**For intermediate and financial accounting courses at the MBA and undergraduate level, or a supplement to financial statement analysis texts. This collection of financial accounting cases is designed to help students become financial statement users. Each case utilizes financial statement information (balance sheet, income statement, statement of cash flow and/or footnotes) and a number of topical questions. Students use the financial statement information to infer and interpret the economic events underlying the numbers. Related articles taken from business publications accompany some cases, and information from the articles is incorporated into the case question material. Also available the Pearson Custom Case Program.**

Weygandt's Financial Accounting, 8th Edition, builds upon previous issues by offering a more in-depth introduction to financial accounting with a continued focus on relevant examples based on everyday life. The goal is to help readers further understand the fundamental concepts necessary to use accounting effectively today, as well as an introduction to IFRS and how to use accounting in the future. Kimmel, Weygandt and Kieso present real financial statements and establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information.
