Bynkershoek, Cornelius van. DuPonceau, Peter Stephen, Editor and Translator. A Treatise on the Law of War: Being the First Book of His Quaestiones Juris Publici. Translated From the Original Latin with Notes, by Peter Stephen du Ponceau. Philadelphia: Published by Farrand & Nicholas [et al.], 1810. xxxiv, 218 pp. Reprint available July 2005 by The Lawbook Exchange. ISBN 1-58477-566-1. Cloth. \$95. * "De Rebus Bellicus" addresses the customs of war on land and on sea. A notably humane work, it condemns actions against civilians and advocates the fair treatment of prisoners of war. DuPonceau's able translation is prefaced by a biography of the author, a table of cases, an index of citations from the Corpus Juris Civilis and an annotated bibliography of civil law treatises cited or referred to by the author. This latter item, which lists editions and translations, is interesting for its insights into the American reception of the civil law in the early 1800s. One of the most important jurists and international lawyers of his time, Bynkershoek [1673-1743] was an influential Dutch jurist who founded the positive school of international law, which held that usage and practice were more important than deductions drawn from natural law. Du Ponceau [1760-1844], who was Baron von Steuben's secretary

during the revolutionary War, is an important figure in the early history of American Law and letters. He founded the Law Academy of Philadelphia in 1821, was the President of the American Philosophical Society and was a much-consulted expert on international relations and linguistics.

About the publication The African Charter on the Rights and Welfare of the Child (African Children's Rights Charter) is the continental instrument for protecting and promoting the rights and welfare of the Child. The Children's Charter, adopted in 1990, forms part of the salient features of the African human rights system, complementing the parent human rights instrument, the African Charter on Human and Peoples Rights (African Charter). To give meaning and effect to its

provisions, the African Children's Rights Charter in article 34 establishes an organ namely the African Committee of Experts on the Rights and Welfare of the Child (African Children's Rights Committee or Committee) to monitor implementation by member states, to advocate for children's rights and to hold state parties accountable to their obligations as state parties. Working collaboratively on the continent's human rights system, the organs comprising the African human rights, namely, the African Commission on Human and Peoples' Rights (Commission), the African Court on Human and Peoples' Rights (Court) and the African Children's Rights Committee, have undertaken to publish the African Human Rights Yearbook. This is an instrumental platform to highlight the mandate of the organs, to foster collaboration and to illustrate Africa's commitment to uphold human rights. It is an important initiative that highlights various aspects of the norms and institutions relevant for human rights on the continent. This is the third volume of the Yearbook. It includes a focus on the 2019 theme of the African Union Refugees, Returnees and Internally Displaced Persons: Towards Durable Solutions to Forced Displacement in Africa. The African Children's Committee has at the same time undertaken and published a study on Children on the Move (2019), focusing not only on refugees, detainees and internally displaced persons, but also drawing inspiration from the protective

mandate of the African Children's Rights Charter to draw the continent's attention to the protection and promotion of the rights and welfare of children who are on the move. The focus on themes of the African Union enables a critical analysis of the extent of their implementation and relevance to the human rights discourse in the continent. Furthermore, the special focus of the Yearbook on various groups of people in vulnerable situation, such as children and women, signals the need to enhance their protection and prioritise their plight. The role of academic writing in advancement of human rights deserves due notice and appreciation by human rights implementing bodies. Peer reviewed academic research provides credible and independent knowledge about human rights in a specific country or region, as well as in various contexts and thematic areas. Academia plays a major role in the development of a human rights resource base that enables sustainable enhancement of human rights protection and promotion. The African Human Rights Yearbook is an excellent example of the important role played by academia in strengthening human rights protection and promotion in Africa. The breadth of knowledge enveloped in the Yearbook is evidenced by the long list of highly established scholars that informed it. By questioning and analysing the institutional architecture and the work of the three human rights bodies, the Yearbook has an invaluable role of ameliorating their

functioning as a collective system. For this reason, it is critical that the Committee, Commission and Court take note of the various recommendations stemming from the research and apply them when relevant, for better protection and promotion of human rights in Africa. Mrs. Goitseone Nanikie Nkwe Chairperson of the African Committee of Experts on the Rights and Welfare of the Child. La Charte africaine des droits et du bien-être de l'enfant (Charte des droits de l'enfant) est l'instrument central en matière de protection et de promotion des droits et du bien-être de l'enfant en Afrique. Adoptée en 1990, elle fait partie intégrante des instruments clés du système africain des droits de l'homme et complète, à cet effet, la Charte africaine des droits de l'homme et des peuples, le traité fondateur du système africain des droits de l'homme. Pour mieux protéger les droits des enfants, le Comité africain d'experts sur les droits et le bien-être de l'enfant (Comité) fut créé à travers l'article 34 de la Charte des droits de l'enfant. Cet organe a pour mission de surveiller et de contrôler l'application et la mise en oeuvre de la Charte. Il veille que les Etats respectent et rendent compte de la mise en oeuvre des obligations qui leur incombent en vertu de la Charte. Travaillant en étroite collaboration dans le cadre de la protection des droits de l'homme en Afrique, la Commission africaine des droits de l'homme et des peuples, la Cour africaine des droits de l'homme et des peuples et

le Comité africain d'experts sur les droits et le bien-être de l'enfant ont mis en place l'Annuaire africain des droits de l'homme. Cette initiative sert d'opportunité pour promouvoir les missions dévolues auxdits organes, raffermir les liens de collaboration entre eux et rappeler l'engagement pris par l'Afrique afin de protéger les droits humains. L'Annuaire est une initiative importante car elle met en exergue les différents aspects normatifs et institutionnels des droits de l'homme en Afrique. Ce troisième volume de l'Annuaire est dédié au thème que l'Union africaine a retenu pour l'année 2019; Année des réfugiés, des rapatriés et des personnes déplacées: Vers des solutions durables aux déplacements forcés en Afrique. En parallèle, le Comité a entrepris et publié une cartographie des enfants en mouvement en Afrique (2019) axée sur les réfugiés, les détenus et les déplacés internes. Tirant ses fondements du mandat de protection que confère la Charte des droits de l'enfant, la cartographie attire l'attention du continent sur la protection et la promotion des droits et du bien-être des enfants en mouvement. L'emphase sur les thèmes de l'Union africaine dans l'Annuaire permet d'examiner le degré de leur mise en oeuvre et leur importance au débat sur la question des droits de l'homme en Afrique. Par ailleurs, l'accent mis sur les catégories et groupes en situations de vulnérabilité dont les enfants et les femmes, sert à réitérer la nécessité de renforcer leur protection et

de prioriser leur infortune. Les organes de protection des droits de l'homme devraient reconnaître, à sa juste valeur, le rôle que jouent les travaux scientifiques dans la promotion des droits de l'homme. Les travaux de recherche scientifique relus et examinés par les pairs fournissent des connaissances crédibles et indépendantes sur les droits de l'homme dans un pays ou une région spécifique, ainsi que dans divers contextes et domaines thématiques. Les universités jouent un rôle prépondérant dans la mise en place des ressources adéquates en matière des droits de l'homme en vue de renforcer durablement leur protection et promotion. L'Annuaire africain des droits de l'homme est un parfait exemple de l'important rôle joué par les universités dans le renforcement de la protection et de la promotion des droits de l'homme en Afrique. La profondeur des connaissances que regorge l'Annuaire peut être illustrée de par la longue liste d'universitaires et des chercheurs qui le constituent. En interrogeant et en analysant l'architecture institutionnelle et le travail des trois organes de défense des droits de l'homme, l'Annuaire joue un rôle inestimable dans l'amélioration de leur fonctionnement en tant que système collectif. Pour cette raison, il est essentiel que le Comité, la Commission et la Cour prennent note des diverses recommandations découlant des recherches entreprises et les appliquent le cas échéant pour une meilleure protection et promotion des droits de l'homme en

Afrique. Mme Goitseone Nanikie Nkwe Président du Comité africain d'experts sur les droits et le bien-être de l'enfant Table of Contents

There is great concern nowadays regarding the character and position of University studies all over Europe as the result of a possible coordination of University studies. Within this context, the subject of this book is the teaching and research activities of Universities and other European institutions in the field of Church-State relations. Four University scholars, Basdevant-Gaudemet, Puza, Kotiranta and Garcia Pardo, report along similar lines on the situation of University studies in this field in the different countries of the European Union. The first report also contains a historical description of the origins and development of the University studies of Church-State relations.

Comparative Property Law provides a comprehensive treatment of property law from a comparative and global perspective. The contributors, who are leading experts in their fields, cover both classical and new subjects, including the transfer of property, the public-private divide in property law, water and forest

laws, and the property rights of aboriginal peoples. This Handbook maps the structure and the dynamics of property law in the contemporary world and will be an invaluable reference for researchers working in all domains of property law.

Nancy Leong reveals how powerful people and institutions use diversity to their own advantage and how the rest of us can respond—and do better. Why do people accused of racism defend themselves by pointing to their black friends? Why do men accused of sexism inevitably talk about how they love their wife and daughters? Why do colleges and corporations alike photoshop people of color into their websites and promotional materials? And why do companies selling everything from cereal to sneakers go out of their way to include a token woman or person of color in their advertisements? In this groundbreaking book, Nancy

Leong coins the term "identity capitalist" to label the powerful insiders who eke out social and economic value from people of color, women, LGBTQ people, the poor, and other outgroups. Leong deftly uncovers the rules that govern a system in which all Americans must survive: the identity marketplace. She contends that the national preoccupation with diversity has, counterintuitively, allowed identity capitalists to infiltrate the legal system, educational institutions, the workplace, and the media. Using examples from law to literature, from politics to pop culture, Leong takes readers on a journey through the hidden agendas and surprising incentives of various ingroup actors. She also uncovers a dire dilemma for outgroup members: do they play along and let their identity be used by others, or do they protest and risk the wrath of the powerful? Arming readers with the tools to recognize and mitigate the harms of exploitation, Identity Capitalists reveals what happens when we prioritize diversity over equality. This collection of essays gathers contributions from leading international lawyers from different countries, generations and angles with the aim of highlighting the multifaceted history of international law.

Separate But Faithful

There is a myth that lingers around legal education in many democracies. That myth would have us believe that law students are admitted and then succeed based on raw merit, and that law schools are neutral settings in which professors (also selected and promoted based on merit) use their expertise to train those students to become lawyers. Based on original, empirical research, this book investigates this myth from myriad perspectives, diverse settings, and in different nations, revealing that hierarchies of power and cultural norms shape and maintain inequities in legal education. Embedded within law school cultures are assumptions that also stymie efforts at reform. The book examines hidden pedagogical messages, showing how presumptions about theory's relation to practice are refracted through the obfuscating lens of curricula. The contributors also tackle questions of class and market as they affect law training. Finally, this collection examines how structural barriers replicate injustice even within institutions representing themselves as democratic and open, revealing common dynamics across cultural and institutional forms. The chapters speak to similar issues and to one another about the influence of context, images of law and lawyers, the political economy of legal education, and the agency of students and faculty.

Skills & Values: Discovery Practice is designed to serve as an introduction to the practical application of the discovery rules. The book and the companion Web Course introduce each discovery topic briefly and then provide a context and structure for exercises and self-study. Skills & Values: Discovery Practice can be used by a professor teaching a full pre-trial course, or one focused just on discovery law. It can be

used alone or in conjunction with another pre-trial text. It can be used with the problem set provided in the appendix and in the Web Course or with a professor's own problem set. It also can be used in a mentorship program in a civil litigation law firm. Each chapter of the book offers an introduction to the key aspects of discovery and then offers exercises that focus on the governing Federal Rule of Civil Procedure (FRCP). The chapters are organized in the order that the discovery rules are most commonly used. The exercises at the end of each chapter ask the student to put the governing rules into action by actually drafting the discovery documents described in the preceding chapter. The book covers the following topics: • Planning for Discovery • Initial Disclosure • Interrogatories and Answers to Interrogatories • Document Requests and Answers to Document Requests • eDiscovery • Motion to Compel Production • Expert Witness Disclosure • Depositions of Fact and Expert Witnesses • Requests for Admission and Answers to Requests for Admission • Motion in limine • Settlement The eBook versions of this title feature links to Lexis Advance for further legal research options.

This comprehensive Companion is a unique guide to the Hague Conference on Private International Law (HCCH). Written by international experts who have all directly or indirectly contributed to the work of the HCCH, this Companion is a critical assessment of, and reflection on, past and possible future contributions of the HCCH to the further development and unification of private international law.

"While the Christian Right has long voiced grave concerns about the Supreme Court and cases such as *Roe v Wade*, until recently its cultivation of the resources needed to effectively enter the courtroom had paled in comparison to its efforts in more traditional political arenas. A small constellation of high-profile leaders within the Christian Right began to address this imbalance in earnest in the pivot from the 20th to the 21st century, investing in an array of institutions aimed at radically transforming American law and legal culture. *Separate but Faithful* is the first in-depth examination of these efforts - their causes, contours and consequences. Drawing on an impressive amount of original data from a variety of sources, the book examines the conditions that gave rise to a set of

distinctly "Christian Worldview" law schools and legal institutions. Further, the book analyses their institutional missions and cultural makeup and evaluates their transformative impacts on law and legal culture to date. *Separate But Faithful* finds that this movement, while struggling to influence the legal and political mainstream, has succeeded in establishing a resilient Christian conservative beacon of resistance; a separate but faithful space from which to incrementally challenge the dominant legal culture by training and credentialing, in the words of Jerry Falwell, "a generation of Christian attorneys who could...infiltrate the legal profession with a strong commitment to the Judeo-Christian ethic."--

The book provides an overview of how international law is today

constructed through diverse macro and microprocesses that expand its traditional subjects and sources, with the attribution of sovereign capacity and power to the international plane (moving the international toward the national). Simultaneously, national laws approximate laws of other nations (moving among nations or moving the national toward the international) and new sources of legal norms emerge, independent of states and international organisations. This expansion occurs in many subject areas, with specific structures: commercial, environmental, human rights, humanitarian, financial, criminal and labor law contribute to the formation of post national law with different modes of functioning, different actors and different sources of law that should be understood as a new complexity of law. Crimmigration Law is a must-read for law students and practitioners seeking an introduction to the complex legal doctrine and practice challenges at the merger of immigration and criminal law.

By the beginning of 1964 public debate about the terms on which French and English culture could continue to co-exist within a single Canadian federal state had become intense. Many causes could be assigned for the intensity of the debate, but one of them evidently was the lack of clear formulation of the problems. It was in these circumstances that the Association of Canadian Law Teachers and the Canadian Political Science Association used their annual meeting at Charlottetown in 1964 to get, on each of four aspects of the current problem of Canadian federalism, a vigorously reasoned statement, by a French-Canadian and an English-Canadian scholar, of the essentials of the problem as he saw it and then, by way of invited commentaries, to bring the ideas more fully into play. The four aspects were: competing concepts of federalism, economic problems peculiar to our federal state, legal and political attitudes towards the BNA Act, and institutional problems of a revision of the Act.

The International Tribunal for the Law of the Sea is an autonomous judicial body established by the United Nations Convention on the Law of the Sea to adjudicate disputes arising out of the interpretation and application of the Convention. The Tribunal is open to States Parties to the Convention. It is also open to entities other than States

Parties (States and international organizations non-parties to the Convention and natural or juridical persons) in cases provided for in the Convention or other agreements conferring jurisdiction on the Tribunal.

In this meticulously researched volume, Leonard Wood presents his ground breaking history of Islamic revivalist thought in Islamic law. Islamic Legal Revival: Reception of European Law and Transformations in Islamic Legal Thought in Egypt, 1879-1952 brings to life the tumultuous history of colonial interventions in Islamic legal consciousness during the nineteenth and early twentieth centuries. It tells the story of the rapid displacement of local Egyptian and Islamic law by transplanted European codes and details the evolution of resultant movements to revive Islamic law. Islamic legal revivalist movements strove to develop a modern version of Islamic law that could be codified and would replace newly imposed European laws. Wood explains in unparalleled depth and with nuance how cutting-edge trends in European legal scholarship inspired influential revivalists and informed their methods in legal thought. Timely and provocative, Islamic Legal Revival tells of the rich achievements of legal experts in Egypt who

disrupted tradition in Islamic jurisprudence and created new approaches to Islamic law that were distinctively responsive to demands of the contemporary world. The story told bears important implications for understandings of Egyptian history, Islamic legal history, comparative law, and deeply contested and highly transformative interactions between European and Islamic thought.

Principles of the Common Law

A critical history of the Americanization of legal education in fourteen countries The second half of the twentieth century witnessed the export of American power—both hard and soft—throughout the world. What role did US cultural and economic imperialism play in legal education? American Legal

Education Abroad offers an unprecedented and surprising picture of the history of legal education in fourteen countries beyond the United States. Each study in this book represents a critical history of the Americanization of legal education, reexamining prevailing narratives of exportation, transplantation, and imperialism. Collectively, these studies challenge the conventional wisdom that American ideas and practices have dominated globally. Editors Susan Bartie and David Sandomierski and their contributors suggest that to understand legal education and to respond thoughtfully to the mounting present-day challenges, it is essential to look beyond a particular region and consider not only the ideas behind legal education but also the broader historical, political, and cultural factors that have shaped them. American Legal Education Abroad begins with an important foundational history by leading Harvard Law School historian Bruce Kimball, who explains the factors that created a transportable American legal model, and the book concludes

with reflections from two prominent American law professors, Susan Carle and Bob Gordon, whose observations on recent disruptions within US law schools suggest that their influence within the global order of legal education may soon fall into further decline. This book should be considered an invaluable resource for anyone in the field of law.
