“Mistaken identity turns into matchmaking from the grave when New Yorker, Brook Mills, inherits a stranger’s world in Maine and tangles in more than just business with her handsome co-owner.”
*** Of all the things a girl could inherit, a seafood factory in Maine is the least dreamy. But when Brooklyn Mills arrives in Quahog Cove to learn about the deceased stranger who gifted her his world, mistaken identity becomes a happy accident. Her hunky co-owner, Owen Bennett, is the kind of guy she could fall in love with in a New York minute back home. Here on vacation, he could be...well...a lovely no-strings diversion if Brook can talk him out of strictly business. Owen wants to run operations as he's always done—alone, with no distractions. He doesn't need a partner of any kind, especially not a gorgeous, smart-witted New Yorker—a woman he could easily lose himself in. Don't get emotionally invested in anyone passing through' is number one in his relationship playbook. He's holding out for the one-in-a-billion woman who'll choose a life with him in Quahog Cove over everything else. Yet with chemistry like this buzzing between him and Brook, what's the harm in tangling a teensy bit while they unriddle why his late boss brought them together? An inconvenient side effect of a little matchmaking from the grave messes up their no-feelings plan. Brook and Owen are the leads in a love story already written. They can't outrun their fate, nor does Brook want to. She lost her family a long time ago and as Maine unravels their secrets, the possibility of finding love and family again has her falling hard for the full Owen package. The only snag: while ever Manhattan and Maine are worlds apart in every way, Owen can only be her 'for now' guy --- unless she can find a way to become Brook of Mainehattan forever.

What's for lunch when you're in Maine in the summer? What else but the ubiquitous lobster roll. Nearly every café, diner, dive, and gourmet restaurant offers their version of this sandwich (even McDonald's adds one to their menu every summer) and chefs delight in adding their own spin on this classic comfort food. Down East magazine has scoured the state and come up with the 75 best lobster rolls to be had anywhere. Each is ranked and paired with a brief write-up and directions to the eatery, including some recommendations of toppings, sides, desserts, or other delights that might pair nicely with the main course. Rounding it all out are helpful tips, such as the best way to eat a lobster roll (they can be rather messy), an occasional recipe, and fun facts and trivia—did you know rockfish is the biggest lobster roll ever made is held by Portland? In 2009 the city baked a 61ft, 9½ inch roll and stuffed it with 45 pounds of lobster meat. It may not be the only food guide you grab when you come to Maine, but it's guaranteed to be the most fun.

The issue of dog bites and dog aggression directed at humans is frequently in the media. However, scientific research and evidence on the subject is scattered and sparse. Public and political opinions are often misinformed and out of proportion to the extent of the problem. Dog Bites brings together expert knowledge of the current situation, from a wide variety of disciplines, to provide information to the many people and professions affected by this issue. Subjects range from the practical, medical, behavioural, sociological, and theoretical, but the overall approach of the book is objective and integrative. Topics addressed include: the genetic basis of aggression; the public image of aggressive dogs; bite statistics; risk factors: the forensics and surgical aspects of dog bites; international legal perspectives; court evidence: first aid treatment; zoonotic disease potential; behavioural rehabilitation options; the risk to children; and a consideration of why some dogs kill. All contributors are academic or long-standing professional experts in their field, and they represent a wide spread of international expertise. This issue is an important one for pet owners, vets, animal shelters, and anyone who works with dogs, such as the police. This book will be a valuable resource for them, as well as for animal behaviourists, academic researchers, health professionals, dog breeders, and handlers.
*** "... the first comprehensive resource on the subject of dog bites... The overall intent of the book is to prevent dog bites...does a good job of compiling the information we think we know about dog bites into one place. It also debunks much of what we've previously accepted truths about dog bites to humans. In the final chapter, the editors state they hope that "highlighting the many deficiencies in our understanding will inspire rather than demoralize" and that they "have offered a point of reference not just to the problems but also the solutions". --Journal of the American Veterinary Medical Association, Vol. 252, No. 6, March 15, 2016 [Subject: Veterinary Science, Public Policy, Animal Behavior, Animal Policing]

My name is Vianne Van'tZori. I'm a vampire hunter and I'm totally screwed. I risked my life against vampires to get the Artemis necklace and now it doesn't work. To figure out why its powers have faded, Jax, my annoying hunter-mentor, has sent me to Ricketts, Maine in search of a witch named Rosalyn who he thinks can fix the necklce. Only Ricketts isn't exactly normal. Town after Van'twiches, it's home to hot werewolves, angry trolls, and at least one mysterious vampire. And the cherry on top? The town is dealing with a series of murders that definitely weren't committed by a human. Instead of getting in and out of town unnoticed, I'm coerced into a deal with a werewolf to help uncover who the murderer is in return for information to Rosalyn. And because my life isn't complicated enough, I can't let on that my great and powerful Van'tZori abilities aren't working. I'll just have to rely on my faithful hellhound, Ramble, to keep me safe while I investigate the murders? and hope that the vampires don't catch up to me in the meantime. Easy right? Bite Me is the second book of The Artemis Necklace Series and Vianne and Ramble as they encounter new supernatural creatures and learn that not everything that goes bump in the night is a monster.

The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to start. With praise from Dorie Greenspan, Jim Lahey, and David Lebovitz, the definitive bread-baking book for a new generation. But this book isn't just about baking bread—it's about what to do with the slices and heels and nubs from those many loaves you'll bake. Alexandra Stafford grew up eating her mother's peasant bread at nearly every meal—the recipe for which was a closely-guarded family secret. When her blog, Alexandra's Kitchen, began to grow in popularity, readers started asking how to make the bread they'd heard so much about; the bread they had seen peeking into photos. Finally, Alexandra's mother relented, and the recipe went up on the internet. It has since inspired many who had deemed bread-baking an impossibility to give it a try, and their results have exceeded expectations. The secret is in its simplicity: the no-knead dough comes together in fewer than five minutes, rises in an hour, and after a second short rise, bakes in a buttered bowl. After you master the famous peasant bread, you'll work your way through its many variations, both in flavor (Cornmeal, Jalapeno, and Jack; Three Seed) and form (Cranberry Walnut Dinner Rolls; Cinnamon Sugar Monkey Bread). You'll enjoy bread's usual utilities with Food Cart Grilled Cheese and the Summer Tartine with Burrata and Avocado, but then you'll discover its true versatility when you use it to sop up Mussels with Shallot and White Wine or juicy Roast Chicken Legs. Finally, you'll find ways to savor every last bite, from Panzanella Salad Three Ways to Roasted Tomato Soup to No-Bake Chocolate-Coconut Cookies. Bread, Toast, Crumbs is a 2018 nominee for The TACP Julia Child First Book Award, and Alexandra's Kitchen was a finalist for the Saverie Blog Awards Most Inspired Weeknight Dinners 2016

Doing Good Well is a thinking man's guide to the nonprofit world. It is replete with nonprofit paradigms. It provides a different twist to what one might regard as straightforward notions such as mission, staff compensation, governance and corporate social responsibility.

And it surprises and challenges even as it seeks to explain charity-specific issues such as charitablebness, bridging the rich/poor divide, informed giving and social entrepreneurship.

“New York Times Bestseller” From Erin French, owner of the critically acclaimed The Lost Kitchen, a TIME world dining destination, a life-affirming memoir about survival, renewal, and finding a community to lift her up Long before The Lost Kitchen became a world dining destination with every seating filled the day the reservation book opens each spring, Erin French was a girl roaming barefoot on a 25-acre farm, a teenager falling in love with food while working the line at her dad's diner and a young woman finding her calling as a professional chef at her tin restaurant tucked into a 19th century mill. This singular memoir—a classic American story—invites readers to Erin's corner of her beloved Maine to share the real person behind the “girl from Freedom” fairytale, and the not-so-picture-perfect struggles that have taken every ounce of her strength to overcome, and that make Erin's life triumphant. In Finding Freedom, Erin opens up to the challenges, stumbles, and victories that have led her to the exact place she was ever meant to be, telling stories of multiple rock-bottoms, of darkness and anxiety, of survival as a jobless single mother, of pills that promised release but delivered addiction, of a man who seemed to offer salvation but in the end ripped away her very sense of self. And of the beautiful son who was her guiding light as she slowly rebuilt her personal and culinary life around the solace she found in food—as a source of comfort, a sense of place, as a way of bringing goodness into the world. Erin's experiences with deep loss and abiding hope, told with both honesty and humor, will resonate with women everywhere who are determined to find their voices, create community, grow stronger and discover their best-selves despite seemingly impossible odds. Set against the backdrop of rural Maine and its lushly intense, bountiful seasons, Erin reveals the passion and courage needed to invent oneself anew, and the poignant, timeless connections between food and generosity, renewal and freedom.

Local streams in the Lincoln, Maine, area set the stage for what would become author Paul Freeman Thibodeau 's lifelong passion. His father, Paul Francis Thibodeau, taught him the rudiments of fly fishing. Later in life, with increased skills and knowledge, the younger Thibodeau ventured farther afield in Penobscot County in hopes of catching larger salmon, trout, and smallmouth bass. In Wild about Maine, he shares tales that paint an image of the outdoorsmen, the breathtaking landscape with Mount Katahdin in the background, and the challenges of fishing in the pristine waters of the Penobscot River. This collection of stories includes anecdotes about the interaction between fishermen, the prolific fish, and the area ' s abundant wildlife. In " The Taking of Vinegar Hill, " Thibodeau tells of searching for a secret trout pond with an old friend. " The Never-Ending Mouse Tale " narrates a lighthearted story of sharing one ' s home with an unwanted furry critter. Inspiring, educational, and entertaining, Wild about Maine provides a look at modern-day " Mainers, " the state ' s wild creatures, and the wilderness they share.

LEARN THE TRUE STORY OF ONE OF THE FBI PROFILERS WHO COINED THE PHRASE "SERIAL KILLER" Face-to-face with some of America's most terrifying killers, FBI veteran Robert K. Ressler learned how to identify the unknown monsters who walk among us -- and put them behind bars. In Whoever Fights Monsters, Ressler—the inspiration for the character Agent Bill Tench in David Fincher's hit TV show Mindhunter—shows how he was able to track down some of the country's most brutal murderers. Ressler, the FBI Agent and ex-Army CID colonel who advised Thomas Harris on The Silence of the Lambs, used the evidence at a crime scene to put together a psychological profile of the killers. From the victims they choose to the way they kill to the often grotesque souvenirs they take with them—Ressler unlocks the identities of these vicious killers. And with his discovery that serial killers share certain violent behaviors, Ressler goes behind prison walls to hear bizarre first-hand stories from countless convicted murderers, including Ted Bundy, John Wayne Gacy, Edmund Kemper, and Son of Sam. Getting inside the mind of a killer to understand how and why he kills is one of the FBI's most effective ways of helping police bring in killers who are still at large. Join Ressler as he takes you on the hunt for the world's most dangerous psychopaths in this terrifying journey you will not forget.

In the spirit of Gretchen Rubin's megaseller The Happiness Project and Eric Weiner's The Geography of Bliss, a journalist embarks on a project to discover what it takes to love where you live The average restless American will move 11.7 times in a lifetime. For Melody Warnick, it was move #6, from Austin, Texas, to Blacksburg, Virginia, that threatened to unglue her. In the lonely aftermath of unpacking, she wondered: Aren't we supposed to put down roots at some point? How does the place we live become the place we want to stay? This time, she had an epiphany. Rather than hold her breath and hope this new town would be her family's perfect fit, she would figure out how to fall in love with it—no matter what. How we come to feel at home in our towns and cities is what Warnick sets out to discover in This Is Where You Belong. She dives into the body of research around place attachment—the deep sense of connection that binds some of us to our cities and increases our physical and emotional well-being—then travels to towns across America to see it in action. Inspired by a growing movement of placemaking, she examines what its practitioners are doing to create likeable locales. She also speaks with frequent movers and loyal stayers around the country to learn what draws highly mobile Americans to a new city, and what makes us stay. The best ideas she imports to her adopted hometown of Blacksburg for a series of Love Where You Live experiments designed to make her feel more locally connected. Dining with her neighbors. Shopping Small Business Saturday. Marching in the town Christmas parade. Can these efforts make a halfhearted resident happier? Will Blacksburg be the place she finally stays? What Warnick learns will inspire you to embrace your own community—and perhaps discover that the place where you live right now . . . is home.
