The Indian Air Force is today 82 years old, a battle-scarred, highly professional force. How it reached this level is an epic saga of struggle against bias and racial prejudice for the officers and men from early thirties to the beginning of World War II. The charge was that Indians la fly military aircraft and technically maintain them. In just three years, IAF technicians and pilots imbibed the discipline of the Air Force and performed magnificently in the North West Frontier Province. By 1939, when the war broke out, there was just one squadron. In 1941-42, provided the IAF with an opportunity to show its competence and leadership in battle. As the Allied armies were retreating, along with the RAF, the IAF provided air cover. By 1944-45, there were nine squadrons and till the end of the war there were constantly in action. History

What our younger generations need to know is people. Without people there are no units and no organization. This narrative is an effort to bring to the reader the fierce joy at fighting for the country, the professional pride of doing one's duty and finally the personal touch: 'I di (who are no longer youngsters and some who have passed away) the reader can imagine himself to be there whether in the North-West tribal region, or flying over the thick jungles of Burma. It is the first-person account that provides the flesh and blood to history by describin

the enemy at close quarters on the frontier or in Burma. The narrative has interviews with those who took part in operations. This is a story of the Indian Air Force coming of age after being studied in war.

Competition Science Vision (monthly magazine) is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India. Essential SQA Exam Practice: Higher Geography Questions and Papers

A lifetime of fitness in just minutes a day. I don't have time . . . I'm too tired . . . I hate gyms . . . These are among the most common excuses for not exercising. But the truth is that getting in shape requires less time and effort than you might think. Examining everything from pre-workout stretches to post-workout

protein shakes, this science-backed book slices through fitness fads and misconceptions to reveal how you can exercise quickly and effectively. For example, is it best to exercise in the morning? Does aerobic activity burn more fat than weight lifting? You'll also learn how to get and stay motivated, what equipment to buy (and what not to waste money on), which dietary supplements really help, and how to combat muscle soreness. Fitter Faster explains how to: Find the right balance between cardio, strength, and stretching * Slash workout times with high-intensity interval training * Prevent boredom * Enhance fat-burning The accompanying Fitter Faster Plan, developed with celebrity trainer Brad Kolowich, Jr., pulls everything together. Requiring as little as 15 minutes a day, these quick workouts maximize efficiency-allowing you to reap the greatest benefit in the shortest possible time...all without ever having to set foot in a gym. With

photographs illustrating each exercise routine, this eye-opening book will forever change the way you work out- and help you get fitter faster.

The incidents described in this book, however improbable or implausible they may appear to be, are all completely true and have needed little or no embellishment on the part of the author. They all took place during a two year period between 1952 and 1954, and helped to transform a callow, naive, possibly diffident youth, into a tougher, more worldly, self confident young man, teaching him along the way, the importance of discipline, self-reliance and loyalty. For readers who remember this time, hopefully the book will re-ignite memories of their own experiences during this era. For readers for whom these years are part of an ancient history, perhaps it will give them some idea of what it was like to be taken from your family, friends, and familiar surroundings, and to be sent to a foreign land long before the advent of television, phones in homes, mobile phones, computers or any of the means of communication taken for granted today.

Whichever generation you belong to, take a journey through these stories, some of which are happy, some of which are sad, some of which are slightly strange and some of which are just plain mad. Read on! The foreword to this book has been written by John Noakes, probably the most famous of all the presenters of the Blue Peter programme. He and the author were part of a close group of friends who formed part of the ground crew of Number 256 Royal Air Force night-fighter squadron serving as part of the Second Tactical Air Force in Western Germany and share many memories of that period.
