

Friday

No day is better than Friday! Friday is my favorite day. All week long, a boy and his father look forward to their Friday ritual—breakfast at their favorite diner. The leisurely walk through the neighborhood is just as good as the pancakes at the end. Dan Yaccarino’s bright, distinctive art style and sweet, simple story about father-son bonding make Every Friday an all-around crowd-pleaser. The weekly tradition will appeal to children who have similar routines with their parents, and kids who don’t have such a tradition will be asking their dads to start one! It’s a perfect gift book, too—just in time for Father’s Day. Every Friday is a 2007 New York Times Book Review Best Illustrated Book of the Year and a 2008 Bank Street - Best Children’s Book of the Year.

To everyone who knows him, West Ashby has always been that guy: the cocky, popular, too-handsome-for-his-own-good football god. But on the inside he’s grief-stricken - his father is dying and he hasn’t told anyone because he can’t face the truth. Now, as his pain grows unbearable, West finally decides he needs to talk to someone about his dad. So in the dark shadows of a party, he tells the one girl who doesn’t speak everything he can’t tell anyone else. West expected to feel relief, a flood of emotions - but what he didn’t expect was for Maggie Carleton to reply. For her to reveal a pain even deeper than his own. And, for them to form a connection so strong that he couldn’t ever let her go.

New Edition of the Hugo and Nebula nominated novel by one of the greatest science fiction authors of all time. "A charming protagonist in a story as sleekly engineered as a starship. This one should fly."--Publishers Weekly Friday is a secret courier and ardent lover. Employed by a man she only knows of as "Boss", she is given the most awkward and dangerous cases, which take her from New Zealand to Canada, and through the new States of America's disunion, all the way out into the stars and the new colony of Botany Bay. Thrust into one calamity after another, she uses her enhanced wits and very many skills to evade, seduce or even kill her way out of any sticky situation she finds herself in. For she is both superior and inferior to the average human. As an AP--artificial person--the best humanity has to offer has been written into Friday's DNA. Yet she is often treated like a second-class citizen--if she were ever able to claim citizenship. Her mother was the test tube and her father the knife, as the saying goes, so she has less rights than the biologically-born human, and no soul, according to the church. But in Friday Heinlein has created one of the most enlightened, warm, engaging, and humane characters in the science fiction field, giving us a novel of female empowerment that was well ahead of its time. "One of Heinlein's best, which is to say one of the best in all of Science Fiction--terrific story with a superbly realized heroine and world."--Poul Anderson

Mars was once similar to Earth, but today there are no rivers, no lakes, no oceans. Yet multiple spacecraft are circling Mars, sweeping over Terra Sabaea, Syrtis Major, the dunes of Elysium, and Mare Sirenum-- on the brink, perhaps, of a staggering find. Johnson tells the story of how she and other researchers have scoured Mars for signs of life. She interlaces her journey as a female scientist with tales of other seekers, to offer an unlikely natural history of a place where no human has ever set foot, while providing a vivid portrait of our quest to defy our isolation in the cosmos. -- adapted from jacket

Few North Carolinians are as well known or as widely respected as William Friday. Although he has never run for elected office, the former president of the University of North Carolina has been prominent in public affairs for decades and ranks as one of the most important American university presidents of the post-World War II era. His service on the White House Task Force on Education and his work with the Carnegie Commission on the Future of American Education and the Knight Commission on Intercollegiate Athletics have made him an influential figure both inside and outside the Tar Heel state. In this comprehensive biography, William Link traces Friday's long and remarkable career. Based on interviews with Friday and written with complete access to his personal files, this book places the growth and development of higher education - both in the South and in the nation as a whole - within a broader social and political context.

Monday-to-Friday Cookbook

Every Friday a father and his child share a special ritual.

Fridays of Rage reveals Al Jazeera's rise to that most respected of all Western media positions: the watchdog of democracy. Al Jazeera served as the nursery for the Arab world's democratic revolutions, promoting Friday as a "day of rage" and popular protest. This book provides a glimpse into how Al Jazeera strategically cast its journalists as martyrs in the struggle for Arab freedom while promoting itself as the mouthpiece and advocate of the Arab public. In addition to heralding a new era of Arab democracy, Al Jazeera has become a major influence over Arab perceptions of American involvement in the Arab World, the Arab-Israeli conflict, the rise of global Islamic fundamentalism, and the expansion of the political far right. Al Jazeera's blueprint for "Muslim-democracy" was part of a vision announced by the network during its earliest broadcasts. The network embarked upon a mission to reconstruct the Arab mindset and psyche. Al Jazeera introduced exiled Islamist leaders to the larger Arab public while also providing Muslim feminists a platform. The inclusion and consideration of Westerners, Israelis, Hamas, secularists and others earned the network a reputation for pluralism and inclusiveness. Al Jazeera presented a mirror to an Arab world afraid to examine itself and its democratic deficiencies. But rather than assuming that Al Jazeera is a monolithic force for positive transformation in Arab society, Fridays of Rage examines the potentially dark implications of Al Jazeera's radical re-conceptualization of media as a strategic tool or weapon. As a powerful and rapidly evolving source of global influence, Al Jazeera embodies many paradoxes-the manifestations and effects of which we are likely only now becoming apparent. Fridays of Rage guides readers through this murky territory, where journalists are martyrs, words are weapons, and facts are bullets.

Brian Mountford has chosen thirty five poems which explore the human experience of suffering and redemption, accompanied by his own thoughtful and witty commentary. The collection contains secular and sacred pieces in equal measure and came into being as part of a programme to bring a sense of seriousness, in a non prescriptive, open-ended way to the Easter holiday crowds in the University Church, Oxford, where the poems were read on Good Friday with dignity and panache by senior school children. The selection has not been augmented in any kind of attempt to provide a fully representative anthology, but kept exactly as it evolved in response to this specific need.

Forever Friday

The #1 New York Times bestseller about one woman’s doomed quest for self-improvement by a writer “blessed with the comic equivalent of perfect pitch” (The Boston Globe). As far as Erma can tell, her life is going well. Her children speak to her, her husband smiles at her, and she’s capable of looking in a mirror without screaming. But her friends know better. No matter how happy Erma thinks she is, she’s in need of help, and the only way to fulfillment is a ten-foot stack of self-improvement books. From Sensual Needlepoint to Fear of Buying, Erma will try them all. One book recommends bringing roleplay into the bedroom, so she dresses up in her son’s football pads. She tries to meditate but gets stuck in the lotus position. She spends more time in the kitchen but only succeeds in melling her son’s retainer. No matter how hard she tries to improve her family life, her schemes keep backfiring. As she soon learns, you may not always be able to fix what’s not broken—but with enough self-help books, you can break anything you want. This ebook features an illustrated biography of Erma Bombeck including rare images and never-before-seen documents from the author’s estate.

"Searching for Friday's Child" chronicles the life of a young heroic soldier, his early life, duty in the Philippine Islands, on Bataan, Corregidor, and life as a Japanese POW during World War II, as told by letters, telegrams, the words of his close friends and those of his sister, the author.

Sean S. Cunningham and Victor Miller’s Friday the 13th franchise is one of the most successful horror film franchises in history. To date, it includes twelve movies, a television show, comic books, and video games, among other media. In SEE! HEAR! CUT! KILL! Experiencing "Friday the 13th," Wickham Clayton explores several aspects of the films including how the technical aspects relate to the audience, their influence on filmmaking, and the cultural impact of the franchise. Clayton looks at how perspective is established and communicated within the Friday the 13th films, which is central to the way the audience experiences and responds emotionally to these movies. Then he considers how each sequel gives viewers, whether longtime fans or new audiences, a “way in” to the continuous story that runs through the series. Clayton also argues that the series has not developed in isolation. These films relate to contemporary slasher films, the modern horror genre, and critically successful Hollywood films in general. They reflect popular trends of film style and often act as key examples in the genre and beyond.

Rachel can't imagine why Bucky Greene, a scientist friend of her father's who's developing genetically engineered bananas, would show up at their New York City apartment in the middle of the night to leave a baby chimpanzee with them for a week -- or why they absolutely, positively can't tell anyone about it. What could possibly be "top secret" about an adorable chimp like Friday? Rachel hasn't a clue, but when Friday turns out to be really, inexplicably intelligent (Rubik's Cube's a snap) -- and Bucky Greene turns up really, inexplicably dead (he slipped on his own banana peel) -- she suspects serious monkey business afoot. And when chimp-nappers step into the picture, getting to the bottom of Friday's "top secret" before it's too late becomes a delightfully madcap mystery -- with Rachel in a riotous, nonstop race for survival of the fittest. Written by four-time Emmy-nominated writer and acclaimed humorist Hester Hundis, who raised a chimp of her own in her Manhattan apartment, this is a wonderfully funny -- and heartfelt -- novel about endangered species, corporate espionage, and going bananas in more ways than one.

SEE! HEAR! CUT! KILL!

Every Friday, a postcard. Every Friday, a love poem. Every Friday for sixty years. Adam Colby is just doing his job, sorting through the unsold Alexander belongings after the estate sale. He is unprepared for what he finds in an old photo album, overlooked by the bargain hounds and treasure hunters—six decades of postcards and poems from Gabe Alexander to his wife, Pearl. The mystery of the Alexanders’ love entices Adam, a man unhinged by divorce and puzzled by the depth of commitment that he finds in the unabashedly romantic cards. Forever Friday invites you to travel back in time to the early twentieth century Texas Coastal Bend where a young couple—Gabe and Pearl Alexander—are swept up in a miraculous love. As the heartwarming, pulse-quickening story of their relationship develops through Gabe’s poems, the Alexanders reveal a new way to consider what it means to be truly devoted to each other. Could the secrets of their love affair, laid to rest twenty years ago, hold the key to one man’s future?

Brothers offers the tale of Robinson Crusoe as a metaphor for neuroscience’s classic (and flawed) notion of the brain: a starkly isolated figure, working, praying, writing alone. But the famous castaway of literature, she notes, came from society and returned to society. So too with our brains: they have evolved a specialized capacity for exchanging signals with other brains - they are designed to be social. Perhaps most important, she connects neuroscience, psychiatry, and sociology as never before, showing how our daily interaction creates an organized social world - a network of brains that generates meaningful behavior and thought. Emotion, the sense of self - the entire spectrum of the mind -has no existence outside of a social context.

This is a world in flux, a world where magic is dying and the oldest secrets are being forgotten. Now she must embark on an epic journey in search of answers. Where is she? Why is she here? How can she return? In divorcing herself from all she knows, she uncovers something far darker than anything she could have anticipated. Few North Carolinians were as well known or as widely respected as William Friday (1920-2012). Although he never ran for elected office, the former president of the University of North Carolina was prominent in public affairs for decades and ranked as one of the most important American university presidents of the post-World War II era. In this comprehensive biography, William Link traces Friday's long and remarkable career. Friday's thirty years as president of the university, from 1956 to 1986, spanned the greatest period of growth for higher education in American history, and he played a crucial role in shaping the sixteen-campus university during that time of tumultuous social change. In the 1960s and 1970s, he confronted a series of administrative challenges, including the expansion of the university system, the evolving role of the federal government in the affairs of a public university, an intercollegiate athletics scandal, the anticommunism crusade and the Speaker Ban, and racial integration. Link also explores Friday's influential work outside the university in American higher education, on the Carnegie Commission on the Future of American Education and the White House Task Force on Education, and in the development of the National Humanities Center and the growth of Research Triangle Park. After retiring from the university, Friday headed the William R. Kenan, Jr., Fund and the Kenan Charitable Trust. He died October 12, 2012.
