The Quran, literally meaning "the recitation," also romanised (Koran) is the central religious text of Islam, which Muslims believe to be a revelation from God (Arabic: Allah). It is widely regarded as the finest piece of literature in the Arabic language. Muslims consider the Quran to be the only book that has been protected by God from distortion or corruption. Quranic chapters are called suras and verses are called ayahs. Muslims believe that the Quran was verbally revealed from God to Muhammad through the angel Gabriel (Jibril), gradually over a period of approximately 23 years, beginning on 22 December 609 CE, when Muhammad (Peace be upon Him) was 40, and concluding in 632 CE, the year of his death. Shortly after Muhammad's death, the Quran was collected by his companions using written Quranic materials and everything that had been memorized of the Quran. Muslims regard the Quran as the most important miracle of Muhammad, the proof of his prophet hood and the culmination of a series of divine messages that started with the messages revealed to Adam and ended with Muhammad. The Quran assumes familiarity with major narratives recounted in the Jewish and Christian scriptures. It summarizes some, dwells at length on others and, in some cases, presents alternative accounts and interpretations of events. The Quran describes itself as a book of guidance. It sometimes offers detailed accounts of specific historical events, and it often emphasizes the moral significance of an event over its narrative sequence. The Quran is used along with the hadith to interpret sharia law. During prayers, the Quran is recited only in Arabic. Someone who has memorized the entire Quran is called a hafiz. Some Muslims read Quranic ayahs (verses) with elocution, which is often called tajweed. During the month of Ramadan, Muslims typically complete the recitation of the whole Quran during tarawih prayers. Inimitability of the Quran (or "I'jaz") is the belief that no human speech can match the Quran in its content and form. The Quran is considered an inimitable miracle by Muslims, effective until the Day of Resurrection-and, thereby, the central proof granted to Muhammad in authentication of his prophetic status. The concept of inimitability originates in the Quran where in five different verses challenges opponents to produce something like the Quran: "If men and sprites banded together to produce the like of this Quran they would never produce its like not though they backed one another" (17:88). So the suggestion is that if there are doubts concerning the divine authorship of the Quran come forward and create something like it. From the ninth century, numerous works appeared which studied the Quran and examined its style and content. Medieval Muslim scholars including al-Jurjani (d. 1078CE) and al-Baqillani (d. 1013CE) have written treatises on the subject, discussed its various aspects, and used linguistic approaches to study the Quran. Others argue that the Quran contains noble ideas, has inner meanings, maintained its freshness through the ages and has caused great transformations in individual level and in the history. Some scholars state that the Quran contains scientific information that agrees with modern science. The doctrine of miraculousness of the Quran is further emphasized by Muhammad's illiteracy since the unlettered prophet could not have been suspected of composing the Quran.

English Translation - Clear and Easy to Read. The Quran was revealed in Arabic, to Prophet Muhammad (peace be upon him) over a period of twenty-three years. It is composed in a style so unique, that it cannot be deemed either poetry or prose, but somehow a mixture of both. The Quran is inimitable; it cannot be simulated or copied, and God Almighty challenges mankind to pursue such an endeavor if he thinks he can.

What You Should Know about Islam's Holy Book How is it like the Bible? How is it different? Why is it important? Muslims believe the Koran exists as a literal book in heaven and was dictated to the prophet Muhammad by the angel Gabriel. It is only the length of the New Testament, yet a fifth of the world claims it is the complete revelation of God. To most Americans, though, the Koran remains a mystery. Did you know that the Koran teaches the virgin birth and miracle-filled, prophetic ministry of Jesus? Claims to fully embrace his teachings? Reveres Abraham, Moses, Jonah, and other biblical prophets? Find out how the Koran resembles the Bible—and the drastic ways in which it differs. Understanding the Koran gives you a fascinating essential grasp of Islam's holy book: where it came from, what it teaches, how Muslims view it, and how the Allah of the Koran compares with the God of the Bible. Cherished as the final, perfect revelation of God's will by 1.2 billion Muslims worldwide, the Koran has become a part of American life. Today, those who read and memorize it may work in your town, shop where you shop, or send their children to the same school your kids attend. What do you know about the holy book that shapes the lives and eternal destinies of your neighbors and a fifth of the world's population? While some similarities exist between the Koran and the Bible, the differences are striking. Written by a pastor who was born to a Muslim father and raised in Saudi Arabia, Understanding the Koran gives you a fascinating, easy-to-understand overview that will show you:

- Why the background behind the Koran is important
- How the Koran came into existence
- A summary of the main teachings of the Koran, including what it says about Jesus and the crucifixion
- Similarities and differences between Muslim and Christian views of God
- What the Koran teaches about Jihad and holy war
- What the Koran teaches about heaven and hell

More than furnishing you with an essential grasp of Islam's holy book, Understanding the Koran points you to the one thing that can draw your Muslim friends to Jesus—his love, demonstrated to them through you. Discussion questions enable you to use this book in group studies

"While the Hebrew Bible and the New Testament are understood to be related texts, the sacred scripture of Islam, the third Abrahamic faith, has generally been considered separately. Noted religious scholar Gabriel Said Reynolds draws on centuries of Qur'anic and Biblical studies to offer rigorous and revelatory commentary on how these holy books are intrinsically connected."--Dust jacket.

The five principles, namely the Quran; Hadith; Ijma; Kiyas and common sense makes and stabilizes the whole of Islam. I have observed that the writings and commentaries of a few who are ignorant or are not fully versed in the knowledge of the Quran and Hadith are taken as the root by a few, who by their writings, commentaries and orations are propagating ideas that are a distortion of and in complete variance with the religion of Islam and thus create "Bid'ah" amongst the public. To those who seek genuine and authentic ideas of the Quran and Hadith, these expositions have become stumbling blocks. Therefore, I seek to expostulate the basic facts and ideas with supporting evidences that constitute Islam that I gained by years of painstaking and difficult research. The style of writing in this book is much against the traditions and style adopted in normal book writing. It is not divided into chapters but mere orations; some ideas are repeated several times and that too in many different angles. I, therefore seek your indulgence and patience to read and understand and do not come to conclusions by just going through parts of the book. The contractual obligations between you the reader and me is that if you are a Mumin who fully believes in Allah and Rasool (Quran and Hadith) then study this book, if not do not lay hands on this book.

'The Holy Qur'an Made Easy for Kids: Volume 1, Surah 1-10' are here to help you and your child (5+ years) on the journey of understanding the holy Qur'an together, as well as to assist in the progression of understanding Islam. These collection of books are not a translation but an adaptation of the holy Quran which has been approved by scholars.

This book presents a new study of one of the major themes of the Qur'an. The theme of Qur'anic pictures of the universe treated here pertains to as yet a little explored facet of Islamic cosmology. Through this particular thematic study of the Qur'an the author has made a significant contribution to the contemporary understanding of the scriptural foundation of Islamic cosmology and the present discourse on epistemology of scientific exegesis (tafsir 'ilmy) of the Qur'an. The book offers many new insights that will prove particularly helpful to those interested in deepening their understanding of Qur'anic perspectives on cosmology, the natural sciences, and religion and science. It is clear in every page of this brilliant work that it was written from a heartfelt perspective. A must read for every student of life, love, spirituality, and of course the Quran."--Whitney Cannon, founder Taleef Collective, Fremont, California.

Over the course of centuries, Islam has undergone a process of sub-categorization into numerous denominations. As such, nearly all translators have belonged to one school of thought or another, allowing the influence of such denomination(s) to come across in their interpretation of specific words or verses, and how they chose to translate them. The Great Qur'an: An English Translation, is an attempt to be free from the influences of sectarianism, delivering to the reader a rendition as close to the pure message of the Qur'an as possible. The Message: A Translation of the Glorious Qur'an is the result of a group effort by people who do not belong to any denomination and are simply proud to call themselves 'Muslims,' submitting to God alone. The Message: A Translation of the Glorious Qur'an is unique in the fact that it uses neither footnotes nor author comments, letting the text speak for itself.

Fourteen centuries of Islamic thought have produced a legacy of interpretive readings of the Qu'ran written almost entirely by men. Now, with Qu'ran and Woman, Amina Wadud provides a first interpretive reading by a woman, a reading which validates the female voice in the Qu'ran and brings it out of the shadows. Muslim progressives have long argued that it is not the religion but patriarchal interpretation and implementation of the Qu'ran that have kept women oppressed. For many, the way to reform is the reexamination and reinterpretation of religious texts. Qu'ran and Woman contributes a gender inclusive reading to one of the most fundamental disciplines in Islamic thought, Qu'ranic exegesis. Wadud breaks down specific texts and key words which have been used to limit women's public and private role, even to justify violence toward Muslim women, revealing that their original meaning and context defy such interpretations. What her analysis clarifies is the lack of gender bias, precedence, or prejudice in the essential language of the Qur'an. Despite much Qu'ranic evidence about the significance of women, gender reform in Muslim society has been stubbornly resisted. Wadud's reading of the Qu'ran confirms women's equality and constitutes legitimate grounds for contesting the unequal treatment that women have experienced historically and continue to experience legally in Muslim communities. The Qu'ran does not prescribe one timeless and unchanging social structure for men and women, Wadud argues lucidly, affirming that the Qu'ran holds greater possibilities for guiding human society to a more fulfilling and productive mutual collaboration between men and women than as yet attained by Muslims or non-Muslims.

The great diversity of ethnicities and languages in Africa encourages a vision of Africa as a fragmented continent, with language maps only perpetuating this vision by drawing discrete language groups. In reality, however, most people can communicate with most others within and across linguistic boundaries, even if not in languages taught or learned in schools. Many disciplines have looked carefully at language movement and change on the continent, but their lack of interaction has prevented the emergence of a cohesive picture of African languages. Tracing Language Movement in Africa gathers eighteen scholars together to offer a truly multidisciplinary representation of language in Africa, combining insights from history, archaeology, religion, linguistics, political science, and philosophy. The resulting volume illuminates commonalities and distinctions in these disciplines' understanding of language change and movement in Africa. The volume is empirical -- aiming to represent language more accurately on the continent -- as well as theoretical. It identifies the theories that each discipline uses to make sense of language movement in Africa in plain terms and highlights the themes that cut across all disciplines: how scholars use data, understand boundaries, represent change, and conceptualize power. The volume is organized to reflect differing conceptions of language that arise from its discipline-specific contributions: that is, tendencies to study changes that consolidate language or those that splinter it, viewing languages as whole or in part. Each contribution includes a short explanation of a discipline's theoretical and methodological approaches to language movement and change to ensure that the chapters are accessible to non-specialists, followed by an illustrative empirical case study. This volume will inspire multidisciplinary conversations around the study of language change in Africa, opening new interdisciplinary dialogue and spurring scholars to adapt the questions, data, and method of other disciplines to the problems that animate their own fields.

“ It is impossible to understand today ' s world without knowing Pakistan; and impossible to understand Pakistan without reading this book. A courageous woman—tragically killed—speaks to us of reconciliation. We owe it to her—and to ourselves—to listen, comprehend, and act. ” — Madeleine Albright “ One of the most gripping and important books of our era. ” — Walter Isaacson Benazir Bhutto returned to Pakistan in October 2007, after eight years of exile, hopeful that she could be a catalyst for change. Upon a tumultuous reception, she survived a suicide-bomb attack that killed nearly two hundred of her compatriots. But she continued to forge ahead, with more courage and conviction than ever, since she knew that time was running out—for the future of her nation and for her life. In Reconciliation, Bhutto recounts in gripping detail her final months in Pakistan and offers a bold new agenda for how to stem the tide of Islamic radicalism and to rediscover the values of tolerance and justice that lie at the heart of her religion. She speaks out not just to the West but also to the Muslims across the globe. Bhutto presents an image of modern Islam that defies the negative caricatures often seen in the West. After reading this book, it will become even clearer what the world has lost by her assassination

In this timely book Andrew Mumford sheds new light on the dynamics and lineage of proxy warfare from the Cold War to the War on Terror, whilst developing a cogent conceptual framework to explain their appeal. Tracing the political and strategic development of proxy wars throughout the last century, they emerge as a dominant characteristic of contemporary conflict. The book ably shows how proxy interventions often prolong existing conflicts given the perpetuity of arms, money and sometimes proxy fighters sponsored by third party donors. Furthermore, it emphasizes why, given the direction of the War on Terror, the rise of China as a global power, and the prominence now achieved by non-state actors in the 'Arab Spring', the phenomenon of proxy warfare is increasingly relevant to understandings of contemporary security. Proxy Warfare is an indispensable guide for students and scholars interested in the evolution and potential future direction of war and conflict in the modern world.**

**Book Of Allah ( AL QURAN AL KARIM or The Holy Quran ) The Quran ( Arabic قرآن مجيد, al-Qur'ān, "the recitation" ) is the sacred text of Islam . For Muslims, it takes verbatim the word of God ( Allah ). This book is to this day the first and oldest authentic literary document known in Arabic; Muslim tradition presents it as the first work in Arabic, with the specific character of inimitability in beauty and in ideas. For Muslims, the Koran groups together the words of God, revelations ( āyāt ) made to the last prophet and messenger of God Muhammad ( ﷺ, Muḥammad, "the praised") from 610-612 until his death in 632 by l ' archangel Gabriel ( جبرائيل, jibril ). The Koran is sometimes called simply al-kitāb ("the Book"), adh-dhikr ("the Reminder") or al-furqān ("the Discernment"). In this sense, it is, for Muslims, the expression of an uncreated attribute of God addressed to the intention of all humanity .**

While some religions have been based on books, claimed by their adherents to be divinely inspired, others have relied solely on human experience. Al-Qur'aan, the main source of the Islamic faith, is a book believed by Muslims, to be of completely Divine origin. Muslims also believe that it contains guidance for all mankind. Since the message of the Qur'aan is believed to be for all times, it should be relevant to every age. Does the Qur'aan pass this test? In this booklet, I intend to give an objective analysis...
