For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on

maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

future get in as much trouble as the ones from our time?

In this fast-paced suspense-thriller, a streetwise police chief, a struggling triage nurse and a lovesick government operative try to unravel a twisted mystery involving blackmail, murder and terrorism. A group of schemers and their homicidal cohorts converge in Philadelphia with different but intertwined agendas. Their plans all coincide with the opening of The Pharaoh's Consort exhibit at the Independence Museum of Art and Science. Investigating a break-in at the museum, the newly appointed police chief's interest turns to the mysterious people and occurrences

swirling around the exhibit. The beautiful curator sets her sights on the police chief, while celebrating the demise of her terrorist lover. An emergency room nurse is drawn into the schemers' world. Tempted by a dying patient's last meal, she becomes the target of a monstrous ex-soldier and a chemist with a penchant for poison. In the volatile mix, a bespectacled government operative suspects he might be working for the wrong side. The hard-boiled action moves from glittery high-society parties to the bleakest corners of the city and violently proves that some gatherings, no matter how enticing, should be avoided.

Seneca's developed metaphors draw on what is known to describe the unknown. They put hard ethical in highly accessible, and often quite entertaining, terms. The present book provides a functional description of Seneca's dialectical relation between metaphorical language and philosophy. It shows how Stoic philosophy finds a new means of expression in Seneca's highly elaborated rhetorical discourse, and how this relates to the social and cultural demands of Neronian culture. Metaphors are purposely utilized to work "collectively" rather than by category or type and that, therefore, the analysis of what metaphors do when

Seneca chooses to combine them in clusters, demonstrates the existence of a "metanarrative of rhetoric". This approach is fundamentally innovative and has the advantage of gauging the functioning of Senecan style as a whole, rather than focusing on single features of its rhetorical functioning. The main target is to show how philosophical preaching materially contributes to the healing of human soul because it shapes the individual's cognitive faculty in a way that is physical and not simply figurative. The stylus and the scalpel blend in their functions. This kind of therapy is not just the simulacrum of a more "real" one, it is in itself medical in nature.
