

## From Passion To Execution How To Start And Grow An Effective Nonprofit Organization

Jesus was a Jew, living in a Jewish culture and under Jewish laws, laws that governed the people of Israel at a time of conflict with their Roman overlords. A Book of Evidence takes into consideration the history of first-century Jerusalem and is a unique presentation of the passion event, written from a Jewish legal standpoint. Find out why and how Jesus came to trial, how the politics of the age and a corrupt government played a role in bringing him to death. An examination of the numerous crimes of which Jesus was accused results in a reasonable explanation of the real blasphemy that caused him to be executed, and an investigation into "crucifixion" as it was known during first-century Jewish law. Was the Jewish trial legal? Was it a trial at all? Was there a Roman trial or a simple hearing? Where was the real execution site and burial tomb? All these questions are answered in this gripping book. Follow, step by step, along the path of Jesus during the Passover, from the Garden of Gethsemane, through the trials, to the brutality of the execution, and on to the garden tomb at Bethphage from which he was resurrected!

I've long believed that market need and competency must have the catalyst of passion if a company is to have a competitive advantage. Omar Khan and Paul B. Brown practice what they preach and tear into the liberation of passion with raw gusto and exhilarating energy. Reading this book gives leaders the opportunity to improve the power of their assets several-fold without a penny of capital investment. If that doesn't impassion you, nothing will. Alan Weiss, Ph.D. Author, Million Dollar Consulting Finally, a solid business book with practical advice to produce life-changing and profit-making results. Liberating passion by strengthening relationships throughout an organization has been one of the most neglected areas in business literature. But no more! As the authors state, passion IS natural and when it is liberated, outstanding results soon follow. The business world today is so thoroughly global, you need ideas and inspiration from vast global experience. Omar Khan and Sensei International are world-class in helping leaders and teams emotionally engage each other, releasing productive passion and focusing it for powerful results. If you want to upgrade your leadership and uplift your team, this is the book to show you how. Ron Kaufman Author, UP Your Service! Chairman, UP Your Service! College Omar Khan and Paul B. Brown bring clarity and focus to the issue that many businesses overlook—people. Any business without its people would cease to exist. Time and again, I have seen otherwise great leaders brought down by poor leadership development skills. Here Omar draws on his experience in engaging leaders and teams across the world and in collaboration with the ever insightful Paul Brown distills the essence of the real value behind great teams, great talent and great leadership. In an otherwise abstract genre, they bring transformative and skillfully applicable ideas straight into the executive and management suite. Sam Moon CEO, DNMstrategies Limited Managing Director, Asia Pacific, BusinessWeek Events The tools described in this timely book create powerful impact for global teams. You'll read here about fostering appropriate intimacy and emotional maturity through removing unhelpful defensiveness, about the creative capacity of dialogues conducted in a World Cafe format, of brave conversations, of creating "bold courageous steps" to bring strategy vividly to life, and to giving future-based requests to each other that simultaneously affirm and challenge our potential as leaders. I heartily recommend that you not only read about these methodologies, but then passionately apply them. You'll be very glad you did! Shonaid Jemmett-Page Global Senior Vice-President, Home and Personal Care, Finance and Information Unilever People and organizations can be dramatically transformed by authentic conversations, a true sense of common purpose and community and removing the "masks" that hide real feelings and beliefs. If the leader can show the courage to liberate the suppressed passion of his team and unleash the often hidden energy, it can deliver incredibly powerful results. It is only through genuine engagement with all stakeholders that this process can start. Removing the "passion killers" is a great beginning. I hope that reading Liberating Passion will be a catalyst for many of you to move your teams from first into fifth gear. Fred Combe Managing Director, NATUS

The literature on strategy in small and medium-sized enterprises (SMEs) is fairly limited despite their great innovative talents. This book provides the reader with a thorough insight into six companies and their prerequisites for creating growth. Strategy Execution focuses on a varied picture of Scandinavian SMEs, and illustrates how this group of companies can contribute with new ways of managerial thinking and progress in the business community. It presents the best practice framework for strategic management.

Women, Poetry, and Politics in Seventeenth-Century Britain offers a new account of women's engagement in the poetic and political cultures of seventeenth-century England and Scotland, based on poetry that was produced and circulated in manuscript. Katherine Philips is often regarded as the first in a cluster of women writers, including Margaret Cavendish and Aphra Behn, who were political, secular, literary, print-published, and renowned. Sarah C. E. Ross explores a new corpus of political poetry by women, offering detailed readings of Elizabeth Melville, Anne Southwell, Jane Cavendish, Hester Pulter, and Lucy Hutchinson, and making the compelling case that female political poetics emerge out of social and religious poetic modes and out of manuscript-based authorial practices. Situating each writer in her political and intellectual contexts, from early covenanting Scotland to Restoration England, this volume explores women's political articulation in the devotional lyric, biblical verse paraphrase, occasional verse, elegy, and emblem. For women, excluded from the public-political sphere, these rhetorically-modest genres and the figural language of poetry offered vital modes of political expression; and women of diverse affiliations use religious and social poetics, the tropes of family and household, and the genres of occasionality that proliferated in manuscript culture to imagine the state. Attending also to the transmission and reception of women's poetry in networks of varying reach, Sarah C. E. Ross reveals continuities and evolutions in women's relationship to politics and poetry, and identifies a female tradition of politicised poetry in manuscript spanning the decades before, during, and after the Civil Wars.

This fifth volume begins the doctrinal treatises of Perkins with three contributions of catechetical theology. The first treatise is An Exposition of the Symbol or Apostles' Creed . Examining the contours of Christian faith, Perkins handles each article of the Creed according to its basic meaning, the duties it calls us to, and the consolation it brings. He closes the entire work by explaining how the Creed is a “storehouse of remedies against all troubles and temptations whatsoever.” The second treatise is An Exposition of the Lord's Prayer . Detailing the chief Christian desires, Perkins explains the meaning of the petitions of the Lord's Prayer and the “ manifold uses ” for each. Perkins closes his exposition with the proper uses of the Lord's Prayer in general, the circumstances related to the way we pray, and a word on God hearing our prayers. This treatise also includes a collection of prayers (with short expositions) from the Bible and a poetic song “gathered out of the Psalms, containing the sobs and sighs of all repentant sinners.” The third treatise is The Foundation of Christian Religion Gathered into Six Principles , which sets down the principle points of Christian religion in order to establish readers in true knowledge, unfeigned faith, and sound repentance. Providing a rudimentary understanding of the Ten Commandments, the Creed, the Lord's Prayer, and the two sacraments, Perkins' s Foundation sets a framework for people to profit more from sermons and to receive the Lord's Supper with comfort.

Few state issues have attracted as much controversy and national attention as the application of the death penalty in Texas. In the years since the death penalty was reinstated in 1976, Texas has led the nation in passing death sentences and executing prisoners. The vigor with which Texas has implemented capital punishment has, however, raised more than a few questions. Why has Texas been so fervent in pursuing capital punishment? Has an aggressive death penalty produced any benefits? Have dangerous criminals been deterred? Have rights been trampled in the process and, most importantly, have innocents been executed? These important questions form the core of *Lethal Injection: Capital Punishment in Texas during the Modern Era*. This book is the first comprehensive empirical study of Texas's system of capital punishment in the modern era. Jon Sorensen and Rocky Pilgrim use a wealth of information gathered from formerly confidential prisoner records and a variety of statistical sources to test and challenge traditional preconceptions concerning racial bias, deterrence, guilt, and the application of capital punishment in this state. The results of their balanced analysis may surprise many who have followed the recent debate on this important issue.

**Shojo manga are romance comics for teenage girls. Characterized by a very dense visual style,**

featuring flowery backgrounds and big-eyed, androgynous boys and girls, it is an extremely popular and prominent genre in Japan. Why is this genre so appealing? Where did it come from? Why do so many of the stories feature androgynous characters and homosexual romance? *Passionate Friendship* answers these questions by reviewing Japanese girls' print culture from its origins in 1920s and 1930s girls' literary magazines to the 1970s "revolution" shojo manga, when young women artists took over the genre. It looks at the narrative and aesthetic features of girls' literature and illustration across the twentieth century, both pre- and postwar, and discusses how these texts addressed and formed a reading community of girls, even as they were informed by competing political and social ideologies. The author traces the development of girls' culture in pre-World War II magazines and links it to postwar teenage girls' comics and popular culture. Within this culture, as private and cloistered as the schools most readers attended, a discourse of girlhood arose that avoided heterosexual romance in favor of "S relationships," passionate friendships between girls. This preference for homogeneity is echoed in the postwar genre of boys' love manga written for girls. Both prewar S relationships and postwar boys' love stories gave girls a protected space to develop and explore their identities and sexuality apart from the pressures of a patriarchal society. Shojo manga offered to a reading community of girls a place to share the difficulties of adolescence as well as an alternative to the image of girls purveyed by the media to boys and men. *Passionate Friendship's* close literary and visual analysis of modern Japanese girls' culture will appeal to a wide range of readers, including scholars and students of Japanese studies, gender studies, and popular culture.

**BUSINESS STRATEGY.** "The 4 Disciplines of Execution" offers the what but also how effective execution is achieved. They share numerous examples of companies that have done just that, not once, but over and over again. This is a book that every leader should read! (Clayton Christensen, Professor, Harvard Business School, and author of "The Innovator's Dilemma.") Do you remember the last major initiative you watched die in your organization? Did it go down with a loud crash? Or was it slowly and quietly suffocated by other competing priorities? By the time it finally disappeared, it's likely no one even noticed. What happened? The whirlwind of urgent activity required to keep things running day-to-day devoured all the time and energy you needed to invest in executing your strategy for tomorrow. "The 4 Disciplines of Execution" can change all that forever.

The brilliant creator of NPR's Planet Money podcast and award-winning New Yorker staff writer explains our current economy: laying out its internal logic and revealing the transformative hope it offers for millions of people to thrive as they never have before. Contrary to what you may have heard, the middle class is not dying and robots are not stealing our jobs. In fact, writes Adam Davidson—one of our leading public voices on economic issues—the twenty-first-century economic paradigm offers new ways of making money, fresh paths toward professional fulfillment, and unprecedented opportunities for curious, ambitious individuals to combine the things they love with their careers. Drawing on the stories of average people doing exactly this—an accountant overturning his industry, a sweatshop owner's daughter fighting for better working conditions, an Amish craftsman meeting the technological needs of Amish farmers—as well as the latest academic research, Davidson shows us how the twentieth-century economy of scale has given way in this century to an economy of passion. He makes clear, too, that though the adjustment has brought measures of dislocation, confusion, and even panic, these are most often the result of a lack of understanding. *The Passion Economy* delineates the ground rules of the new economy, and armed with these, we begin to see how we can succeed in it according to its own terms—intimacy, insight, attention, automation, and, of course, passion. An indispensable road map and a refreshingly optimistic take on our economic future.

*In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held*

**belief that "follow your passion" is good advice, and sets out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.**

Deterrence is a theory which claims that punishment is justified through preventing future crimes, and is one of the oldest and most powerful theories about punishment. The argument that punishment ought to secure crime reduction occupies a central place in criminal justice policy and is the site for much debate. Should the state deter offenders through the threat of punishment? What available evidence is there about the effectiveness of deterrence? Is deterrence even possible? This volume brings together the leading work on deterrence from the dominant international figures in the field. Deterrence is examined from various critical perspectives, including its diversity, relation with desert, the relation of deterrence with incapacitation and prevention, the role deterrence has played in debates over the death penalty, and deterrence and corporate crime.
