the current volume

The experience in
rural space was
important already
for writers and
artists in the
premodern era, as
the large variety of

indicates. The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art-historical

works. In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space. We also observe how much the rural world was a significant element already in early-

Moreover, as
many authors
point out, the
impact of natural
forces on
premodern society
was tremendous, if
not catastrophic.
Slaughter in battle
was once seen as
