The Sustainable Development Report 2021 features the SDG Index and Dashboards, the first and widely used tool to assess country performance on the UN Agenda 2030 and the Sustainable Development Goals. The report analyses and outlines what needs to happen for the Decade of Action and Delivery of the SDGs. In order to build back better following the Covid-19 pandemic, especially low-income countries will need increased fiscal space. The report frames the implementation of the SDGs in terms of six broad transformations. The authors examine country performance on the SDGs for 193 countries using a wide array of indicators, and calculate future trajectories, presenting a number of best practices to achieve the historic Agenda 2030. The views expressed in this report do not reflect the views of any organizations, agency or programme of the United Nations. This title is available as Open Access on Cambridge Core.

With the heart-felt prose of a loving daughter, Patti Davis provides a life raft for the caregivers of Alzheimer’s patients. “For the decade of my father’s illness, I felt as if I was floating in the deep end, tossed by waves, carried by currents, but not drowning,” writes Patti Davis in this searingly honest and deeply moving account of the challenges involved in taking care of someone stricken with Alzheimer’s. When her father, the fortieth president of the United States, announced his Alzheimer’s diagnosis in an address to the American public in 1994, the world had not yet begun speaking about this cruel, mysterious disease. Yet overnight, Ronald Reagan and his immediate family became the face of Alzheimer’s, and Davis, once content to keep her family at arm’s length, quickly moved across the country to be present during “the journey that would take [him] into the sunset of [his] life.” Empowered by all she learned from caring for her father—about the nature of the illness, but also about the loss of a parent—Davis founded a support group for the family members and friends of Alzheimer’s patients. Along with a medically trained cofacilitator, she met with hundreds of exhausted and devastated attendees to talk through their pain and confusion. While Davis was aware that her own circumstances were uniquely fortunate, she knew there were universal truths about dementia, and even surprising gifts to be found in a long goodbye. With Floating in the Deep End, Davis draws on a welter of experiences to provide a singular account of battling Alzheimer’s. Eloquently woven with personal anecdotes and helpful advice tailored specifically for the overlooked caregiver, this essential guide covers every potential stage of the disease from the initial diagnosis through the ultimate passing and beyond. Including such tips as how to keep a loved one hygienic, and careful responses for when they drift to a time gone by, Davis always stresses the emotional milestones that come with slow-burning grief. Along the way, Davis shares how her own fractured family came together. With unflinching candor, she recalls when her mother, Nancy, who for decades could not show her children compassion or vulnerability, suddenly broke down in her arms. Davis also offers tender moments in which her father, a faded movie star whom she always longed to know better, revealed his true self—always kind, even when he couldn’t recognize his own daughter. An inherently wise work that promises to become a classic, Floating in the Deep End ultimately provides hope to struggling families while elegantly illuminating the fragile human condition.

When Coca-Cola was introduced in France in the late 1940s, the country’s most prestigious newspaper warned that Coke threatened France’s cultural landscape. This is one of the examples cited in Richard Kuisel’s engaging exploration of France’s response to American influence after World War II. In analyzing early French resistance and then the gradual adaptation to all things American that evolved by the mid-1980s, he offers an intriguing study of national identity and the protection of cultural boundaries. The French have historically struggled against Americanization in order to safeguard “Frenchness.” What would happen to the French way of life if gaining American prosperity brought vulgar materialism and social conformity? A clash between American consumerism and French civilisation seemed inevitable. Cold War anti-Communism, the Marshall Plan, the Coca-Cola controversy, and de Gaulle’s efforts to curb American investment illustrate ways that anti-Americanization was played out. Kuisel also raises issues that extend beyond France, including the economic, social, and cultural effects of the Americanization process society that have become a global phenomenon. Kuisel’s lively account reaches across French society to include politicians, businessmen, trade unionists, Parisian intellectuals, and ordinary citizens. The result reveals much about the French—and about Americans. As Euro Disney welcomes travellers to its Parisian Fantasyland, and with French recently declared the official language of France (to defend it from the encroachments of English), Kuisel’s book is especially relevant.

How to Get the Right Diagnosis, Buy the Cheapest Drugs, Beat Your Insurance Company, and Get the Best Medical Care Every Time

The story of one woman’s struggle to care for her seriously ill husband—and a revealing look at the role unpaid family caregivers play in a society that fails to provide them with structural support. Already Toast shows how all-consuming caregiving can be, how difficult it is to find support, and how the social and literary narratives that have long locked women into providing emotional labor also keep them in unpaid caregiving roles. When Kate Washington and her husband, Brad, learned that he had cancer, they were a young couple: professionals with ascending careers, parents to two small children. Brad’s diagnosis stripped those identities away: he became a patient and she his caregiver. Brad’s cancer quickly turned aggressive, necessitating a stem-cell transplant that triggered a massive infection, robbing him of his eyesight and nearly of his life. Kate acted as his full-time aide to keep him alive, coordinating his treatments, making doctors’ appointments, calling insurance companies, filling dozens of prescriptions, cleaning commodes, and handling 14 dogs. She became so burned out that when she took an online quiz on caregiver self-care, her result cheerily declared, “You’re already toast!” Through it all, she felt profoundly alone, but, as she later learned, she was in fact one of millions: an invisible army of family caregivers working every day in America, their unpaid labor keeping our troubled healthcare system afloat. Because our culture both romanticizes and erases the realities of care work, few caregivers have shared their stories publicly. As the baby-boom generation ages, the number of family caregivers will continue to grow. Readable, reliable, timely, and often raw, Already Toast—with its clear call for paying and supporting family caregivers—is a crucial intervention in that conversation, bringing together personal experience with deep research to give voice to those tasked with the overlooked, vital work of caring for the seriously ill. “...profoundly moving.”—Publishers Weekly Nelson Mandela’s two great-grandchildren ask their grandmother, Mandela’s youngest daughter, 15 questions about their grandad—“the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child’s perspective, and authored jointly by Nelson Mandela’s great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson’s Mandela 100th birthday.

A MacArthur Genius Grant recipient pioneers a radical change in how we interact with older loved ones, especially those experiencing dementia, as she introduces a proven method that uses the creative arts to bring light and joy to the lives of elders. In Creative Care, Anne Basting lays the groundwork for a widespread transformation in our approach to elder care and uses compelling, touching stories to inspire and guide us all—family, friends, and health professionals—in how to connect and interact with those living with dementia. A MacArthur Genius Grant recipient, Basting tells the story of how she pioneered a radical change in how we interact with our older loved ones. Now used around the world, this proven method has brought light and joy to the lives of elders—and those who care for them. Here, for the first time, everyone can learn these methods. Early in her career, Basting noticed a problem: today’s elderly—especially those experiencing dementia and Alzheimer’s—are often isolated in nursing homes or segregated in elder-care settings, making the final years of life feel lonely and devoid of meaning. To alleviate their sense of aloneness, Basting developed a radical approach that combines methods from the world of theater and improvisation with evidence-based therapies that connect people using their own creativity and imagination. Rooted in twenty-five years of research, these new techniques draw on core creative exercises—such as “Yes, and . . .” and “Beautiful Questions.” This approach fosters storytelling and active listening, allowing elders to freely share ideas and stories without worrying about getting the details “correct.” Basting’s research has shown that these practices stimulate the brain and awaken the imagination to add wonder and awe to patients’ daily lives—and provide them a means of connection, both with the world and with those caring for them. Creative Care promises to bring light and hope to a community that needs it most.

Italy, the country with a hundred cities and a thousand bell towers, is also the country with a hundred cuisines and a thousand recipes. Its great variety of culinary practices reflects a history long dominated by regionalism and political division, and has led to the common conception of Italian food as a mosaic of regional customs rather than a single tradition. Nonetheless, this magnificent new book demonstrates the development of a distinctive, unified culinary tradition throughout the Italian peninsula. Alberto Capatti and Massimo Montanari uncover a network of culinary customs, food lore, and cooking practices, dating back as far as the Middle Ages, that are identifiably Italian: o Italians used forks 300 years before other Europeans, possibly because they were needed to handle pasta, which is slippery and dangerously hot, o Italians invented the practice of chilling drinks and may have invented ice cream. o Italian culinary practice influenced the rest of Europe to place more emphasis on vegetables and less on meat. o Salad was a distinctive aspect of the Italian meal as early as the sixteenth century. The authors focus on culinary developments in the late medieval, Renaissance, and Baroque eras, aided by a wealth of cookbooks produced throughout the early modern period. They show how Italy’s culinary identities emerged over the course of the centuries through an exchange of information and techniques among geographical regions and social classes. Though temporally, spatially, and socially diverse, these cuisines refer to a common experience that can be described as Italian. Thematically organized around key issues in culinary history and beautifully illustrated, Italian Cuisine is a rich history of the ingredients, dishes, techniques, and social customs behind the Italian food we know and love today.

A Revolutionary Approach to Dementia and Elder Care

In My Two Elaines, author Marty Schreiber, former governor of Wisconsin, watches his beloved wife, Elaine, gradually transform from the woman he fell in love with in high school, and who diligently supported his political career, to the Elaine who knows she is declining and can’t remember how to cook a meal, and finally to the Elaine who no longer recognizes Marty or their children. One part practical advice, this book provides the context of Elaine’s decline, recounting her thoughts, concerns, and frustrations as the disease progresses. A recurring feature called “What I Wish You Knew,” which provides helpful takeaways for caregivers based on Marty’s observations about what he wishes he’d known sooner and done differently. A Q&A between Marty and neuropsychologist Dr. Michelle Braun, to equip caregivers with the right questions to ask and empower them to advocate for their loved ones and their own needs. Beyond sincere, practical advice, My Two Elaines gives the reader permission to feel the full spectrum of emotions, including humor, even in the face of this relentless illness. And the book speaks to anyone touched by this disease—spouse, child, friend, or family member.

Here’s a hope-filled book about Alzheimer’s caregiving. It was written by Marie Parkey, PhD - a well-known author on dementia issues - and neurologist Daniel C. Potts, MD, FAAN, both experts on caregiving. With a Foreword by Maria Shriver, this groundbreaking volume will give you hope in the midst of the darkness of Alzheimer’s and other dementias. You can come to terms with your loved one’s condition and free yourself to experience joyous interactions. Part I covers a variety of issues, such as the authors’ belief that people with Alzheimer’s can still enjoy life, how to overcome denial, five especially difficult situations, the role of grief on the journey to acceptance, and letting go of resentment through making peace with God. In Part II the authors provide 55 helpful tips for visiting people with Alzheimer’s. Part III consists of numerous short stories illustrating the authors’ joyous interactions with their loved ones. The stories will warm your heart and light your way along the path to achieving true joy.

Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled, Rusch weaves her fascinating life’s story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete—climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking—packing up with her backpacks along the way. But while the might seem like just another superhuman playing out a fateful act of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett’s Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain zone and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. Rusch to Glory is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

Is It Alzheimer’s?

In the world of Early-onset Alzheimer’s, here is a book all about life, love, and hope. Broken Beauty is the story of Sarah Smith’s mother—known as “Beauty” to her family—and her family’s journey through the devastating world of Early-onset Alzheimer’s. Smith was a young mother in her thirties when her own mother’s illness struck, so the family’s shock and pain at the disease’s manifestations is nearly unbearable. Not only is Beauty still young and fit, she is also Sarah’s best friend. This powerful and personal story about a daughter facing the unthinkable and the love she found to carry her through will touch the hearts of everyone who reads it. Sarah Bearden Smith is a housewife, mother of three, and a woman of deep faith, who has lived in Texas all her life. Sarah was born and raised in the Houston area, and remained there until her departure for the University of Texas at Austin, where she was a speech communications major, varsity cheerleader, and a member of Tri Delta sorority. After her marriage to Thad Smith in 2002, the couple moved to Dallas, Texas. During their years in Dallas, Sarah and her husband have served on various boards and committees, including the Greer Garson Gala, Presbyterian Hospital Healthcare Foundation, East-West Ministries, AWARE Dallas, and Providence Christian School of Texas. They actively serve with their children in assisted living and memory care facilities and support organizations such as Council for Life, Alzheimer’s Association, Women’s Alzheimer’s Movement, and Community Bible Study. Sarah and her family are members of Watermark Community Church.

Teach Your Dragon To Not Interrupt. A Cute Children Story To Teach Kids Not To Interrupt or Talk Over People.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armored supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian’s book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian’s classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Floating in the Deep End: How Caregivers Can See Beyond Alzheimer’s

Garlic and Oil

A moving memoir and an extraordinary love story that shows how an expert physician became a family caregiver and learned why care is so central to all our lives and yet is at risk in today’s world. When Dr. Arthur Kleinman, an eminent Harvard psychiatrist and social anthropologist, began caring for his wife, Joan, after she was diagnosed with early-onset Alzheimer’s disease, he found just how far the act of caregiving extended beyond the boundaries of medicine. In The Soul of Care: The Moral Education of a Husband and a Doctor, Kleinman delivers a deeply humane and inspiring story of his life in medicine and his marriage to Joan, and he describes the practical, emotional and moral aspects of caretaking. He also writes about the problems our society faces as medical technology advances and the cost of health care soars but caring for patients no longer seems important. Caregiving is long, hard, unglamorous work—at moments joyous, more often tedious, sometimes agonizing, but it is always rich in meaning. In the face of our current political indifference and the challenge to the health care system, he emphasizes how we must ask uncomfortable questions of ourselves, and of our doctors. To give care, to be “present” for someone who needs us, and to feel and show kindness are deep emotional and moral experiences, enactments of our core values. The practice of caregiving teaches us what is most important in life, and reveals the very heart of what it is to be human.

Following the Pulitzer prize-winning collection Sag’s Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender “Ode to the Hymen,” Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as “Ode to My Sister,” “Ode of Broken Loyalty,” “Ode to My Whiteness,” “Blow Job Ode,” and “Ode to the Last Thirty-Eight Years in New York City Visible from This Window,” Olds treats to us an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

NARCISSUS: THE BEST BOOK OF THE YEAR BY BOOKPAGE AND LIBRARY JOURNAL. The Crimson Petal and the White meets Fight Club: A page-turning novel set in the world of female pugilists and their patrons in late eighteenth-century England. Moving from a filthy brothel to a fine manor house, from the world of street fighters to the world of champions, The Fair Fight is a vivid, propulsive historical novel announcing the arrival of a dynamic new talent. Born in a brothel, Ruth doesn’t expect much for herself beyond abasement. While her sister’s beauty affords a certain degree of comfort, Ruth’s harsh looks set her on a path of drudgery. That is until she meets pugilist patron George Dwyer and discovers her true calling—fighting bare knuckles in the prize rings of Bristol. Manor-born Charlotte has a different cross to bear. Scarred by smallpox, stifled by her social and romantic options, and trapped in twisted power games with her wastrel brother, she is desperate for an escape. After a disastrous, life-changing fight sidelines Ruth, the two women meet, and it alters the perspectives of both of them. When Charlotte presents Ruth with an extraordinary patron, Ruth pushes dainty Charlotte to enter the ring herself and learn the power of her own strength. A gripping, page-turning story about people struggling to transcend the circumstances into which they were born and fighting for their own places in society, The Fair Fight is a raucous, intoxicating tale of courage, reinvention, and fighting one’s way to the top.

Pasta, cappuccino, olive oil Italian food culture is a prominent feature of Western society in our cafes, restaurants and homes. But what is the history of Italian cuisine? And where do we get our notions about Italian food? Garlic and Oil is the fir st comprehensive history of food habits in modern Italy. Chronicling the period from the mid-nineteenth century to the present day, the author argues that politics dramatically affected the nature of Italian cuisine and food habits. Contrary to popu lar belief, the Italian diet was inadequate and unchanging for many decades. Drawing on the writings of scientific professionals, domestic economists, government officials, and consumers, the author shows how the miserable diet of so many Italians be came the subject of political debate and eventually, the target of government intervention. As successive regimes liberal, fascist, democratic struggled with the question of how to improve peoples eating habits, their actions purposefully and inad vertently affected what and how much Italians ate, shaping not only the foundations of Italian cuisine, but also the nature of Italian identity. Garlic and Oil is a popular national food history that offers a new perspective on the history of consume rism and food studies by examining how political change affects food consumption habits.
