing both global.

The study of language in written texts and transcripts of speech is greatly helped by a student's ability to identify and describe those prominent features of the grammar which make one variety of English different from another. A Course Book in English Grammar looks at many of the problems encountered by students and encourages them to find their own answers and to advance hypotheses about grammatical description. There are activities at each step, using authentic written and spoken data. Using real texts avoids the faking of evidence to be found in some traditional grammar books, and interesting problems of analysis that in such texts are a source of useful discussion. The book has been thoroughly revised and expanded for this second edition, and contains additional chapters and material. A new opening chapter discusses the concept of 'grammatically correct English' and the differences between descriptive, prescriptive and proscriptive approaches to the writing of grammar books. The book is a systematic description of Standard English, and examples of contemporary spoken dialectal grammar are introduced and analysed to illustrate the differences between standard and nonstandard usage. A Course Book in English Grammar will prove invaluable for all students of English Language.

Why this book? This is a companion book for boys and girls in secondary schools and a reference book for parents and teachers. The book has come about because of the scarcity of the type of books I want to use to teach the essentials of English to secondary school students who are learning English as a second language in an environment in which contact with the English language is minimal. This is a book with a difference: it is reader-friendly and uncluttered. It has illustrations in Chinese to flag ideas of special interest to help readers to avoid the types of errors commonly made by students. It aims to help them grasp the basics of English and the practical aspects of its usage. Poetry being the soul of any language, part of this book discusses poetic measures, the appreciation of poetry and what is new in poetry today. This book, a labour of love, is also about caring and sharing. To promote the practical use of good English is what I care about. I think Hong Kong will be a better place for it. It shares with readers my knowledge of English, learned from and attributable to my English teachers in schools and universities all those years ago. It shares with my readers my experiences gathered over many years in teaching English and using English in the work-place, both during the colonial years in Hong Kong and during my
