

Forming Questions In English

Offers a lively and accessible guide through past and present debates about the English curriculum which will appeal to students and practising teachers.

We may all speak the same language, but getting to grips with grammar is the ultimate challenge. You could be puzzled by prepositions, confused by comparatives, or muddled over modals. Thankfully, this complete visual aid to everything in the English language sets you straight with a clear and concise format for easy understanding. The rules of English grammar are beautifully presented with eye-catching illustrations, step-by-step graphics, and straightforward explanations to help you learn. Suitable for English language learners at all levels, including experienced English speakers looking for a recap of key language points, English For Everyone: English Grammar Guide covers basic, intermediate, and advanced grammar. There is no stone left unturned when it comes to the English language. All kinds of problems are solved, including tenses, verbs, adverbs, clauses, superlatives, and questions. You are encouraged to spot patterns and sequences in language to see the similarities and develop greater understanding. After an intensive review, test yourself with a range of speaking, reading, and writing exercises to see how far you have come. This essential grammar e-guide is part of DK's English for Everyone series, an exciting and educational self-study course to build up confidence and fluency. Whether you want to improve your grammar for school, study, exams (including TOEFL and IELTS), work, or travel, this is the perfect reading companion. Series Overview: English for Everyone series teaches all levels of English, from beginner to advanced, to speakers of English as a second language. Innovative visual learning methods introduce key language skills, grammar, and vocabulary, which are reinforced with a variety of speaking, reading, and writing exercises to make the English language easier to understand and learn. Visit www.dk.com to find out more.

Uses vocabulary words in context to test verbal aptitude and prepare students for PSAT, SAT, and GRE, professional and civil service qualifying exams. Focuses on the sentence completion question by offering practice in finding words in context. Each question contains a sentence with a fill-in-the-blank space. Correct answers are fully explained using their definitions, to reinforce skills. Topics include sentence structure mechanics (subject-verb agreement, modifiers -- adjectives, adverbs, etc.), paragraph structural development, and essay questions formatting.

Get the last word on English grammar Grasping the intricacies of the English language doesn't need to be tricky, and this down-to-earth guide breaks everything down in ways that make sense-Revealing rules, tips, and tricks to eliminate confusion and gain clarity, English Grammar For Dummies gives you everything you need to communicate with confidence! Smart Thesaurus helps you choose the right word * QUICKFind looks up words for you while you are UNIQUE! SUPERWrite gives on screen help with grammar, spelling and collocation when you are writing * Hundreds of interactive exercises*

The present volume, which is the 5th in the Nigerian Linguists Festschrift Series, is devoted to Professor Munzali A. Jibril, a celebrated icon in university administration, and an erudite Professor of English Linguistics. The title of this special edition was specifically chosen to crown Professor Jibril's academic prowess in both English and indigenous Nigerian languages, from active university lecturership. 72 assessed papers are included from the many submitted. Papers cover the main theme of the volume, i.e. the interaction between English and indigenous Nigerian languages, and there are a number of papers on other secular areas of linguistics such as: language and history, language planning and policy, language documentation, translation, gender studies, language acquisition, language teaching and learning, pragmatics, discourse and conversational analysis, and literature in English and African languages. There is also a rich section devoted to the major 'traditional' fields of linguistics - phonology, morphology, syntax and semantics.

Applying Linguistics in the Classroom

A Guide to Curriculum Planning in English Language Arts With 125 Exercises + Free Flashcard App

*The first book-length treatment of its type, Ultimate Attainment in Second Language Acquisition is a case study with a solid theoretical grounding that examines the language of an immigrant learner of English, and thereby presents a much needed understanding of the linguistic competence of second language speakers. Based on longitudinal data collected over a period of 16 years, this clear and accessible presentation is well-grounded in linguistic theory and in second language acquisition research issues. Author Donna Lardiere presents the narrative of Patty, an adult Chinese immigrant learner of English, who achieves native-like proficiency in some areas of her English idiolect, although reaches a plateau in her language acquisition, known as the concept of fossilization. By addressing this concept, a central idea in second language acquisition research, Lardiere fills a void in existing literature. Individual chapters focus on Patty's end state knowledge of grammatical areas of finiteness, past-tense marking, word order, wh-movement and relativization, passivization, number marking, and use of determiners. Important topics discussed throughout the book include: *Learner variability in production; *case study methodology; *the roles of motivation and prior language (L1) knowledge; and *sensitivity to input in circumscribing ultimate attainment in adult second language acquisition. Ultimate Attainment in Second Language Acquisition is intended for anyone whose research is in the areas of second language acquisition, language acquisition, theoretical, applied, or developmental linguistics. It is also appropriate for graduate level students of TESOL and teachers who work with more advanced learners of foreign languages.*

The bestselling workbook and grammar guide, revised and updated! Hailed as one of the best books around for teaching grammar, The Blue Book of Grammar and Punctuation includes easy-to-understand rules, abundant examples, dozens of reproducible quizzes, and pre- and post-tests to help teach grammar to middle and high schoolers, college students, ESL students, homeschoolers, and more. This concise, entertaining workbook makes learning English grammar and usage simple and fun. This updated 12th edition reflects the latest updates to English usage and grammar, and includes answers to all reproducible quizzes to facilitate self-assessment and learning. Clear and concise, with easy-to-follow explanations, offering "just the facts" on English grammar, punctuation, and usage Fully updated to reflect the latest rules, along with even more quizzes and pre- and post-tests to help teach grammar Ideal for students from seventh grade through adulthood in the US and abroad For anyone who wants to understand the major rules and subtle guidelines of English grammar and usage, The Blue Book of Grammar and Punctuation offers comprehensive, straightforward instruction.

Situated at the crossroads of dialectology, sociolinguistics and contact linguistics, this volume provides a first comprehensive description of the morphosyntactic inventory of the variety of English spoken on Jersey, the largest of the Channel Islands. Based on a specially compiled corpus of spoken material containing both present-day sociolinguistic and archive data, it thereby reveals an intricate network of variation and change in this language-shift variety. The study adopts a cross-varietal approach for its analyses, which enables a first more systematic comparison between the Englishes spoken on Jersey, on its sister island Guernsey and beyond. In addition, it discusses the implications of identity aspects for language use in Jersey. The book will therefore be of major interest to any researcher or student working in the areas of language variation and change, language contact or dialectology and to those interested in sociolinguistic methodology and the relationships between language and identity.

This comprehensive and accessible student workbook accompanies the fifth edition of Albert C. Baugh and Thomas Cable's History of the English Language. Each chapter in the workbook corresponds directly to a chapter in the textbook and offers exercises, review questions, extensive supplementary examples, additional explanations and a range of sample extracts taken from texts of different periods. An additional 'pre-chapter' on the sounds of English also provides phonetic information and exercises that will prove useful throughout the book. This third edition has been revised alongside the textbook and includes new exercises to accompany the sections on Gender Issues and Linguistic Change, and African American Vernacular English. This workbook is an invaluable companion for all History of English Language courses.

Communication Approach in English Through the Internet carefully prepares students to read university-level texts. It teaches students the strategies and the vocabulary-building skills to help them grow in confidence and progress to higher levels of linguistic proficiency. The exercises will help students develop their four basic academic skills and express themselves in a mature and appropriate way that is relevant to the context, whether it be a report, conversation or other form of discourse. Each unit plan provides, step-by-step, a variety of lively exercises for brainstorming ideas and planning a structure that can be used directly from the book or as a springboard for innovative Internet resources. The author emphasizes active learning and addresses the needs of EFL students. This is the perfect coursebook for weaving the excitement and usefulness of the Internet into your daily English communication. Features • A skills and strategies sections that teach essential linguistic skills • Tasks that encourage students to interact with the text and practice using internet resources • Activities that take students "beyond the classroom," and can be used for discussion and communication

Cambridge Advanced Learner's Dictionary KLETT VERSIONCambridge University Press This monograph offers a comprehensive account of the L1-acquisition and use of yes-no questions in English from a usage-based, construction grammar perspective. On the basis of the BNC and a high-density, longitudinal CHILDES corpus, the book explores two issues which have largely been neglected in previous research: 1. the prevalence of non-canonical questions (such as elliptical and declarative questions) in adult-to-adult as well as child(-directed) speech and the L1-acquisition of these structures. 2. The discourse-functional properties of both canonical and non-canonical yes-no questions, especially with regard to their influence on the acquisition process.

Do you want to learn Japanese the fast, fun and easy way? And do you want to master daily conversations and speak like a native? Then this is the book for you. English for Everyone: English Grammar Guide Cambridge Advanced Learner's Dictionary KLETT VERSION

This book documents the lesser-known varieties of English which have been overlooked and understudied within the canon of English linguistics.

Making linguistics accessible and relevant to all teachers, this text looks at language issues in the classroom through an applied sociocultural perspective focused on how language functions in society and in schools—how it is used, for what purposes, and how teachers can understand their students' language practices. While touching on the key structural aspects of language (phonetics, phonology, morphology, and syntax), it does not simply give an overview, but rather provides a way to study and talk about language. Each chapter includes practical steps and suggests tools for applying different kinds of linguistic knowledge in classrooms. The activities and exercises are adaptable to elementary or high school settings. Many examples focus on the intersection of math, science, and language. Teacher case studies show how real teachers have used these concepts to inform teaching practices. Given the increasing use of multimedia resources in today's schools, multiple mediums are integrated to engage educators in learning about language. The Companion Website provides a multitude of relevant resources that illustrate the diversity of language functions and debates about language in society.

This volume is about the Anglophone creoles to be found on the Caribbean coast of Central America (Belize, Honduras, Nicaragua, Costa Rica, Panama), and its offshore islands (Providencia, San Andres and the Caymans). The study of these Anglophone varieties is comparatively recent and based on current field work from Belize to Panama. One of the interesting features that emerges is the tentative map of diachronic and synchronic relationships among the Anglophone creoles of the Caribbean, as illustrated partly by the lexicon and partly by grammatical constructions. The studies in this book are based on phonetic transcriptions of speech acts in their social and linguistic context."

This work offers a fresh approach to grammar, arguing that a speaker "codes" a meaning into grammatical forms in order to communicate them to a hearer. Investigating the interrelation of grammar and meaning, Dixon uncovers a rationale for the varying grammatical properties of different words. He offers a review of some of the main points of English syntax, as well as a discussion of English verbs in terms of semantic types. Finally, he examines five specific grammatical topics: complement clauses in detail; complement clauses, transitivity and causatives; passive construction; promotion of a non-subject to subject slot; and the relation between verb constructions.

Test your overall comprehension with a review section

Is today's language at an all-time low? Are pronunciations like coffee and chawklit bad English? Is slang like my bad or hook up improper? Is it incorrect to mix English and Spanish, as in Yo quiero Taco Bell? Can you write Who do you trust? rather than Whom do you trust? Linguist Edwin Battistella takes a hard look at traditional notions of bad language, arguing that they are often based in sterile correctness. Examining grammar and style, cursing, slang, and political correctness, regional and ethnic dialects, and foreign accents and language mixing, Battistella discusses the strong feelings evoked by language variation, from objections to the pronunciation Mi-cu-lar to complaints about bilingual education. He explains the natural desire for uniformity in writing and speaking and traces the association of mainstream norms to ideas about refinement, intelligence, education, character, national unity and political values. Battistella argues that none of these qualities is inherently connected to language. It is tempting but wrong, Battistella argues, to think of slang, dialects and nonstandard grammar as simply breaking the rules of good English. Instead, we should view language as made up of alternative forms of orderliness adopted by speakers depending on their purpose. Thus we can study the structure and context of nonstandard language in order to illuminate and enrich traditional forms of language, and make policy decisions based on an informed engagement. Re-examining longstanding and heated debates, Bad Language will appeal to a wide spectrum of readers engaged and interested in the debate over what constitutes proper language.

Question forming quiz book for foreign language students of the English language There are ten exercises each with ten answers to possible questions making a total of 100 questions to be formed according to the given answers. Are Some Words Better Than Others? This volume is about the Anglophone creoles to be found on the Caribbean coast of Central America (Belize, Honduras, Nicaragua, Costa Rica, Panama), and its offshore islands (Providencia, San Andrés and the Caymans) . The study of these Anglophone varieties is comparatively recent and based on current field work from Belize to Panama. One of the interesting features that emerges is the tentative map of diachronic and synchronic relationships among the Anglophone creoles of the Caribbean, as illustrated partly by the lexicon and partly by grammatical constructions. The studies in this book are based on phonetic transcriptions of speech acts in their social and linguistic context.

This basic introduction to Old English is an essential guide for students with little or no linguistic knowledge. Unlike other textbooks on the subject, Beginning Old English focuses on the explanation and demonstration of how the language works, using accessible illustrations from simplified Old English texts and showing how many features of present-day English have their roots in this stage of the language. Beginning Old English - builds up reading skills by using simple texts to support the acquisition of key vocabulary and to develop awareness of language structure - offers an introduction to the conventions of Old English poetry and how they are realised across different genres: religious verse, riddles, elegies and heroic poetry - explores issues in the translation of Old English verse - guides the reader through four major texts: Cynewulf and Cyneheard, Beowulf (extract), The Battle of Maldon and The Dream of the Rood - features activities, glossaries, illustrations and a Further Reading section. Concise and approachable, this invaluable text will appeal to anyone with an interest in early history of English language and literature. This is a simple introduction to Old English for students with little linguistic knowledge. Unlike other textbooks, Beginning Old English focuses on the explanation of how the language works, using accessible illustrations from Old English texts and showing how features of present-day English have their roots in this stage of the language. Assumes no previous linguistic knowledge Second edition updated and revised to take advantage of the availability of digital and online resources, such as the Electronic Beowulf and Learning with the Online Thesaurus of Old English A new chapter, Introducing Old English Prose, added to Part I, complements the existing chapter on Introducing Old English Poetry by analysing the extent to which different prose genres draw on the techniques of poetry Two new texts, The Ruin and Ælfric's Life of St Æthelthryth, have been added to Part II, which provides graded readings from simplified texts to canonical works in Old English (contains long extracts from Beowulf, Cynewulf and Cyneheard, The Battle of Maldon and The Dream of the Rood)

Activate Your English is a short course for adults. If you are new to linguistics as a subject and beginning a course at undergraduate or sixth-form level, How to Study Linguistics is the ideal introduction and companion to your studies. - Covers all the core areas of linguistic study, with chapters discussing strategies for studying phonology, syntax and semantics. - Explores other branches of linguistics such as sociolinguistics, stylistics, and psycholinguistics. - Includes a chapter on writing linguistics essays and a detailed glossary to aid learning and revision. - Second edition includes new material designed to help the more advanced reader. How to Study Linguistics is both a guide to current ideas about linguistics and a refreshingly practical text book. It will not only develop your skills as a language student, but will also make an often complex and daunting subject easy to understand, and a pleasure to study.
