Gabriel Okara, a prize-winning author whose literary career spans six decades, is rightly hailed as the elder statesman of Nigerian literature. The first Modernist poet of anglophone Africa, he is best known for The Fisherman's Invocation (1978), The Dreamer, His Vision (2005), and for his early experimental novel, The Voice (1964). Arranged in six sections, Gabriel Okara: Collected Poems includes the poet's earliest lyric verse along with poems written in response to Nigeria's war years; literary tributes and elegies to fellow poets, activists, and loved ones long dead; and recent dramatic and narrative poems. The introduction by Brenda Marie Osbey contextualizes Okara's work in the history of Nigerian, African, and English language literatures. Gabriel Okara: Collected Poems is at once a treasure for those long in search of a single authoritative edition and a revelation and timely introduction for readers new to the work of one of Africa's most revered poets.

Of the many charges laid against contemporary literary scholars, one of the most common and perhaps the most wounding is that they simply don't love books. And while the most obvious response is that, no, actually the profession of literary studies does acknowledge and address personal attachments to literature, that answer risks obscuring a more fundamental question: Why should they? That question led Deidre Shauna Lynch into the historical and cultural investigation of *Loving Literature*. How did it come to be that professional literary scholars are expected not just to study, but to love literature, and to inculcate that love in generations of students? What Lynch discovers is that books, and the attachments we form to them, have long played a role in the formation of private life that the love of literature, in other words, is neither incidental to, nor inextricable from, the history of literature. Yet at the same time, there is nothing self-evident or ahistorical about our love of literature: our views of books as objects of affection have clear roots in late eighteenth-century and nineteenth-century publishing, reading habits, and domestic history. While never denying the very real feelings that warm our relationship to books, *Loving Literature* nonetheless serves as a riposte to those who use the phrase "the love of literature" as if its meaning were transparent, its essence happy and healthy. Lynch writes, "It is as if those on the side of love of literature had forgotten what literary texts themselves say about love's edginess and complexities." With this masterly volume, Lynch restores those edges, and allows us to revel in those complexities.
