Introduction by Dean Koontz The opportunists have taken over Palm City. Silent and deadly, like the snakes that infest the nearby swamps, they lay hidden from view, waiting for the right moment to strike. Political subterfuge has already eased the residents toward selling out. All that's left now is to silence a few stubborn

At least that's what he tells himself after warning Kat Hubble that the beautiful bay she and her neighbors have struggled to save is going to be sold to developers. He knows that he shouldn't have told her anything. He's a reporter, trained to reveal nothing. But he's falling in love with her. Now cutthroats have set their sights on Kat—and they'll do

The purpose of the study was to find the ability of the eye to see a dark object against a sky background at night after the eye had been exposed to a flash of light or a series of flashes. This capacity of the eye was measured by varying the width of a vertical dark stretched across a circular bright patch 8° in diameter. A point 5° to the left of center of the patch was fixated with the right eye. The brightness of this patch varied from zero to 0.0107 ml. and was observed through a 2 mm. artificial pupil.

Afterwards, she dumped a cheque and left in a carefree manner. However, she never expected that this man was actually her ex-boyfriend's Third Uncle! A single kiss married the Third Aunt of the previous generation, so Ruan Xihan said he could have this! What surprised her the most was that this man, who claimed he had no money and no influence, who spent all day crying and hanging around her house, had suddenly transformed into the frightening "Jade-faced Yan Luo" of

Describes the path to enlightenment as followed by the Bodhisattva

Flashes in the Night captures the tragic story of the sinking of M/S Estonia in dark, cold Baltic waters on September 28, 1994.

Caught in a storm during an overnight trip between Tallinn, Estonia, and Stockholm, Sweden, the ship sank in a matter of minutes. Debate continues over whether the cause was structural or sabotage, but the fact remains 852 souls were lost at sea in Europe's worst civilian disaster. Nearly one-third of those who escaped the ship died of

hypothermia. A twenty-nine-year-old Swedish entrepreneur and a pretty nineteen-year-old Swedish girl are a major focus of this dramatic account. On that night when Kent Harstedt met Sara Hedrenius on the top rail of the sinking ship, they made a date for dinner in Stockholm-if they survived. Through that endless darkness, huddled in near-freezing water in their raft, they told each other jokes to stay awake and alive. Their date made world headlines. This is their story, and the story of the young British adventurer Paul Barney, along with riveting accounts of others who were a
