East Asia is normally identified as a group of countries lying along the western edge of the Pacific Ocean, but in recent years scholars have begun thinking about a new East Asia that is a community rather than a set of sovereign states. This regional community is a theoretical notion variously defined on the basis of

Welcome to Darmid, where magic is a sin, fairy tales are contraband, and the people live in fear of the Sorcerers on the other side of the mountains. Rowan Greenwood has everything she's supposed to want from life—a good family, a bright future, and a proposal from a handsome and wealthy magic hunter. She knows she should be content with what she has. If only she could banish the idea that there's more to life than marriage and children, or let go of the fascination with magic she's been forced to suppress since childhood. When Rowan unknowingly saves the life of one of her

Bioengineer Peter Bernhardt has dedicated his life to nanotechnology, the science of manipulating matter on the atomic scale. As the founder of Biogineers, he is on the cusp of revolutionizing brain therapies with microscopic nanorobots that will make certain degenerative diseases a thing of the past. But after his research is stolen by an unknown enemy, seventy thousand people die in Las Vegas in one abominable moment. No one is more horrified than Peter, as this catastrophe sets in motion events that will forever change not only his life but also the course of human evolution. Peter's company is

torn from his grasp as the public clamors for his blood. Desperate, he turns to an old friend, who introduces him to the Phoenix Club, a cabal of the most powerful men in the world. To make himself more valuable to his new colleagues, Peter infuses his brain with experimental technology, exponentially upgrading his mental prowess and transforming him irrevocably. As he's exposed to unimaginable wealth and influence, Peter's sense of reality begins to unravel. Do the club members want to help him, or do they just want to claim his technology? What will they do to him once they have their prize?

And while he's already evolved beyond mere humanity, is he advanced enough to take on such formidable enemies and win?

At the close of the 24th Century, a series of revolutions has caused the galaxy to descend into chaos. With the Galactic Union's Army stretched thin, mercenary units have arisen for those who have the need—and the means—to hire them... Captained by former Detached Guerrilla Forces Colonel R.A. "Rags" Cutter, the Cutter Force Initiative is one of the best. A specialized team consisting of both aliens and humans, the Cutters offer services ranging from fight training and protection to

READS RAINBOW In Sarahland, Sam Cohen brilliantly and often hilariously explores the ways in which traditional stories have failed us, both demanding and thrillingly providing for its cast of Sarahs new origin stories, new ways to love the planet and those inhabiting it, and new possibilities for life itself. In one story, a Jewish college Sarah passively consents to a form-life in pursuit of an MRS degree and is swept into a culture of normalized sexual violence. Another reveals a version of Sarah finding pleasure—and a new set of problems—by playing dead for a wealthy necrophiliac. A Buffy-loving Sarah uses fan fiction

to work through romantic obsession. As the collection progresses, Cohen explodes this search for self, insisting that we have more to resist and repair than our own personal narratives. Readers witness as the ever-evolving "Sarah" gets recast: as a bible-era trans woman, an aging lesbian literally growing roots, a being who transcends the earth as we know it. While Cohen presents a world that will clearly someday end, "Sarah" will continue. In each Sarah's refusal to adhere to a single narrative, she potentially builds a better home for us all, a place to live that demands no fixity of self, no plague of consumerism, no bodily compromise, a place called Sarahland.
