In this story, Greymalkin has an adventure without the Queen and has to deal with a perilous situation including a baby dragon. A charming story about kindness, friendship, and magic from a rising star picture book creator. How did dragons get their fire? It all began once upon a magical kingdom, where a fearsome dragon stalked the land. The dragon was mean and scary and evil, or so the stories said. One day, two brave children set out to stop him for good. But when they finally met the monster, he wasn't quite what they expected . . . Find out how two kids' determination to save their village led to a friendship that will warm the hearts of dragon lovers everywhere in this gorgeously illustrated celebration of the magic of kindness.

In New York City in the 1920s, the children from Chinatown go after the children from Little Italy for throwing rocks at the beautiful kites Grandfather Chin makes, not realizing that they have a reason for doing so.

Everybody knows your typical dragon breathes fire. But when Crispin tries to breathe fire on his seventh birthday, fire doesn't come out—only whipped cream! Each time Crispin tries to breathe fire, he ends up with Band-Aids marshmallows teddy bears? Crispin wonders if he'll ever find his inner fire. But when a family emergency breaks out, it takes a little dragon with not-so-typical abilities to save the day. With wry humor and whimsical illustrations, *Not Your Typical Dragon* is the perfect story for any child who can't help feeling a little bit different.

Two years before adopting seven-year-old Keydell from a group home for young boys, Kim made a vow before the Dalai Lama to become a bodhisattva: one who cultivates an enlightened mind, is free from delusion, and practices kindness and compassion above all else. However, she struggles with this practice as her new son's challenged mind sends him into fits of rage and violence, while seemingly allowing him to feel no remorse for his actions. His behaviors go against everything Kim believes in, but she is determined to keep her chocolate-eyed boy safely in the home she has created with her husband and two biological children. As she tries everything she can to get Keydell the help he needs, she must also learn to accept him exactly as he is: a tiger in the home of elephants. This vulnerable and touching account highlights the interplay between desire and reality, denial and acceptance, struggle and enlightenment. As the minds of

this mother and her extraordinary son awaken - Kim's through her Buddhist practice, and Keydell's through the science of neurofeedback - we witness the power of love and compassion to overcome even the greatest odds."

For decades, traditional medicine had very little to offer for individuals suffering from multiple sclerosis and other autoimmune diseases. Today, medical science has brought us wave upon wave of immunomodulatory medications to try to slow disease progression. Unfortunately, these medications come with their own health- and life-threatening side effects. And sometimes, they just stop working. "Fighting the Dragon: How I Beat Multiple Sclerosis" is the story of one woman's thirty year battle with multiple sclerosis and what she did to reclaim her life when she realized she would need an assisted living facility within a few years. The book contains detailed descriptions of what worked and what did not, where she got the help she needed (and how the reader can locate these resources within his/her own community), and the logic behind the non-conventional therapies. "Fighting the Dragon" is a narrative of courage—courage driven by desperation, a story written by a patient who decided, when her neurologist told her, "You will never walk normally again," that she would dance. "Fighting the Dragon" is also a book the MS patient can take to his/her physician . . . it contains well-researched, easy-to-follow guidelines for what to do and how. The information is also applicable to a wide range of other autoimmune conditions, cancers, and AIDS. * * * * * Excerpt: . . . if your car kept breaking down and the mechanic you took it to kept doing the same thing to fix it—but it did not stay fixed, you would question the mechanic's competence. Maybe the mechanic pulled out a technical manual. "See. I fixed it exactly as the manual said. This is the industry-approved way to solve this problem." When the car broke down again a week later, would you be satisfied? Probably not. You might decide it is time to replace the car. But that might be too expensive. So, what to do? If you were smart, you would probably try to find a new mechanic. You might ask your friends who they would recommend. You might search on the Internet to see if other people had the same experience with their cars . . . and what caused the problem. You might telephone some repair shops to get some idea of what they thought the problem might be. If you found a new mechanic and that mechanic looked over the car and said, "I have a solution that is not in any industry-approved repair manuals, but it is safe and it works,"—would you walk away and go back to the first mechanic who never got it right? Why is your health worth any less than your car?

We've all been there. EVERYONE knows someone who has had their share of binge drinking, mood swings, or addiction that has stretched a relationship to its limits. Dr. Melissa Tate is a popular psychology consultant and licensed professional counselor who takes you on a personal journey of self-disclosure and transparency. Often described as an easy going, juggling-it-all, classy and professional single mom, you would be remiss to assume she has always had it all. Vicariously stuck on the emotional roller coaster of her loved ones' mental instability and self-medicating, addictive behaviors, she has had to literally and figuratively pick herself up from some raw and shocking situations. Through two failed marriages and a shattered sibling bond, she gives you a front row seat to her internal struggle as a blind passenger. A memoir-esque snapshot of these three relationships is used as a platform for broader, often under-discussed, therapeutic conversations about domestic violence and addiction in the family system. And she gets it. She knows how you feel and where you've been-not merely because she has read about it or counseled people through it-because she has lived it. In being transparent about her intimate experiences with broken relationships, Dr. Tate is able to provide a personal and professional insight for regaining your peace of mind amidst a wild ride.
