textbook "Interne Unternehmensrechnung" by Ralf Ewert and Alfred Wagenhofer (Springer). The authors describe the managerial uses of accounting information, both for decision-making and decision-influencing, and provide a broad perspective on the subject combining the academic foundations of the field with recent cutting-edge research results. Moreover, traditions of German accounting theory and practice that are little known outside of the German-speaking countries are reflected in the book. With its unique approach based on information economics, the textbook offers a comprehensive and innovative presentation to a global audience.

based on research about how to deliver content to students and how to mirror the way instructors have told us they teach. The authors have organized this edition into a new three-section approach:1. The CONCEPTS section focuses on the overarching accounting concepts that require consistent reiteration throughout the course.2. The ACCOUNTING APPLICATIONS section helps students apply the accounting procedures with features such as "Apply It!" and a new transaction analysis model.3. The BUSINESS APPLICATIONS section illustrates how concepts and procedures are used to make real-world business decisions.As students walk through the new three-section approach, they gain extra practice with new corresponding TriLevel Problems within CengageNOW. These problems mirror the three sections in each chapter—Concepts, Accounting Applications, and Business
