Originally published in 1999, this book was the first study to provide a systematic reconstruction of the OAU's ideological ground-work. It is based on OAU documents; a corpus of African perceptions of OAU functioning collected from governmental and non-governmental newspapers and publications from more than thirty African countries; and on interviews held with African diplomats and OAU officials. It was also the first study

to pay attention to the OAU's role in the political psychology of state elites, which comes to the fore in the areas of OAU co-operation discussed in this book: the OAU's internal functioning; the former struggle against apartheid and colonialism; conflict management; and the OAU's role in representing collective African viewpoints in global fora. This study was originally a Ph.D. thesis, which was considered to be among the best three dissertations in political science in The Netherlands in 1997.

too often seen - within the area - as a vanguard for Western purposes of regional domination. But here, Dorothe Sommer explains how freemasonry in Greater Syria at the end of the nineteenth and beginning of the twentieth century actually developed a life of its own, promoting local and regional identities. She stresses that during the rule of the Ottoman Empire, freemasonry was actually one of the first institutions in what is now Syria and Lebanon which overcame religious and sectarian divisions. Indeed, the lodges attracted more participants - such as the members of the Trad and Yaziji Family, Khaireddeen Abdulwahab, Hassan Bayhum, Alexander Barroudi and Jurji Yanni -
