Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Introduction to Management Accounting 1-19 and Student Cd Package

Financial Accounting Plus Mylab Accounting with Pearson EText -- Access Card Package

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Relevance for majors and non-majors—accounting concepts explained in a business context. Financial Accounting: A Business Process Approach explains accounting concepts in a way all readers can understand by organizing the material around how a business works. This text's business process approach presents a business topic and then shows the accounting concepts behind it—rather than solely explaining accounting concepts based on the balance sheet order.

Scott reveals vast amounts of financial accounting information drawn from recent research that has until now been hidden in academic journals. He provides a clear, easy-to-use framework for students to (1) place this information in a financial accounting context, (2) explain and analyze the information intuitively and (3) to reveal the information's relevance in understanding the practice of accounting.

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- For introductory courses in Financial Accounting taught from a more traditional "preparer" approach Financial Accounting helps students "nail" the accounting cycle! Financial Accounting features the 'accounting cycle' up front in the text in order to increase success and retention later on. The concepts and mechanics students learn in the critical 'accounting cycle' chapters are used consistently and repetitively--and with clear-cut details and explanations--throughout the remainder of the text, thus minimizing confusion. MyAccountingLab for Financial Accounting is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams--resulting in better performance in the course--and provides educators with a dynamic set of tools for gauging individual and class progress. Teaching and Learning Experience This program presents a better teaching and learning experience--for you and your students. Financial Accounting, Tenth Edition will: Personalize learning with MyAccountingLab: MyAccountingLab provides instructors with a rich and flexible set of course materials, along with course-management tools that make it easy to deliver all or a portion of your course online. Use consistency, repetition, and a high level of detail when teaching core accounting concepts. Teach with a better coverage of the accounting cycle from start to finish. The text covers a wide range of topics that prepares students for their field. Reinforce learning by using exercises: End-of-chapter, analytical, and Challenge Problems allows students to review the material and gain a better grasp of the text. Note: Financial Accounting Plus NEW MyAccountingLab with Pearson eText Access Card Package, 10e contains: * 0133427536 / 9780133427530*

Financial Accounting, 10e * 0133437280 / 9780133437287 NEW MyAccountingLab with Pearson eText -- Access Card -- for Financial Accounting, 10e MyAccountingLab is not a self-paced technology and should only be purchased when required by an instructor.

For Introductory Financial Accounting courses at the MBA level, and for rigorous undergraduate courses. A unique blend of theory, practice, and robust financial statement analysis. Introduction to Financial Accounting describes the most widely accepted accounting theory and practice with an emphasis on using and analyzing the information in financial statements. This text also compares U.S. GAAP to IFRS where relevant.

For introductory courses in Financial Accounting. Understanding financial accounting as the language of business. Once students see that accounting is the language of business, they are on their way to academic and professional success. "Financial Accounting" translates the essentials of accounting to students so they understand why and when financially sound decisions are made in business today.

Business Process Approach

Financial Accounting, 6e helps users LEARN, PRACTICE, and REMEMBER the accounting cycle. A specially designed Accounting Cycle Tutorial program is integrated in the first three chapters (icons in the margin point readers to an online program, a free website that accompanies the book). The program includes tutorials, interactive animations, and practice questions that provide readers with additional, beyond the book instruction on the accounting cycle. This book also provides a no password required online practice environment where readers can work on problems that help them master the accounting cycle and gauge their comprehension. A unique Accounting Cycle Pocket Guide is included for readers to use as a handy reference it illustrates the key steps in the accounting cycle. This book covers the full range of topics in financial accounting: financial statements, processing information, accrual accounting, internal control and cash, short-term investments and receivables, inventory, plant assets, current and long-term liabilities, stockholders' equity, long-term investments and international operations, using the income statement and statement of stockholders' equity, the statement of cash flows, and financial statement analysis. For accountants and employees in accounting departments.

Revised edition of the authors' Financial accounting, [2017]

Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting.

Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future.
