A Rolls Royce Silver Cloud drove him to airports; the British film industry kowtowed to his power; the great Hollywood studios fawned at his feet. Sir Alexander Korda, one of the world's most flamboyant movie tycoons, rose from obscurity in rural Hungary to become a legendary filmmaker. With him were his brothers, Zoltan and Vincent, all living charmed lives in circles that included H. G. Wells, Sir Lawrence Olivier, Marlena Dietrich, Vivien Leigh, and Merle Oberon, who was soon to be Alex's wife. But along with Alex's flair for success was an equally powerful impulse for destruction. Now, Vincent's son, Michael Korda, in the first book of his memoirs, recalls the enchanted figures of his childhood...the glory days of the Korda brothers' great films...and then their heartbreaking, tragic end.

GCSE Modern World History

The definitive story of the British adventurers who survived the trenches of World War I and went on to risk their lives climbing Mount Everest. On June 6, 1924, two men set out from a camp perched at 23,000 feet on an ice ledge just below the lip of Everest's North Col. George Mallory, thirty-seven, was Britain's finest climber. Sandy Irvine was a twenty-two-year-old Oxford scholar with little previous mountaineering experience. Neither of them returned. Drawing on more than a decade of prodigious research, bestselling author and explorer Wade Davis vividly re-creates the heroic efforts of Mallory and his fellow climbers, setting their significant achievements in sweeping historical context: from Britain's nineteenth-century imperial ambitions to the war that shaped Mallory's generation. Theirs was a country broken, and the Everest expeditions emerged as a powerful symbol of national redemption and hope. In Davis's rich exploration, he creates a timeless portrait of these remarkable men and their extraordinary times.

Britain's Private School Problem

The Educational Times, and Journal of the College of Preceptors

Of All Times and All Lands

This book has been specifically edited for the two-tier GCSE specification by the highly successful author, David Rayner. The book is targeted at the Higher tier GCSE, and it comprises units organised clearly by topic. Each unit offers: BL Summary of objectives at the start so it is clear what students need to know BL Clear explanations with examples showing the key techniques BL Plenty of practice with clearly differentiated questions pitched at an appropriate level BL Summaries and past exam questions to help students gain responsibility for their learning It forms part of a series of two student books at GCSE, in which the other book caters for the Foundation tier.

A rigorous, compelling and balanced examination of the British public school system and the inequalities it entrenches. Private schools are institutions that children who are already privileged attend and have those privileges further entrenched, almost certainly for life, through a high-quality, richly-resourced education. The Engines of Privilege contends that in a society that mouths the virtues of equality of opportunity, of fairness and of social cohesion, the continuation of this educational apartheid amounts to an act of national self-harm that does all of us serious damage. Intrinsic to any vision of the future of Britain has to be the nature of our educational system. Yet the quality of conversation on the issue of private education remains surprisingly sterile, patchy and highly subjective. Accessible, evidence-based and inclusive, Engines of Privilege aims to kick-start a long overdue national debate. Clear, vigorous prose is combined with forensic analysis to compelling effect, illuminating the painful contrast between the importance of private schools in British society and the near-absence of serious, policy-making debate, above all on the left.
