Bank Management and Financial Services, now in its ninth edition, is designed primarily for students interested in pursuing careers in or learning more about the financial services industry. It explains how banks and their principal competitors (including savings and loans, credit unions, security and investment firms) offer in an increasingly competitive financial-services marketplace. The ninth edition covers changes and events that are remaking banking and financial services today. Among the key events and unfolding trends covered in the text are: Newest Reforms in the Financial System, including the Financial Reform Law and the Credit Card Accountability, Responsibility, and Disclosure (CARD) Act of 2009. Global Financial Sector coverage of the causes and impact of the latest "great recession" and the presentation of the challenges posed in the financial system. Exploration of changing views on the "too big to fail" (TBTF) doctrine and how regulators may be forced to deal with TBTF in the future. Exposure presentation of methods in an increasingly volatile economy.

The American Civil Liberties Union partners with award-winning authors Michael Chabon and Ayelet Waldman in this "forceful, beautifully written" (Associated Press) collection that brings together living writers, each contributing an original piece inspired by a historic ACLU case. On January 19, 1920, a small group of idealists and visionaries, including Helen Keller, Jane Addams, Roger Baldwin, and Eastman, founded the American Civil Liberties Union. A century after its creation, the ACLU remains the nation's premier defender of the rights and freedoms guaranteed by the Constitution. In collaboration with the ACLU, authors Michael Chabon and Ayelet Waldman have curated an anthology of essays "full of struggle, emotion, fear, resilience, hope, and triumph" (Los Angeles Review of Books) about landmark cases and the organization's one-hundred-year history. Fight of the Century takes you inside the trials and the stories that have shaped modern life. Some of the most prominent cases that the ACLU has been involved in—Serrano v. Priest, Roe v. Wade, Miranda v. Arizona—need little introduction. Others you may never even have heard of, yet their outcomes quietly defined the world we live in now. Familiar or little-known cases are brought to vivid life in the hands of the acclaimed writers who dive into the history, narrate their personal experiences, and debate the questions at the heart of each issue. Hector Tobar introduces us to Edward Snowden, whose wrongful conviction inspired the now-iconic Miranda rights—which the police would later read to the man suspected of killing him. Yaa Gyasi confronts the legacy of Brown v. Board of Education.

ACLU submitted a friend-of-the-court brief questioning why a nation that has sent men to the moon still has public schools so unequal that they may as well be on different planets. True to the dissent, Scott Turow offers a blistering critique of the ACLU's stance on campaign finance. These powerful stories, along with essays from Neil Gaiman, Meg Wolitzer, Salman Rushdie, Ann Patchett, Louise Erdrich, George Saunders, and many more, remind us that the issues the ACLU has engaged over the past one hundred years remain as vital as ever today, and that we can never take our eyes off the prize. Chabon and Waldman are donating their advance to the ACLU and the contributors are forgoing payment.

Professional foodservice managers are faced with a wide array of challenges on a daily basis. Controlling costs, setting budgets, and pricing goods are essential for success in any hospitality or foodservice operation. Beverage Cost Control provides the tools required to maintain sales and cost histories, develop systems for monitoring current activities, and forecast future costs. This detailed yet reader-friendly text helps foodservice professionals alike understand and apply practical techniques to effectively manage food and beverage costs. Now in its seventh edition, this extensively revised and updated book examines the entire foodservice operation, including purchasing, production, sales analysis, product costing, food cost formulas, and much more. Each chapter presents complex ideas in a clear, easy-to-understand style. Micro-case studies and real-world scenarios and problems, while step-by-step numerical examples highlight the arithmetic necessary to understand cost control-related concepts. Covering everything from food sanitation to menu engineering, this practical guide helps readers enhance their knowledge of the hospitality management industry and increase their professional self-confidence.

Counter This text focuses on the risks faced by managers of financial institutions and the methods and markets through which these risks are managed. Pertinent information regarding non-bank financial institutions, such as insurance companies and credit unions, provides a more holistic view of the challenges raised by factors such as interest rates, market risk, credit risk, and liquidity risk, among others. The highly regarded text continues to take the same innovative approach as the first, and second editions, focusing on managing return and risk in modern financial institutions. The books central theme is that the risks faced by financial institution managers, and the methods and markets, through which these risks are managed, are becoming increasingly similar. It has become less of issue whether the institution is chartered as a commercial bank, a savings bank, investment bank, or an insurance company. *Financial Markets and Institutions* is aimed at the first course in financial markets and institutions at both the undergraduate and MBA levels. While topics covered in this book are advanced textbooks on financial markets and institutions, the explanations and illustrations are aimed at those with little or no practical or academic experience beyond the introductory courses. In most chapters, the main relationships are presented by figures, graphs, and simple examples. The more complicated details and technical problems related to in-chapter exercises are provided in appendixes to the chapters. Since the author team's focus is on return and risk and the sources of that return and risk in domestic and foreign financial markets and institutions, it relates ways in which a modern financial manager, saver, and investor can expand return with a managed level of risk to achieve the best, or most favorable, return-risk outcome. In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The first round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 countries, the Global Findex Database 2017: *Measuring Financial Inclusion and the Fintech Revolution* includes updated indicators on access to and use of formal and informal financial services. It has a focus on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex Database is a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country data and figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at [www.worldbank.org/globalfindex](http://www.worldbank.org/globalfindex).

*Contemporary Nursing, Issues, Trends, & Management, 6th Edition* prepares you for the rapidly evolving world of health care with a comprehensive yet focused survey of nursing theory and practice, as well as the issues facing today's nurse managers and tomorrow's nurse leaders. Newly revised and updated, Barbara Cherry and Susan Jacob provide the most practical preparation for the issues, trends, and management topics you will encounter in practice. Content mapped to the AACN BSN Essentials emphasizes intraprofessional teams, cultural sensitivity, cultural competence, and the CLAS standards. Vignettes at the beginning of each chapter put nursing history and practice into perspective, followed by Questions to Consider and Reading This Chapter that help you reflect on the Vignettes and prepare you for the material to follow. Case studies throughout the text challenge you to apply key concepts to real-world situations. Coverage of leadership and management in nursing prepares you to function effectively in management roles. Career management strategies include advice for making the transition from student to practitioner and tips on how to pass the NCLEX-RN® examination. Key terms, learning outcomes, and chapter overviews help you study more efficiently and effectively. Helpful web resources provide ways to further explore each chapter topic. Coverage of nursing education brings you up to date on a wide range of topics, from the emergence of interactive learning and e-learning technology, to the effects of the nursing shortage and our aging nursing population. Updated information on paying for health care in America, the Patient Protection and Affordable Care Act, and statistics on health insurance coverage in the United States helps you understand the history and reasons behind healthcare financing reform, the costs of healthcare, and the impact of managed care plans. A new section on health information technology familiarizes you with how Electronic Health Records (EHRs), point-of-care technologies, and consumer health information technology potentially impact the future of health care. Updated chapter on health policy and politics explores the effect of governmental roles, structures, and actions on health care policy and practice. Chapters involved in political advocacy at the local, state, and federal level to help shape the U.S. health care system. The latest emergency preparedness and response guidelines from the Federal Emergency Management Agency (FEMA), the Centers for Disease Control (CDC), and the World Health Organization (WHO) prepare you for responding to natural and man-made disasters.
