

Ex 5 Ex 6 Ex 2 Ex 7 Ex 8

To most modern readers the book of Ezekiel is a mystery. Few can handle Ezekiel's relentless denunciations, his unconventional antics, his repetitive style, and his bewildering array of topics. This excellent commentary by Daniel I. Block makes sense of this obscure and often misunderstood prophet and demonstrates the relevance of Ezekiel's message for the church today.

Elementary Differential Geometry focuses on the elementary account of the geometry of curves and surfaces. The book first offers information on calculus on Euclidean space and frame fields. Topics include structural equations, connection forms, frame fields, covariant derivatives, Frenet formulas, curves, mappings, tangent vectors, and differential forms. The publication then examines Euclidean geometry and calculus on a surface. Discussions focus on topological properties of surfaces, differential forms on a surface, integration of forms, differentiable functions and tangent vectors, congruence of curves, derivative map of an isometry, and Euclidean geometry. The manuscript takes a look at shape operators, geometry of surfaces in E , and Riemannian geometry. Concerns include geometric surfaces, covariant derivative, curvature and conjugate points, Gauss-Bonnet theorem, fundamental equations, global theorems, isometries and local isometries, orthogonal coordinates, and integration and orientation. The text is a valuable reference for students interested in elementary differential geometry.

The Royal Inscription of Esarhaddon, King of Assyria (680–669 BC) is the inaugural volume of the Royal Inscriptions of the Neo-Assyrian Period Project. The volume provides reliable, up-to-date editions of all of the known royal inscriptions of Esarhaddon, a son of Sennacherib who ruled Assyria for twelve years (680–669 BC). Editions of 143 firmly identifiable texts (which mostly describe successful battles and the completion of building projects, all done ad maiorem gloriam deorum), 29 poorly preserved late Neo-Assyrian inscriptions that may be attributed to him, and 10 inscriptions commissioned by his mother Naqia (Zakutu) and his wife Esharra-hamat are included. To make this corpus more user-friendly to both specialist and laymen, each text edition (with its English translation) is supplied with a brief introduction containing general information, a catalogue containing basic information about all exemplars, a commentary containing further technical information and notes, and a comprehensive bibliography (arranged chronologically from earliest to latest). The volume also includes: (1) a general introduction to the reign of Esarhaddon, the corpus of inscriptions, previous studies, and dating and chronology; (2) translations of the relevant passages of three Mesopotamian chronicles; (3) 19 photographs of objects inscribed with texts of Esarhaddon; (4) indexes of museum and excavation numbers and selected publications; and (5) indexes of proper names (Personal Names; Geographic, Ethnic, and Tribal Names; Divine, Planet, and Star Names; Gate, Palace, Temple, and Wall Names; and Object Names). The book is accompanied by a CD-ROM containing transliterations of selected inscriptions arranged in a 'musical score' format. The Royal Inscriptions of the Neo-Assyrian Period (RINAP) series will present up-to-date editions of the royal inscriptions of a number of late Neo-Assyrian rulers, beginning with Tiglath-pileser III (744–727 BC). This new series is modeled on the publications of the now-defunct Royal Inscriptions of Mesopotamia (RIM) series and will carry on where its RIMA (Royal Inscriptions of Mesopotamia, Assyrian Periods) publications ended. The project is under the direction of G. Frame (University of Pennsylvania) and is supported by the National Endowment for the Humanities.

The biblical narrative of the Exodus and of Moses, the reluctant prophet who was chosen to lead it, deals with the critical formative event in the history of ancient Israel. However, the narrative also contains a number of enigmatic passages as well as some seemingly unrelated episodes. In this book, the author undertakes to unravel the enigmas and show how the various disparate elements contribute to the narrative. The focus in The Exodus and the Reluctant Prophet is on what the biblical text is telling us, explicitly as well as implicitly, about the world in which the ancient Israelites became transformed from a mass of ethnically related people into a nation bound by a divine covenant, and the extraordinary role that the Exodus played in the process. In the effort to comprehend and explain the highly complex biblical text, the author has consulted a wide range of commentaries and studies written over a period of some two millennia that have sought to understand the biblical texts from a wide variety of perspectives, many of which are presented for the reader's consideration, including many sources inaccessible to those without a working knowledge of Hebrew.

The Neo-Assyrian king Sargon II was one of the most important and famous rulers of ancient Mesopotamia. In this volume of critically important ancient documents, Grant Frame presents reliable, updated editions of Sargon's approximately 130 historical inscriptions, as well as several from his wife, his brother, and other high officials. Beginning with a thorough introduction to the reign of Sargon II and an overview of the previous scholarship on his inscriptions, this modern scholarly edition contains the entire extant corpus. It presents more than 130 inscriptions, preserved on stone wall slabs from his palace, paving slabs, colossi, steles, prisms, cylinders, bricks, metal, and other objects, along with brief introductions, commentaries, comprehensive bibliographies, accurate transliterations, and elegant English translations of the Akkadian texts. This monumental work is complemented by more than two dozen photographs of the inscribed objects; indices of museum and excavation numbers, selected publications, and proper names; and translations of relevant passages from several other Akkadian texts, including chronicles and king lists. Informed by advances in the study of the Akkadian language and featuring more than twice as many texts as previous editions of Sargon II's inscriptions, this will be the editio princeps for Assyriologists and students of the Sargonic inscriptions for decades to come.

This book lists all the words and variant word forms of the original Hebrew-Aramaic Old Testament text or Tanakh (Jewish Bible) with their respective instances of occurrences in the entire text body of the Hebrew Old Testament. It also includes references to biblical book names, chapters and verses. The relevant text corpus of this word concordance is based upon scholarly respected text editions like the Westminster Leningrad Codex. Since text concordances of original texts in original biblical languages are hard to find this book tries to fill a part of that gap.
