Into Fairyland: A Treasure Chest of Fairy Stories is an enchanting, illustrated anthology of 25 original stories written by Diane Light about the Fairies. It begins with an invitation from the wee folk themselves to step into the land of love, magic, and lore. Inspired by the author's Irish grandmother, each charming and colorfully illustrated story is beautifully crafted to delight, encourage, and inspire children everywhere, and the Fairy Child in each of us.

Originally published in 1962, when Lefebvre was beginning his career as a lecturer in sociology at the University of Strasbourg, it established his position in the vanguard of a movement which was to culminate in the events of May 1968. A classic analysis of the modern world using Marxist dialectic, it is a book which supersedes the conventional divisions between academic disciplines. With dazzling skill, Lefebvre moves from philosophy to sociology, from literature to history, to present a profound analysis of the social, political and cultural forces at work in France and the world in the aftermath of Stalin's death—an analysis in which the contours of our own “postmodernity” appear with startling clarity.

From the seas of antiquity to the city streets of today, A Mermaid's Tale explores the myth and meanings of the mermaid. Beginning with Melusina, the bathing mermaid par excellence, Amanda Adams goes on to describe the seductive sirens and their honeyed songs, the powerful Arctic sea goddess Sedna, and the long-haired rusalki or Russian lore, among other legendary mermaids. As she tells their stories, she also expresses a love of the mermaid that surely no sea-bound sailor could ever match. Grounded in cultural anthropology, folklore studies, and intellectual rigor, A Mermaid's Tale also draws on literature, poetry, and mythology for its insights. It is a book filled with depth and detail as it describes Adam's swim through the ocean of her own life in search of the unusual, the beautiful, and the perfectly extraordinary.

A 2015 Whitney Award Nominee! A powerful story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she'll never recover. Between her parents' arguing and the battle she's fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn't sure a change of scenery will alter anything, but she's willing to give it a try. In California, Oakley discovers a sort of safety and freedom in Aunt Jo's beach house. Once they're settled, Mom hands her a notebook full of letters addressed to

her—from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He makes her feel again. As she lets him in, she is surprised by how much she cares for him, and that's when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother's dying words as guidance, Oakley knows she must learn to listen and trust again. But will she have to leave the past behind to find happiness in the future? Returning to Fairyland after a long period away following her first adventure there, September discovers that her stolen shadow has become the Hollow Queen, the new ruler of Fairyland Below, who is stealing the magic and shadows from Fairyland folk and refusing to give them back.

A destiny that leads the English to the Dutch is strange enough; but one that leads from Epsom into Pennsylvania, and thence into the hills that shut in Altamont over the proud coral cry of the cock, and the soft stone smile of an angel, is touched by that dark miracle of chance which makes new magic in a dusty world.

Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious "Goat Lab," to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today. The Centaur centres on Terence O'Malley, a journalist of mystical temperament who is at odds with the pace and materialism of the modern world, and instead countenances a sense of kinship with the universe. This mystical novel weaves a fascinating tale while, at the same time, making a passionate plea for a lifestyle that is closer to nature.

When Kim Jong Un became the leader of North Korea following his father's death in 2011, predictions about his imminent fall

were rife. North Korea was isolated, poor, unable to feed its people, and clinging to its nuclear program for legitimacy. But he has solidified his grip on his country and brought the U.S. and the region to the brink of war. Pak, a former CIA analyst, provides a groundbreaking account of the rise of North Korea's dictator from his nuclear ambitions to his summits with President Donald J. Trump. She argues that Kim's personality, perceptions, and preferences are underestimated by Washington policy wonks who assume he sees the world as they do. -- adapted from jacket

An NPR Best Book of 2015 Love and sacrifice intertwine in this brilliant debut of rare beauty about a girl dealing with her mother's schizophrenia and her own mental illness. Fig's world lies somewhere between reality and fantasy. But as she watches Mama slowly come undone, it becomes hard to tell what is real and what is not, what is fun and what is frightening. To save Mama, Fig begins a fierce battle to bring her back. She knows that her daily sacrifices, like not touching metal one day or avoiding water the next, are the only way to cure Mama. The problem is that in the process of a daily sacrifice, Fig begins to lose herself as well,

increasingly isolating herself from her classmates and engaging in self-destructive behavior that only further sets her apart. Spanning the course of Fig's childhood from age six to nineteen, this deeply provocative novel is more than a portrait of a mother, a daughter, and the struggle that comes with all-consuming love. It is an acutely honest and often painful portrayal of life with mental illness and the lengths to which a young woman must go to handle the ordeals—real or imaginary—thrown her way.

Spengler's work describes how we have entered into a centuries-long "world-historical" phase comparable to late antiquity, and his controversial ideas spark debate over the meaning of historiography.

"This splendid work of scholarship . . . sums up with economy and power all that the written record so far

deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria."—Edward B. Garside, New York Times Book Review Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. "To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written."—Leonard Cottrell, Book Week "Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research."—Samuel Noah Kramer, Archaeology A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the Assyrian Dictionary of the Oriental Institute and John A. Wilson Professor of Oriental Studies at the University of Chicago.

Perfect for fans of Clementine and Ivy and Bean. This series is a great choice for emerging readers who are ready for chapter books. The thing about Hank's new friend Inkling is, he's invisible. Now Inkling has found his way into Hank's apartment on his quest for squash, a bandapat favorite. But Hank has bigger problems than helping Inkling fend off maniac doggies and searching for pumpkins: Bruno Gillicut is a lunch-stealing, dirtbug caveperson and he's got to be stopped. And who better to help stand up to a bully than an invisible friend?

"Samuel Ward McAllister (December 1827?January 31, 1895) was the self-appointed arbiter of New York society from the 1860s to the early 1890s."--Wikipedia.

Jean Aspen, daughter of arctic explorer and author Constance Helmericks, began life in the wilderness. Throughout six decades, the natural world has remained central to her. What began as a series of letters to her son, Lucas, when she and her husband Tom set out to search for a different future, evolved over the seasons into a many snapshots of her remarkable life. All those seemingly random threads have woven the tapestry of her journey and the journey of the river flowing by the remote cabin. In *Trusting the River*, she closes the circle of her mother's books and her own early work, *Arctic Daughter*.

Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth,

what destinies will we set ourselves, and which quests will we undertake? Homo Deus explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

“A valuable reexamination” (Booklist, starred review) of the event that changed twentieth-century America—Pearl Harbor—based on years of research and new information uncovered by a New York Times bestselling author. The America we live in today was born, not on July 4, 1776, but on December 7, 1941, when an armada of 354 Japanese warplanes supported by aircraft carriers, destroyers, and midget submarines suddenly and savagely attacked the United States, killing 2,403 men—and forced America’s entry into World War II. Pearl Harbor: From Infamy to Greatness follows the sailors, soldiers, pilots, diplomats, admirals, generals, emperor, and president as they engineer, fight, and react to this stunningly dramatic moment in world history. Beginning in 1914, bestselling author Craig Nelson maps the road to war, when Franklin D. Roosevelt, then the Assistant Secretary of the Navy, attended the laying of the keel of the USS Arizona at the Brooklyn Navy Yard. Writing with vivid intimacy, Nelson traces Japan’s leaders as they lurch into ultranationalist fascism, which culminates in their scheme to terrify America with one of the boldest attacks ever waged. Within seconds, the country would never be the same. Backed by a research team’s five years of work, as well as Nelson’s thorough re-examination of the original evidence assembled by federal investigators, this page-turning and definitive work “weaves archival research, interviews, and personal experiences from both sides into a blow-by-blow narrative of destruction liberally sprinkled with individual heroism, bizarre escapes, and equally bizarre tragedies” (Kirkus Reviews). Nelson delivers all the terror, chaos, violence, tragedy, and heroism of the attack in stunning detail, and offers surprising conclusions about the tragedy’s unforeseen and resonant consequences that linger even today.
