There has long  
been a recognition  
of the adaptability of

piano music to the  
guitar, starting with

Of course, the guitar has a strong presence in Spanish culture but it can just as readily claim France or Italy as a homeland.

Moreover and more particularly, it is the delicacy of texture in the writing that makes adaptation

possible and  
successful. The  
original score of  
Valses Poéticos  
does not prescribe a  
transcendental  
pianism, or put the  
range and voicing  
capacities of the  
piano at the centre  
of the musical  
oration. The elegant  
reserve of the

writing, along with some good luck, makes idiomatic arrangement possible and even allows for maintaining the original keys and key architecture in the present arrangement.
