Focuses on nurturing the emotional health of patients and families to ensure improved outcomes This innovative clinical practice resource for neonatal nurses embodies family-centered care strategies for optimal outcomes through every phase of the NICU experience. While rigorous programs provide the knowledge and skills to care for the physical needs of high-risk mothers and neonates, NICU practitioners often find themselves unprepared to support the emotional health of these patients and their families. Care Coordination in the NICU provides the education, inspiration, and resources

to NICU health professionals so they can learn how to be emotionally supportive to their patient's entire family unit. The book addresses a variety of challenging patient and family issues that occur in the NICU as they relate to care coordination throughout the process. Each chapter focuses on a particular area of the perinatal/neonatal family journey, and includes current medical research, clinical examples, and recommendations for best practice alongside case studies that depict families experiencing a perinatal challenge. Most valuable of all, each chapter also includes stories directly from the source, the families, who have experienced the fear, isolation, and uncertainty of a NICU experience, and

services in public child welfare agencies, and the application to a range of clients, including autistic, handicapped, and sexually abused children. Organized into three sections, this major new volume identifies program perspectives and principles, addresses program issues, and describes practical approaches for delivering services. Contributors highlight a number of issues that will require further attention as specialist foster family care develops. An indispensable guide for a broad range of professionals, including practitioners and managers employed in child welfare agencies and social work educators interested in child welfare policy and practice, Specialist Foster Family Care will also be valuable for undergraduate and graduate social work students and other

and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers

may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based-including

definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases.

Services for families and children are rightfully the focus of intense scrutiny and debate, and there is a clear need to establish a knowledge of which services work well. This volume provides a comprehensive overview of research evidence from the UK and USA on the effectiveness of selected child welfare interventions. It addresses the challenges of measuring effectiveness in child welfare and explains the policy context for child welfare

service delivery. Leading international contributors summarize the evidence of effectiveness in each core area, and consider the impact on children's development, parenting capacity and the wider community. Critically, the book also draws out the implications of the evidence for policy, practice and service delivery as well as for future research. This book is essential reading for policy makers, practitioners and commissioners of services in child welfare as well as students and researchers.

Or working outside the legal framework, do they find it difficult to protect weaker parties and access expert advice? What happens when lawyers become mediators? This book will describe the structure of service provision and the day-to-day work of lawyers, mediators, and lawyer mediators, drawing on empirical work carried out between 2013 and 2015 immediately after the recent changes to the management of divorce and separation within the family justice system. The

reduction in legal aided help in 2013 and the failure of mediation to fill the gap in 2014-15 have given rise to a difficult debate. This book aims to provide an account of some of the practical effects of these policies through a description of the daily work of practitioners in the sector. It raises the question of whether we need to choose between traditional legal services and the new processes of private ordering or whether intermediate positions might be possible.

thriller perfect for fans of The Couple Next Door and What She Knew. Disaster is always closer than you know. It was a lesson Melanie Barrick learned the hard way growing up in the constant upheaval of foster care. But now that she's survived into adulthood—with a loving husband, a steady job, and a beautiful baby boy named Alex—she thought that turmoil was behind her. Until one Tuesday evening when she goes to pick up Alex from childcare only to discover he's been removed by Social Services. And no one will say why. It's a

terrifying scenario for any parent, but doubly so for Melanie, who knows the unintended horrors of what everyone coldly calls “the system.” Her nightmare grows worse when she arrives home to learn her house has been raided by sheriff’s deputies, who have found enough cocaine to send Melanie to prison for years. The evidence against her is overwhelming, and if Melanie can’t prove her innocence, she’ll lose Alex forever. Meanwhile, assistant commonwealth’s attorney Amy Kaye—who has been assigned Melanie’s case—has her
