Copley's Essentials of Accounting for Governmental and Not-for-Profit Organizations, 12e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts. The main focus of this text is on the preparation of external financial statements which is a challenge for governmental reporting. The approach in this edition is similar to that used in practice. Specifically, day to day events are recorded at the fund level using the basis of accounting for fund financial statements. Governmental activities are recorded using the modified accrual basis. The fund-basis statements are then used as input in the preparation of government-wide statements. The preparation of government-wide statements is presented in an Excel worksheet.

Red is now an agent for Supernatural Crimes and Regulations. She's been trained to be even stronger, faster and deadlier than she's ever been. With Ambrose as her prey, she can't afford to be anything else. Red is on the hunt and on the run, from her pain, her heart, and her Vampire Felix. After a string of near disastrous missions that have left her nothing but dead ends in her hunt for her once-mortal husband, Red might not have any choice in facing her past. Now she's on a new mission, teamed up with a big seasoned agent that is all kinds of sexy. Julian Sauvage is a hunter; something Red's inner-wolf is all too aware of. But Vampires are turning up dead, covered in magical runes, stinking of the arcane. Red and Julian are racing against the clock to find the culprits. They must halt another murder, and prevent an ancient ritual. A ritual that could result in an ancient god walking the earth in Immortal form.
