The power of the Disney brand has heightened the need for academics to question whether Disney ' s films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the

whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. In 1988 Chadwick flew to Japan to begin a four-year period of voluntary exile and remedial Zen education. In Thank You and OK! he recounts his experiences both inside and beyond the monastery walls and offers insightful portraits of the characters he knew in that world—the bickering monks, the

This report of the President's Commission on Law Enforcement and Administration of Justice --

established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control,

science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The

recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

Although it was first published in 1993, Lost Tycoon shows us that The Donald's personal character, political philosophy, business ethics, and attitude towards women haven't changed much in the past two decades. After inheriting a fortune, he made and lost billions in real estate and casino gambling, rising phoenix-like

from his own ashes. He is a reality television show star, a father, a grandfather, and an alleged rapist. In Hollywood terms, he has literally been the producer and director of his own biopic--a real life "Citizen Kane," whose father hammered the same lines into his head when was a little boy: "You are a killer . . . you are a king . . . you are a killer . . . you are a king." Harry Hurt has created a cinema verit é -style narrative that allows the words and actions of the principals to speak for themselves. It is indisputable that Donald's exploits in business, entertainment, and politics prove that he is--to borrow a metaphor from Fred Trump Sr.--"a killer." Reading this important biography
