Since precious few architectural drawings and no theoretical treatises on architecture remain from the premodern Islamic world, the Timurid pattern scroll in the collection of the Topkapi Palace Museum Library is an exceedingly rich and valuable source of information. In the course of her in-depth analysis of this scroll dating from the late fifteenth or early sixteenth century, Gülru Necipoğlu throws new light on the conceptualization, recording, and transmission of architectural design in the Islamic world between the tenth and sixteenth centuries. Her text has particularly far-reaching implications for recent discussions on vision, subjectivity, and the semiotics of abstract representation. She also compares the Islamic understanding of geometry with that found in medieval Western art, making this book particularly valuable for all historians and critics of architecture. The scroll, with its 114 individual geometric patterns for wall surfaces and vaulting, is reproduced entirely in color in this elegant, large-format volume. An extensive catalogue includes illustrations showing the underlying geometries (in the form of incised “dead” drawings) from which the individual patterns are generated. An essay by Mohammad al-

Asad discusses the geometry of the muqarnas and demonstrates by means of CAD drawings how one of the scroll's patterns could be used to design a three-dimensional vault.

A reflection on everyday existence in the 'sphere of consumption of late Capitalism', this work is Adorno's literary and philosophical masterpiece.

“The foundational text that gave me life-changing context, helping me to understand who I was and who came before me.”—Tourmaline, activist and filmmaker Transgender Warriors is an essential read for trans people of all ages who want to learn about the towering figures who have come before them—and for everyone who is part of the fight for trans liberation. Leslie Feinberg—herself a lifelong transgender revolutionary—reveals the origin of the check-one-box-only gender system and shows how zie found empowerment in the lives of transgender warriors around the world, from the Two Spirits of the Americas to the many genders of India, from the trans shamans of East Asia to the gender-bending Queen Nzinga of Angola, from Joan of Arc to Marsha P. Johnson and beyond. This book was published with two different covers. Customers will be shipped the book with one of the available covers. From Finding Inspiration to Capturing Diaphanous Detail : a Step-by-step Guide to Fairy Art

Continental philosophy has entered a new period of ferment. The long deconstructionist era was followed with a period dominated by Deleuze, which has in turn evolved into a new situation still difficult to define. However, one common thread running through the new brand of continental positions is a renewed attention to materialist and realist options in philosophy. Among the leaders of the established generation, this new focus takes numerous forms. It might be hard to find many shared positions in the writings of Badiou, DeLanda, Laruelle, Latour, Stengers, and i ek, but what is missing from their positions is an obsession with the critique of written texts. All of them elaborate a positive ontology, despite the incompatibility of their results.

Meanwhile, the new generation of continental thinkers is pushing these trends still further, as seen in currents ranging from transcendental materialism to the London-based speculative realism movement to new revivals of Derrida. As indicated by the title *The Speculative Turn*, the new currents of continental philosophy depart from the text-centered hermeneutic models of the past and engage in daring speculations about the nature of reality itself. This anthology assembles authors, of several generations and numerous nationalities, who will be at the centre of debate in continental philosophy for

To the uninitiated, the films of French New Wave director Jacques Demy can seem strange and even laughable, with their gaudy color schemes and sung dialogue. Yet since the late 1990s, a generation of queer filmmakers in France have found new inspiration in Demy's cinema. In this volume, author Anne E. Duggan examines Jacques Demy's queer sensibility in connection with another understudied characteristic of his oeuvre: his recurrent use of the fairy tale. In *Queer Enchantments: Gender, Sexuality, and Class in the Fairy-Tale Cinema of Jacques Demy*, Duggan demonstrates that Demy uses fairy-tale devices to explore and expand the identity categories of his characters, while he broadens the possibilities of the genre of the fairy tale through his

cinematic revisions. In each chapter, Duggan examines how Demy strategically unfolds, challenges, and teases out the subversive qualities of fairy-tale paradigms. In chapter 1, Duggan reads Demy's *Lola and The Umbrellas of Cherbourg* through the lens of "Cinderella" and "Sleeping Beauty," while in chapter 2, she explores Demy's revision of Charles Perrault's "Donkey Skin" from the particular angle of gay aesthetics. In chapter 3, Duggan situates Demy's rendition of *The Pied Piper* in relation to a specifically Franco-American tradition of the legend, which thus far has not received critical attention. Finally, in Chapter 4, she examines the ways in which Demy's *Lady Oscar* represents the undoing of the figure of the maiden warrior. An epilogue reads Demy's fairy-tale cinema as exemplary of the postmodern tale. Duggan shows that Demy's cinema heightens the inherent tensions and troubles that were already present in fairy-tale texts and uses them to illustrate both the constraints and utopian possibilities of the fairy tale. Both film and fairy-tale studies scholars will enjoy Duggan's fresh look at the distinctive cinema of Jacques Demy.

Three of Marianne Williamson's previous bestsellers -- A Return to Love, A Woman's Worth, and Illuminata -- explored the issue of relationships. Now, in this deeply personal collection of essays, prayers, and self-reflection, she turns to romantic love. In Illuminata, Williamson wrote that "we experience God to the extent to which we love, forgive, and focus on the good in others and ourselves." Now, in Enchanted Love, she writes that "enchanted partnership begins with the conscious understanding, on the part of two people, that the purpose of their relationship is not so much material as spiritual, and the internal skills demanded by it are prodigious." High romance, she says, "is not about past or future. It is not about practicality. It is not about society or worldly routines. It is an audacious ride to the center of what is, at the heart of every person. It is a bold and masterful inquiry into what two people really are and how we might become, while still on earth, the angels who reside within us." The French look is one of the most popular and enduring for modern interiors-appreciated for its simple, uncluttered style and ornate individual pieces. Whether you want to make grand curtains like those from a chateau or paint a cupboard in rustic style, Creating the French Look shows you how. Twenty-five step-by-step projects demonstrate the three

Economic history states that money replaced a bartering system, yet there isn't any evidence to support this axiom. Anthropologist Graeber presents a stunning reversal of this conventional wisdom. For more than 5000 years, humans have used elaborate credit systems to buy and sell goods. Since the beginning of the agrarian empires, humans have been divided into debtors and creditors. Through time, virtual credit money was replaced by gold and the system as a whole went into decline. This fascinating history is told for the first time.

John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.
