The PhraseBook for Writing Papers and Research gives you a bank of over 5000 words and phrases to help you write, present and publish in English. Phrases are divided into around 30 main sections, such as Introducing a Study, Arguing For and Against,

Reviewing other Work, Summarizing and Conclusions. Writing Help sections give advice on university and research writing, helping you to avoid many common errors in English. Main chapters include Style, Spelling, Punctuation, Grammar, Vocabulary, Numbers and Time. The 4th edition also includes a University and Research Thesaurus to help you improve your academic vocabulary, as well as a Glossary of University and Research Terminology. The PhraseBook is used in more than 30 countries in subjects ranging from Medicine, Engineering, Science and Technology to Law, Business and Economics, Geography, History, Sociology, Psychology, Language and Education. Over 5000 words and phrases to help you write, present and publish in English Written by PhD authors Specially designed for non-native speakers Suitable for university and research writing from student to researcher and faculty level Includes most frequent words in academic English Exercises for individual and classroom use British and American English "This material, prepared by experienced editors, is certainly very useful" Photosynthetica Example phrases Introducing your work The study will begin by outlining... This study addresses a number of issues... The following section sets out... ...to examine the research problem in detail ...to shed light on a number of problem areas in current theory The paper presented here is based in part on an earlier study Arguing for and against This becomes clear when one examines... This lends weight to the argument that... Support for this interpretation comes from... While it may well be valid that..., this study argues the importance of... A serious drawback of this approach is... One of the prime failings of this theory or explanation is... Reviewing other work X takes little or no account of... There is little evidence to suggest that... The study offers only cursory examination of... X gives a detailed if not always tenable analysis of... The authors' claim that...is not well founded. X's explanation is not implausible, if not entirely satisfactory. Analysis and explanation If, for the sake of argument, we assume... One of the most obvious consequences of...is... Although it may well be true that..., it is important not to overlook... It is important to distinguish carefully between... The extent to which this reflects...is unclear. A more plausible explanation for or of...would... The reason for...is unknown, but...has been suggested by X as a possible factor. Summary and conclusions Concluding this section, we can say that... Chapter X draws together the main findings of the paper. A number of key issues have been addressed in this study. This study has highlighted a number of problem areas in existing theory. While the initial findings are promising, further research is necessary. The results of this study suggest a number of new avenues for research. As the number of stranger-on-stranger crimes increases, solving these crimes becomes more challenging. Forensic illustration has become increasingly important as a tool in identifying both perpetrators and victims. Now a leading forensic artist, who has taught this subject at law enforcement academies, schools, and universities internationally, off Exhibition ...

*This resource is written for classroom teachers, art education specialists, childcare workers, artists working in schools, parents who home-school their children, and school administrators. It can also be used as a university textbook for Education students. The book provides a framework for teaching art in a way that is integrated with regular classroom practice and mindful of current art curriculum outcomes. Although the book focuses on art for primary and middle-school students from pre-school to grade eight, Teaching Art is also useful to art specialists at the high-school level who are looking for new strategies or project ideas to add to their established secondary programs. Revised and expanded from the author's previous resource, Art & Illustration. This resource integrates new developments in art education.*
