scientific text about a single subject by one author.

Sources are distinguished in primary and secondary sources; primary sources are scientific research results which are published at first

hand containing. Secondary sources refer to a primary source which was published by another author and not collected by the author himself. For an evaluation of the use of the sources in a

Acces PDF Examples Of Business Research Papers

business or academic environment ethical standards and moralities are used. Within academic ethics sscientists have the duty to act responsibly and to define moralities for their
