At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery

And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

Northern Maine and within a community that kept an ever-vigilant watch over the words and actions of its children, this quest for enlightenment did not start easily. Led by fear, my parents imposed restrictions on their offspring according to their own blind acceptance of whatever words came out of the priests' mouth. Born with a strong will and a propensity to rebel, I was pressured by my religious parents to choose the convent. Strangely enough, becoming a nun was the only way I could have come to the freedom that I craved. Had I opted to stay in the world and marry, I would never have had the deep realizations I awoke to through the wonderful retreats and experiences I enjoyed. Upon returning into the

at all. They're just too busy, and it's too hard to change. But what if managers could coach their people in 10 minutes or less? In Michael Bungay Stanier's *The Coaching Habit*, coaching becomes a regular, informal part of your day so managers and their teams can work less hard and have more impact. Coaching is an art and it's far easier said than done. It takes courage to ask a question rather than offer up advice, provide an answer, or unleash a solution. Giving another person the opportunity to find their own way, make their own mistakes, and create their own wisdom is both brave and vulnerable. It can also mean unlearning our "fix it" habits. In this practical and inspiring book, Michael shares seven transformative questions that can make a difference in how we lead and support. And, he guides us through the tricky

gives you a glimpse of where it all might lead. It begins with some original blues compositions, much in the spirit of his monumental Country Blues Guitar Series, then goes on to deal with the art of adapting fiddle tunes and classic piano rags to the guitar. It introduces you to a whole new range of tunings and chord positions, which are simply not to be found in any ordinary guitar instruction book. Songs and compositions by such outstanding modern guitarists as Dave Laibman, Eric Schoenberg, Eric Kaz, Marc Silber, and others make this book unique among today's guitar guides. Stefan Grossman is the author of numerous books on the blues guitar, including Country Blues Guitar, Delta Blues Guitar, and Ragtime Blues Guitarists, all published by Oak. He is also a guitarist's guitarist, veteran of concerts, personal appearances, and recording sessions in the U.S. and beyond.
