Freak the Mighty - Literature Kit Gr. 5-6

Steven Levitt and Stephen Dubner single-handedly showed the world that applying counter-intuitive approaches to everyday problems can bear surprising results. Think Like a Freak will take readers further inside this special thought process, revealing a new way of approaching the decisions we make, the plans we create and the morals we choose. It answers the question on the lips of everyone who's read the previous books: How can I apply these ideas to my life? How do I make smarter, harder and better decisions? How can I truly think like a freak? With short, highly entertaining insights running the gamut from "The Upside of Quitting" to "How to Succeed with No Talent," Think Like a Freak is poised to radically alter the way we think about all aspects of life on this planet.

Can I get a "ramen" from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today's fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM's devout followers, a.k.a. Pastafarians? Some say it's the assuring touch from the FSM's "noodly appendage." Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church's flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution ("only a theory"), science ("only a lot of theories"), and whether we're really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: "If Intelligent Design is taught

in schools, equal time should be given to the FSM theory and the non-FSM theory.” –Professor Douglas Shaw, Ph.D. “Do not be hypocritical. Allow equal time for other alternative ‘theories’ like FSMism, which is by far the tastier choice.” –J. Simon, Ph.D. “In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory.” –Afshin Beheshti, Ph.D. Read the book and decide for yourself!

*No! There are, however, a few important lessons verified influencers (those with the blue ticks and paying clients) have learnt through trial and error. As traditional media keeps losing eyeballs and revenue to digital and indeed social media, this content revolution presents unprecedented opportunities for those who know how to make the most of their interests and smartphones. In 2019, Elma Smit was hand-picked by two global governing bodies as the face of their World Cup content campaigns, in the space of only six months. Yet, she generated more revenue from influencer work in that same period than from anything else. In *Become an Influencer*, one of South Africa's leading content creators and influencers spills the beans on how to build a loyal audience, how to charge for paid campaigns and how to avoid running into a social media meltdown. Maps Maponyane, Rachel Kolisi, Nadia Jaftha and Liesl Laurie and a whole host of other leading influencers also reveal their influencer secrets, tips and hard-won lessons to Elma, while leading strategists who select influencers for global and local campaigns share what they look for in an influencer.*
