This book examines the phenomenon of modern memory as a reaction to total war, an aspiration to truth-seeking provoked by the independent forces of modern war and collective violence which is transnational, or postnational, in character. Using examples from prose and poetry, film and theatre, painting and photography, and music and the popular arts, the author traces a narrative path through the events of the twentieth century, defining the tradition of modern memory in terms of its essentially anti-militaristic, anti-war character, as expressed in the manner in which it represents recalled violence and atrocity. Through a series of thematic discussions of two world wars, the Shoah, uricide and nuclear weapons, Postnational Memory explores the formation of transnational memory, drawing on examples from industrialized societies, with a focus on memory of real events and their reproduction in literature and the arts, often including personal recollections that link the self to the represented past. As such, by asking how the concept of modern memory is constructed through the victims of war and genocide, the book constitutes an alternative to national memories and hegemonic, militarist or ethnocentric histories. Surveying the emergence of new, transnational forms of remembering the past, it will appeal to students and scholars of sociology, memory studies and peace studies, as well as those working in disciplines such as modern and international history, cultural studies and military studies.

This study explores the diverse representations of sexuality, eroticism, and gender as expressed in French and Francophone literary thought – both past and present. From Françoise de Graffigny's epistolary "refusal" of eroticism – to the challenge of nineteenth-century notions of rape in the novels of Emile Zola, Victor Hugo, and Eugène Sue – to desire and eroticism as social taboo in the surrealist works of Georges Bataille and Luis Buñuel – its historical focus demonstrates that issues of sexuality, eroticism, and gender existed at the heart of France's literary tradition long before they became a staple in its universities. Taking a more contemporary view, it examines the notion of *écriture féminine* in such authors as Monique Wittig, Anne F. Garréta, Nina Bouraoui, Assia Djebar, and Luce Irigaray, and also challenges accusations of misogyny in the works of Michel Houellebecq. While glimpsing the evolution of, challenges to, and conceptions regarding sexuality, eroticism, and gender, each chapter's author focuses on language as both the obstacle and catalyst for change. For example, feminist strategies to avoid linguistic gender markers that subvert the phallogocentric paradigm, literary portrayals of rape as a means to affect French penal code, and use of the female body as language demonstrate that these notions are not only shaped by language but that language represents the key to deconstructing and redefining them. Whether picking this up to read about familiar authors such as Hugo and Djebar or discovering Graffigny and Houellebecq for the first time, each chapter promises to shed new light on its subject matter in regards to sexuality, eroticism, and/or gender.

*In French Immersion Ideologies in Canada, Sylvie Roy gives voice to people who have experiences with French immersion programs in Alberta, Canada. Using a sociolinguistics for change approach, she interprets questions related to language ideologies, as well as reasons people learn French as an additional language and why some students are asked to learn English first. She also reflects on what it means to become or to be bilingual or multilingual in a globalized world. Roy discusses teachers' and learners' linguistic and cultural practices and examines transculturality for the future. By questioning concepts that recur in participants' narratives, this book explores how power is reproduced, who is marginalized in the process, and what can be done to deconstruct ideologies about learning and teaching French in Canada and in the world. Roy demonstrates complex issues related to the French language and their consequences for*
