This book is a detailed depiction of the "cuts" that people incur or will incur over the course of their lives, and how those "cuts" subsequently shape their lives. (Cuts are hurts, experiences, tragedies, and/or various pains incurred). Unfortunately, people will inevitably incur hurts and pains in life, which most are beyond their own control. One simply cannot control what happens to them at the hands of another.

People hurt other people. It's not so much the hurt that causes the problem, but more so the effects of the hurt. Oftentimes, people ignore the hurt. They try to live their lives as if the hurt never occurred. Many are oblivious to their deep hurt because they've mastered the art of disguising the pain. The problem ensues when the severely wounded people interact with others, then they subsequently inflict others

with the residual hurt that they've been harboring. Because of this, many fail to realize that they've been "cut" and are in need of healing. The purpose of this book is to aid in identifying and healing cuts from one's life (including their past, present, or possibly their future), as these cuts will affect one's life in some regard. Oftentimes, people need healing to recover from some trauma or tragedy that they've

endured, yet they're too afraid to ask for help. Many internalize their feelings, never properly articulating their mental anguish, ultimately forsaking the need and opportunity to heal. It's the lack of healing that causes people to hurt others or live unhappy lives. This book was written to aid people with identifying their hurt, their need for healing, and ultimately helping them to heal and subsequently live

their best lives.

Have you ever experienced brokenness, or perhaps you've encountered deep hurt, and battled with your self worth?This book will speak to the core of a broken spirit.Broken Wings: From Hurt to HopeThis story chronicles a journey from a place of hurt to a place of hope and a place of freedom. Through real unfettered words, you will discover that a broken life can be mended again and pain is only temporary and that real victory comes after you made a decision to not give up on you. Hope is a Victor's trademark and is the fuel for life. In reading these pages you will gain insight on how to sustain your hurt in the most darkest and challenging times of your life.Will you take this journey with me?

"Centerline is a thrilling, high-action page-turner that captures a story many Americans fail to appreciate-the sacrifices of our armed forces, their families, and the medical teams who support them. The tactical flight operations, ground combat scenes, and medical emergencies are real-not Hollywood-and the stories of wounded warriors and those waiting at home are unforgettable." - General Bill Begert, USAF (Ret), Former Commander, Pacific Air Forces
Centerline tells the arresting story of the last leg of an emotional journey through the eyes of wounded warriors, crew, and medical caregivers making the trip home from military hospitals just before Christmas at the height of the surge in Iraq. Air Evac 1492 is the collective Air Force call sign for the flight. But each person on board has an individual story of hopes, dreams, fears, and regrets as the aircraft wings its human cargo through bad weather, flashbacks, and in flight emergencies. "Everybody who goes to war gets shot," one soldier says. "Some in the head. Some in the heart." This inspiring debut novel by Dave McIntyre (Ret COL USA) combines compelling technical descriptions of flying, combat, and medical care in-flight to drive the story through a rollercoaster ride of emotions as thirty-one "souls on board" travel through pain, loss, a killer storm, and the demons of the past to make it home for Christmas. Some travelers will fall short of the runway. And some will find the beacon that leads them home-back to the centerline.

With an uncanny relevance to today's world and inspired by the life of its author, Karl's Story, is a WW II child refugee's tale of resilience, hope and courage as told through the narrative of her beloved teddy bear, Karl .A story perfect for all ages: read to children by parents, grandparents and teachers alike. It has been read many times to middle elementary grades. A book to be handed down from parent to child to child for generations to come. Karl, "a very old teddy bear," has a magic gift- he can tell stories to children who are still young enough to understand toy talk . Karl's Story begins in Europe. It's about Karl, the young girl Karin, and Mimi the middle reading cat, ... how the three friends experience and survive WW II and then escape from communism to a new and hope-filled life with his beloved friend Karin. Their journey, their story, enchants children but in the sense of The Little Prince speaks timelessly to adults as well . Karl's Story tells of European refugees and is as relevant today as then. The chaos of the time turned the world of the three friends upside down, slowly at first, from no more whipped cream at birthday parties to ever more frequent air raids, crashing bombs, and a harrowing train ride, with Karl and Mimi steeled in Karin's old wicker trunk. In the journey Karin loses all she ever knew or loved, but goes on to rebuild her world in America. The book is categorized as Children's Fiction because of its charming cover and talking stuffed animals but is inspirational to young and old alike, and a perfect antidote in these still troubled times; this is indeed a book for all.

Ryan has a normal life until a stranger comes into his life and takes him onto a mysterious journey where his mission is to find pieces to build a machine and a weapon. But the only way to get these items is to time travel. His friends who accompany him on his journey are Diego, Ashley, and Richard. That's when they find out that there is something evil lurking around them.

September 11th, 2001 was America's wake up call to terrorism. Unfortunately, we hit the snooze alarm. The next wave of terror attacks won't be nation shaking, cataclysmic events. We're ready for that. Instead, they'll be minor, localized nightmares. Mere pinpricks to our country, but catastrophic to the small towns that find themselves in the crosshairs. Worst of all, there's nothing we can do to stop it from happening - or is there? A gritty novel extrapolated from real world events, this fast-paced, riveting thriller will leave you alarmed, angry, and awestruck at America's unpreparedness for the next wave of terror attacks. Some might refer to it as death by a thousand cuts, but the counterterrorism community calls it Small Ball. Small Ball is an indictment of our woefully wrongheaded security infrastructure and a testament to the resilience, resourcefulness, and integrity of the average American. You'll wonder why it hasn't happened already. Perhaps it's happening right now...

Though times may be dark, the light can prevail and by holding on to our dreams and visions, we will emerge with a higher consciousness. We will shed all the restrictions of the past, and break the chains of the judgmental and fear-based systems which have ruled and limited our lives in so many ways, to take a jump and leap of faith and really be the full expression of our unique and special souls. But I was not prepared for the avalanche of letters and responses touched off by that book. The Greatest Generation Speaks collects the vast outpouring of letters Brokaw received from men and women eager to share their intensely personal stories of a momentous time in America’s history. Some letters tell of the front during the war, others recall loved ones in harm’s way in distant places. They offer first-hand accounts of battles, poignant reflections on loneliness, exuberant expressions of love, and somber feelings of loss. As Brokaw notes, “If we are to heed the past to prepare for the future, we should listen to these quiet voices of a generation that speaks to us of duty and honor, sacrifice and accomplishment. I hope more of their stories will be preserved and cherished as reminders of all that we owe them and all that we can learn from them.”

THE NEW YORK TIMES BESTSELLER Edited by two-time National Book Award winner and Women's Prize shortlisted-author Jesmyn Ward, a timely and groundbreaking collection of essays and poems about race in America In this bestselling collection of essays and poems, Jesmyn Ward gathers a new generation of writers and thinkers to speak on race. From Claudia Rankine to Rachel Kaadzi Ghansah, Kiese Laymon to Carol Anderson, these voices shine a light on the darkest corners of American history, wrestle with the struggles the country faces today and imagine a better future. Envisioned as a response to The Fire Next Time, James Baldwin's groundbreaking 1963 essay collection, The Fire This Time considers the black experience in modern America. Significant progress has been made in the fifty years since Baldwin's essays were published, but America is a long distance away from a post-racial society - a truth that must be confronted if the country is to continue to work towards change. Baldwin's "fire next time" is now upon us, and it needs to be talked about. Sage, urgent and impassioned, this is an essential collection edited by one of America's greatest writers.

"More than a hundred people killed on a bright spring day. The city's most beautiful and iconic landmark in ruins. The man accused of setting the fire is dead, buried in the rubble along with answers to the question, "Why?" As Juni Bruder of the Orlando Herald talks to rescuers and survivors, she cant shake the feeling that something isnt right. The official story doesnt ring true. Her interviews become front-page news. So does her suicide, a year after the blaze. Her brother Peter, a Jesuit priest, finds a clean apartment and a stack of papers sealed in plastic bags. Sifting through his sisters effects, he reads the stories of the dead, from the architect who designed the famous building to the janitor blamed for destroying it. A file on Juni's laptop will reveal the hidden threads that bound the victims together, the seemingly random acts that brought them to a single place and moment in time. In the end, the answers Juni seeks wont be the ones she finds. Told through an inspired mix of puzzle pieces-news stories, phone transcripts, press releases and filled with gallows humor, this is a novel about life, loss and the slippery nature of truth--Provided by the publisher.

John Sutter, who left Switzerland to escape debtor's prison, came to California and built a giant land monopoly. Again, he became heavily in debt and died destitute. The entire Sacramento and San Joaquin valleys were inundated for 300 miles long and 20 miles wide by the flood of 1862. The cholera epidemic killed more than 1,000 citizens, including doctors and others who were caring for the patients. The Old City Cemetery is an exciting place. As docents are quick to remind, "People are dying to get in here." The docents know their job. It's almost as though they are trying to bring the city's cemerteries back to life. We love the epitaph on one headstone that simply reads: "See ya later."

Silent Enemies

INSTANT NEW YORK TIMES BESTSELLER A powerful guide to the art of leadership from David Gergen—former White House adviser to four US presidents, CNN analyst, and founder of the Harvard Center for Public Leadership. As nations careen from one crisis to the next, there is a growing cry for fresh leadership. Those in charge have repeatedly fallen short, and trust in institutions has plummeted. So, what does great leadership look like? And how are great leaders made? David Gergen, a leader in the public arena for more than half a century, draws from his experiences as a White House adviser to four presidents, his decades as a trusted voice on national issues, and years of teaching and mentoring young people to offer a stirring playbook for the next generation of change-makers. To uncover the fundamental elements of effective leadership, Gergen traces the journeys of iconic leaders past and present, from pathbreakers like Ruth Bader Ginsburg, John Lewis, John McCain, and Harvey Milk to historic icons like Lincoln, John F. Kennedy, Winston Churchill, and Eleanor and Franklin Roosevelt, to contemporary game changers like Greta Thunberg, the Parkland students, and the Black Lives Matter movement. Leadership is a journey that starts from within, Gergen writes. A leader must become self-aware and then achieve self-mastery. You cannot lead others until you can lead yourself. As you start to leap into the world, you begin your outer journey, overcoming setbacks, persuading others, empowering them, and navigating crises—armed with a sense of history, humor, passion, and purpose. By linking lessons of the past with the ever-changing practice of leadership today, Gergen reveals the time-tested secrets of dynamic leadership. An indispensable manual, *Hearts Touched with Fire* distills experience and wisdom of the past into an invaluable guide for leaders of our future.

When she was sixteen, Diana left her unhappy family and set out to make a new life. Twenty-five years later, she has arrived. Recently married to Edmund, she lives with him at his family's historic country home. But when Diana hears that her mother has died, she impulsively asks estranged half-sister Valerie and her nine-year-old son to stay. The night of the funeral, fueled by wine and years of resentment, the sisters argue and a terrible accident occurs. The foundations of a well-ordered life start to crack and the lies begin to surface, one dangerous secret after another. And then there's the boy, watching, waiting. *The Half Sister* is a profound and haunting portrayal of those who are imprisoned by their past and by the struggle to find the words which will release them.
