The period of Israel's Babylonian exile is one of the most enthralling eras of biblical history. During this time Israel went through its deepest crisis, and the foundation was laid for its most profound renewal. The crisis provoked the creation of a wealth of literary works such as laments, prophetic books, and historical works, all of which Albertz analyzes in detail through the methods of social history, composition criticism, and redaction criticism. In addition, Albertz draws on extrabiblical and archaeological evidence to illuminate the historical and social changes that affected the various exilic groups. Thirty-five years after Peter Ackroyd's classic *Exile and Restoration*, Albertz offers a new generation of biblical scholars and students an equally important appraisal of recent scholarship on this period as well as his own innovative and insightful proposals about the social and literary developments that took place and the theological contribution that was made. Includes chronological table, map of the ancient Near East, and passage index. - Publisher.

The Blackjack Troopers have caught the attention of Salvador Quintana, the man who governs the state of California. He has hired them for a secret assignment, one that will prevent the renegades from achieving an important victory on their side. As they delve deep into a desecrated forest, where plants and fungi run rampant as outlandish entities, the Blackjack Troopers must search for the weapons that once belonged to the dragon riders of the old generation. As he leads his squad into the forest, Lionel Tyler finds himself in a conflict of his own. Certain parts of his past have been brought back as a result of his mission. His former occupation brings him closer to a crisis of conscience. He is stuck between his dedication to Gorvex's regime and his hunger for his true self. The struggle grows deeper when a group of exiled dragons have come out of hiding and have made their way back to human civilization. The Blackjack Troopers assist in repelling these outlaws, while Lionel might have a valid reason to return to his roots.

At last -- the untold chapter in the history of Star Trek's most notorious villain, KHAN. Kirk? What horrific trials spawned Khan's insane lust for revenge? This edition in four volumes is a record of Napoleon's last years spent on the island of Saint Helena, documented by comte de Las Cases, Napoleons servant and unofficial secretary in exile. Las Cases began his journal on June 20, 1815, two days after Napoleon's defeat at Waterloo, and continued it until his expulsion from St. Helena on orders of the island's governor, Hudson Lowe, at the end of the following year. The core of the work transcribes Las Cases' near-daily conversations with the former Emperor on his life, his career, his political

philosophy, and the conditions of his exile. The work entered the popular imagination as something like Napoleon's own personal and political testament, and as such became a founding text in the development of the Napoleon cult and the ideology of Bonapartism.

The Chronicles of the Exile

The Curse of the Arcadian Stone: Nameless Fay (Volumes 1-3)

Writings of Exile in the English Revolution and Restoration opens a window onto exile in the years 1640-1680, as it is experienced across a broad spectrum of political and religious allegiances, and communicated through a rich variety of genres. Examining previously undiscovered and understudied as well as canonical writings, it challenges conventional paradigms which assume a neat demarcation of chronology, geography and allegiance in this seminal period of British and American history. Crossing disciplinary lines, it casts new light on how the ruptures -- and in some cases liberation -- of exile in these years both reflected and informed events in the public sphere. It also lays bare the personal, psychological and familial repercussions of exile, and their attendant literary modes, in terms of both inner, mental withdrawal and physical displacement.

#18 in the popular and exciting science fiction Liaden Universe. Clan Korval rebuilds its fortunes on the gritty, semi-anarchic planet of Surebleak. Over a quarter million Liaden Universe books are in print with an audience that keeps growing! Star-trading Clan Korval known to Terrans as the Tree-and-Dragon Family and to the locals simply as "the Dragon" has been convicted of crimes against the homeworld. No matter that one of the "crimes" consisted of saving the elitist planet of Liad from very real internal threats, the Council of Clans wanted Korval heads to roll. Unfortunately for the Council, the Dragon's allies conspired to impose a milder punishment for saving the world banishment, rather than execution. Now relocated to the free-for-all world of Surebleak, the Dragon is under contract to keep the Port Road open to all traffic, and to back the New Bosses in imposing law and order on a society originally based on larceny and assassination. This modest rustication is going surprisingly well, until Korval discovers that the enemy they'd sought to destroy. . . wasn't quite destroyed, and is more determined than ever to eradicate Korval. While the banishment killed no one initially, many of Korval's trading allies are spooked, and some are renegeing on ancient agreements, leaving the Dragon to make its own way. The clan's efforts to stealthily recruit new allies is going haywire, and a secret death toll is rising even as the clan's adherents endure increasing exposure to danger and deceit off-world. To make matters worse, an active portion of Surebleak's native population liked the Old Ways just fine, and are conspiring to take the New Bosses and the Dragon down, and are sure they have the firepower and people to do it. The exiled Dragon has to make an urgent choice accept an alliance with criminals or face down each and every enemy in person, one by one. At the publisher's request, this title is sold without DRM (Digital Rights Management).

The Caliban-Prospero encounter in Shakespeare's *The Tempest* has evolved as a metaphor for the colonial experience. This book utilizes the Caliban symbol in examining the influence of colonialism in Caribbean literature, focusing on three major writers: Jean Rhys of Dominica, George Lamming of Barbados, and Sam Selvon of Trinidad. The novels chosen are set in England where the writers and their characters experience the alienation of the exiled--unwelcome in Prospero's home country. Other Caribbean writers are included in the analysis, and the volume concludes by examining contemporary writers for whom Caliban's role appears to be shifting beyond physical exile.

NOTE: This collection contains two full-length books and one novella. These stories are exactly the same ones you can purchase individually.

Western missionaries in China were challenged by something they could not have encountered in their native culture; most Westerners were Christian, and competitions in their own countries were principally denominational. Once they entered China they unwittingly became spiritual merchants who marketed Christianity as only one religion among the long-established purveyors of other religions, such as the masters of Buddhist and Daoist rites. A Voluntary Exile explores the convergence of cultures. This collection of new and insightful research considers themes of religious encounter and accommodation in China from 1552 to the present, and confronts how both Western Europeans and indigenous Chinese mitigated the cultural and religious antagonisms that resulted from cultural misunderstanding. The studies in this work identify areas where missionary accommodation in China has succeeded and failed, and offers new insights into what contributed to cultural conflict and confluence. Each essay responds in some way to the "accommodationist" approach of Western missionaries and Christianity, focusing on new areas of inquiry. For example, Michael Maher, SJ, considers the educational and religious formation of Matteo Ricci prior to his travels to China, and how Ricci's intellectual approach was connected to his so-called "accommodationist method" during the late Ming. Eric Cunningham explores the hackneyed assertion that Francis Xavier's mission to Asia was a "failure" due to his low conversion rates, suggesting that Xavier's "failure" instigated the entire Chinese missionary enterprise of the 16th and 17th centuries. And, Liu Anrong confronts the hybridization of popular Chinese folk religion with Catholicism in Shanxi province. The voices in this work derive from divergent scholarly methodologies based on new research, and provide the reader a unique encounter with a variety of disciplinary views. This unique volume reaches across oceans, cultures, political systems, and religious traditions to provide important new research on the complexities of cultural encounters between China and the West.

The rich annotation and translator's notes for these twelve tales provide insights into many aspects of Tang material culture and medieval thought, including Buddhism and Daoism. In addition to meticulously annotated translations, the book offers original texts (with some textual notes), and commentaries in the form of translator's notes, thereby joining the first volume of Tang tales as the only collections that introduce students to Tang tales while also challenging specialists interested in the field."--
