The integration of technology into educational environments has become more prominent over the years. The combination of technology and face-to-face interaction with instructors allows for a thorough, more valuable educational experience. Intelligent Web-Based English Instruction in Middle Schools addresses the concerns associated with the use of computer-based systems in teaching English as a foreign language, proving the effectiveness and efficiency of technological integration in modern classrooms. Highlighting cases based on current practices in four diverse schools, this book is a vital reference source for practitioners and researchers interested in the educational benefits of educational technologies in language acquisition.

This textbook contains the final and mid-term simultaneous test papers of the latest English curriculum standard unit for grade five of primary school, including three versions of human resources education, Beijing Normal University and FLTRP. The file is in word format, easy to edit and use.

This book gathers the proceedings of the 11th International Conference on Frontier Computing, held in Seoul, on July 13-17, 2021, and provides comprehensive coverage of the latest advances and trends in information technology, science, and engineering. It addresses a number of broad themes, including communication networks, business intelligence and knowledge management, Web intelligence, and related fields that inspire the development of information technology. The respective contributions cover a wide range of topics: database and data mining, networking and communications, Web and Internet of things, embedded systems, soft computing, social network analysis, security and privacy, optical communication, and ubiquitous/pervasive computing. Many of the papers outline promising future research directions, and the book benefits students, researchers, and professionals alike. Further, it offers a useful reference guide for newcomers to the field.

Assessment of student learning outcomes (ASLO) is one of the key activities in teaching and learning. It serves as the source of information in determining the quality of education at the classroom and national levels. Results from any assessment have an influence on decision making, on policy development related to improving individual student achievement, and to ensure the equity and quality of an education system. ASLO provides teachers and school heads with information for making decisions regarding a students' progress. The information allows teachers and school heads to understand a students' performance better. This report reviews ASLO in three South Asian countries—Bangladesh, Nepal, and Sri Lanka—with a focus on public examinations, national assessment, school-based assessment, and classroom assessment practiced in these countries.

Now in its second edition, How to Read Texts introduces students to key critical approaches to literary texts and offers a practical introduction for students developing their own critical and close-reading skills. Written in a lively, jargon-free style, it explains critical concepts, approaches and ideas including: - Debates around critical theory - The role of history and context - The links between creativity and criticism - The relationship between author, reader and text. The new edition now includes guidance on analysing a range of multi-media texts, including film and online media as well as the purely literary. In addition to new practical examples, readings, exercises and 'checkpoints' that help students to build confidence in their own critical readings of both primary and secondary texts, the book now also offers guidance on writing fully-formed critical essays and tips for independent research. Comprehensively updated and revised throughout, How to Read Texts is an indispensable guide for students making the transition to university study.

Come with us now to the first day of class to teach English in China. Both students and teacher's hearts pound with anticipation as students file into the room, chatting and pretending not to notice the foreign teacher standing behind his desk. But they can't help glancing at him anyway for a first look. Laughter mingles with the sound of books and chairs clanking together. A buzzer sounds in the hall, and Bill Burkett, affectionately known in China by his students as "Mr. Bill," begins. A Manual for Teaching English in China takes us from the first day's buzzer through the first weeks, months, and semesters of teaching

English in China, sharing numerous stories, laughs, interesting facts, and many effective ways of teaching ESL. A Manual for Teaching English in China is packed with Bill Burkett's practical ideas, methods, and teaching techniques that can actually be used to teach ESL anywhere. Bill Burkett recently returned from a seven-year stint of teaching English in the universities and training schools of Henan, China. An internationally renowned public speaker, Burkett has lived in 46 nations in the last 43 years. He developed a strong interest in linguistics which was fuelled by his close association with interpreters. In Chinese classrooms where he taught English, he conducted active research, experimenting and taking student polls. He concentrated on eliminating speech impediments and strong accents. His education, experiences, and research shaped his philosophy of teaching English as a Second Language and formed the basis of his first ESL

book, A Manual for Teaching English in China. Following the manual is Secrets to Better English which reveals a proven method of teaching ESL without accent. Although Burkett's doctorate is in philosophy, his love is making a difference in his students' lives by teaching diction and the skills of speech.

Documents the development of the Cambridge ESOL Certificates in English Language Skills (CELS), a suite of modular examinations first offered in 2002. As a context for how CELS was conceived, developed, constructed, validated and managed, the book traces the history of exams which have influenced CELS. The Royal Society of Arts (RSA), later UCLES (University of Cambridge Local Examinations Syndicate) Communicative Use of English as a Foreign Language examinations (CUEFL) was one such influence, as were the Certificates in Communication Skills in English (CCSE), these exams being a development of the CUEFL. The University of Oxford Delegacy of Local Examinations (UODLE) examinations, taken over by UCLES in 1995, were a further influence on CELS. UODLE itself had worked in partnership with the Association of Recognised Language Schools (ARELS) Examinations Trust, the Oxford EFL reading and writing exams for many years offered in tandem with the ARELS Oral English exams.

The fourth edition of Objective English is a comprehensive test-preparation tool that helps the learner to methodically improve their skills for various competitive examinations. This book assists students in recognizing their weaknesses and enables them to eliminate them. Objective English also highlights learner's strengths in the process. This book activates, stimulates and motivates the learner to read with current trends in questions. This carefully structured and easy-to-read course explains the basic rules of English, and prepares students for examinations with the help of near-original test papers of recent examinations conducted by various bodies such as the UPSC, SSC, Banking Services, Railways Recruitment Boards, private corporate organizations, and others.

For preparing for the CDS, NDA, MBA, MCA, BCA, hotel management, law and NIFT/NID entrance examinations. This volume documents international, national, and small-scale testing and assessment projects of English language education for young learners, across a range of educational contexts. It covers three main areas: age-appropriate 'can do statements' and task types for teaching and testing learners between the ages of 6 to 13; innovative approaches to self-assessment and findings on how young learners perform on vocabulary, listening, speaking, pronunciation, and reading comprehension tests in European and Asian contexts. Early language learning has become a major trend in English language education around the globe. As a result of the spread of teaching English to a growing number of young children, assessment of and for language learning has become a major area of research. This volume informs stakeholders about the realistic goals of early language learning, their efficiency, and how much progress children make over time.
