everyone. It is simply the process of deciding where your assets are to be distributed after your death. For those people who wish to preserve their assets for designated purposes -- such as family or special charities -- it becomes necessary to make special advance preparations. To ensure your assets are protected

and final wishes are carried out, there are some common actions that should be taken now. Proper estate planning allows you to plan for yourself and your loved ones without giving up control of your affairs. Your estate plan should also allow for the possibility of your own disability. It should detail what you

own and whom you want to leave it to at a time of your choosing and the way you want.

Your estate plan should include fully disclosed, controlled costs for you and your loved ones.

The last thing you want to worry about is having your estate drained of value through taxes and legal costs. The right plan can protect the

turned housing into the foremost symbol of inequality and an economy gone wrong. Nowhere is this more visible than in the San Francisco Bay Area, where fleets of private buses ferry software engineers past the tarp-and-plywood shanties of the homeless. The adage
