A FAMILY UNDER THREAT. A FATHER'S WORST NIGHTMARE... On the surface, Joe Chayefski has it all. A great job, a beautiful wife and two perfect daughters. But when the lab he works in as a neuroscientist is attacked, Joe is forced to face the past and reconnect with the son he abandoned twenty years earlier. As Joe struggles to deal with the sudden collision of his two lives, he soon finds he needs to take drastic action to save the people he loves. Gripping and suspenseful, *They Know Not What They Do* skilfully weaves together the big issues of the day- the relationship between science and ethics, and people's increasing inability to communicate - into an ambitious page-turner of a novel.

An engaging and practical guided tour of the simple and nature-inspired ways that Finns stay happy and healthy--including the powerful concept of *sisu*, or everyday courage. Forget *hygge*--it's time to blow out the candles and get out into the world! Journalist Katja Pantzar did just that, taking the huge leap to move to the remote Nordic country of Finland. What she discovered there transformed her body, mind and spirit. In this engaging and practical guide, she shows readers how to embrace the "keep it simple and sensible" daily practices that make Finns one of the happiest populations in the world, year after year. Topics include: • Movement as medicine: How walking, biking and swimming every day are good for what ails us--and best done outside the confines of a gym • Natural mood boosters: Cold water swimming, steamy saunas, and other ways to alleviate stress, anxiety, insomnia, and depression • Forest therapy: Why there's no substitute for getting out into nature on a regular basis • Healthy eating: What the Nordic diet can teach us all about feeding body, mind and soul • The gift of *sisu*: Why Finns embrace a special form of courage, grit and determination as a national virtue - and how anyone can dig deeper to survive and thrive through tough times. If you've ever wondered if there's a better, simpler way to find happiness and good health, look no further. The Finns have a word for that, and this empowering book shows us how to achieve it. Junior Leila has made it through most of high school without having a crush, which is a relief. Her Persian heritage already makes her different; if word got out she liked girls, life would be even harder. But when beautiful new girl Saskia shows up, Leila starts to take risks, especially when it looks like the attraction between them is mutual.

This study examines and explains how British explorers visualized the African interior in the latter part of the nineteenth century, providing the first sustained analysis of the process by which this visual material was transformed into the illustrations in popular travel books. At that time, central Africa was, effectively, a blank canvas for Europeans, unknown and devoid of visual representations. While previous works have concentrated on exploring the stereotyped nature of printed imagery of Africa, this study examines the actual production process of images and the books in which they were published in order to demonstrate how, why, and by whom the images were manipulated. Thus, the main focus of the work is not on the aesthetic value of pictures, but in the activities, interaction, and situations that gave birth to them in both Africa and Europe.

"The concept of ecovillages first arose in the late 1980s, with the intention of offering an alternative to a culture of consumerism and exploitation. Combining a supportive and high-quality social and cultural environment with a low-impact way of life, they have become precious playgrounds in which groups of committed people can experiment to find solutions for some of the challenges we face globally. Ecovillages are now part of a worldwide movement for social and environmental justice and have become regional and national beacons of inspiration for the social, cultural, ecological and economic revival of both rural and urban areas. This book (published to coincide with the 20th anniversary of the Global Ecovillage Network in July 2015) introduces a selection of ecovillage projects from all over the world. The editors have aimed to give a taste of their richness and diversity with examples from Europe, Latin America, Asia, Africa and North America."--Provided by publisher.

This book is a technical introduction to additive manufacturing (AM) with a focus on powder bed fusion and metals. It provides the theory and industry-based practices to design, make, and test metal components via AM. After outlining the methods and materials of powder bed methods, the book explains the workings and physical limitations of electron beam and laser melt technologies in manufacturing parts, using a variety of metal powders. In this context, the physics of powder melting is described, as well as the effects of temperature variables on the properties of a part. The critical elements of how powder feedstock is chosen and formulated are explained. Processing methods are described using original design and engineering parameters developed by the author. Information is provided on current test methods of metals produced by AM, as well as how to carry out quality control, monitor reliability, and implement safety standards. For process design, a section is devoted to modeling. Each chapter includes a set of problems for students and practitioners that reflect metals' fabrication in industry.

Gender, Social Care and Welfare State Restructuring in Europe

Churchyard Epiphany

Published in 1998. Social provision in all European countries has faced increasing scrutiny during the 1990s. Focusing on gendered aspects of welfare state restructuring, each contributor examines the way in which the welfare state of his or her country has been restructured over the past decade, concentrating on services for elderly people and for children. Each chapter outlines the shifts in the mixed economy of welfare and describes the degree to which there has been greater decentralization moves towards a different style of public management or the introduction of market principles. The changes in the provision of services for elderly people and children is described for the same period. Finally,

women's position as paid providers of services, as unpaid carers and as recipients of services is analyzed. This book investigates the idea that the move towards "marketization" in many countries is having a disproportionately detrimental effect on women whose leverage on the market tends to be weak.

Toward the end of the Algerian war, the FLN, an Algerian nationalist party, organised a demonstration in Paris to oppose a curfew imposed upon Algerians in France. The protest was brutally suppressed by the Paris police. This incident provides an intimate look at the history of violence between France and Algeria.

Finland is internationally known as one of the leading centers of twentieth century analytic philosophy. This volume offers for the first time an overall survey of the Finnish analytic school. The rise of this trend is illustrated by original articles of Edward Westermarck, Eino Kaila, Georg Henrik von Wright, and Jaakko Hintikka. Contributions of Finnish philosophers are then systematically discussed in the fields of logic, philosophy of language, philosophy of science, history of philosophy, ethics and social philosophy. Metaphilosophical reflections on the nature of philosophy are highlighted by the Finnish dialogue between analytic philosophy, phenomenology, pragmatism, and critical theory.

An arrestingly drawn debut graphic novel, Baddawi is the story of a young boy named Ahmad struggling to find his place in the world. It explores the childhood of the author's father from a determinedly boy's-eye view. Ahmed was raised in the refugee camp of Baddawi in northern Lebanon, one of many thousands of children born to Palestinians who fled (or were expelled from) their homeland during the 1948 war that established the state of Israel. Ahmad's dogged pursuit of education and opportunity echoes the journey of the Palestinian people, as they make the best of their existing circumstances while remaining determined to one day return to their homeland.

dismantle your own biases, whether you are using the book on your own, with a book club, or looking to start family activism in your own home. This book will walk you step-by-step through the work of examining: Examining your own white privilege What allyship really means Anti-blackness, racial stereotypes, and cultural appropriation Changing the way that you view and respond to race How to continue the work to create social change Awareness leads to action, and action leads to change. For readers of White Fragility, White Rage, So You Want To Talk About Race, The New Jim Crow, How to Be an Anti-Racist and more who are ready to closely examine their own beliefs and biases and do the work it will take to create social change. "Layla Saad moves her readers from their heads into their hearts, and ultimately, into their practice. We won't end white supremacy through an intellectual understanding alone; we must put that understanding into action."—Robin DiAngelo, author of New York Times bestseller White Fragility

NEW YORK TIMES BESTSELLER • The celebrated author of Double Cross and Rogue Heroes returns with his greatest spy story yet, a thrilling Americans-era tale of Oleg Gordievsky, the Russian whose secret work helped hasten the end of the Cold War. "The best true spy story I have ever read."—JOHN LE CARRÉ Named a Best Book of the Year by The Economist • Shortlisted for the Bailie Giffords Prize in Nonfiction If anyone could be considered a Russian counterpart to the infamous British double-agent Kim Philby, it was Oleg Gordievsky. The son of two KGB agents and the product of the best Soviet institutions, the savvy, sophisticated Gordievsky grew to see his nation's communism as both criminal and philistine. He took his first posting for Russian intelligence in 1968 and eventually became the Soviet Union's top man in London, but from 1973 on he was secretly working for MI6. For nearly a decade, as the Cold War reached its twilight, Gordievsky helped the West turn the tables on the KGB, exposing Russian spies and helping to foil countless intelligence plots, as the Soviet leadership grew increasingly paranoid at the United States's nuclear first-strike capabilities and brought the world closer to the brink of war. Desperate to keep the circle of trust close, MI6 never revealed Gordievsky's name to its counterparts in the CIA, which in turn grew obsessed with figuring out the identity of Britain's obviously top-level source. Their obsession ultimately doomed Gordievsky: the CIA officer assigned to identify him was none other than Aldrich Ames, the man who would become infamous for secretly spying for the Soviets. Unfolding the delicious three-way gamesmanship between America, Britain, and the Soviet Union, and culminating in the gripping cinematic beat-by-beat of Gordievsky's nail-biting escape from Moscow in 1985, Ben Macintyre's latest may be his best yet. Like the greatest novels of John le Carré, it brings readers deep into a world of treachery and betrayal, where the lines bleed between the personal and the professional, and one man's hatred of communism had the power to change the future of nations. The search for the father, the discovery of love -- a story of belonging

The award-winning, #1 internationally bestselling new novel by the author of The Perfect Nanny, about a woman in an interracial marriage whose fierce desire for autonomy parallels her adopted country's fight for independence The world of men is just like the world of botany. In the end, one species dominates another. One day, the orange will win out over the lemon, or vice versa, and the tree will once again produce fruit that people can eat. In her first new novel since The Perfect Nanny launched her onto the world stage and won her acclaim for her "devastatingly perceptive character studies" (The New York Times Book Review), Leila Slimani draws on her own family's inspiring story for the first volume in a planned trilogy about race, resilience, and women's empowerment. Mathilde, a spirited young Frenchwoman, falls in love with Amine, a handsome Moroccan soldier in the French army during World War II. After the war, the couple settles in Morocco. While Amine tries to cultivate his family farm's rocky terrain, Mathilde feels her vitality sapped by the isolation, the harsh climate, the lack of money, and the mistrust she inspires as a foreigner. Left increasingly alone to raise her two children in a world whose rules she does not understand, and with her daughter taunted at school by rich French girls for her secondhand clothes and unruly hair, Mathilde goes from being reduced to a farmer's wife to defying the country's chauvinism and repressive social codes by offering medical services to the rural population. As tensions mount between the Moroccans and the French colonists, Amine finds himself caught in the crossfire: in solidarity with his Moroccan workers yet also a landowner, despised by the French yet married to a Frenchwoman, and proud of his wife's resolve but ashamed by her refusal to be subjugated. All of them live in the country of others--especially the women, forced to live in the land of men--and with this novel, Leila Slimani issues the first salvo in their emancipation.

"To write a series of poems out of extreme illness is a bracing accomplishment indeed. In *Deluge*... Leila Chatti, born of a Catholic mother and a Muslim father, brilliantly explores the trauma." —Naomi Shihab Nye, *The New York Times* In her early twenties, Leila Chatti started bleeding and did not stop. Physicians referred to this bleeding as flooding. In the Qur'an, as in the Bible, the Flood was sent as punishment. The idea of disease as punishment drives this

collection's themes of shame, illness, grief, and gender, transmuting religious narratives through the lens of a young Arab-American woman suffering a taboo female affliction. Deluge investigates the childhood roots of faith and desire alongside their present day enactments. Chatti's remarkably direct voice makes use of innovative poetic form to gaze unflinchingly at what she was taught to keep hidden. This powerful piece of life-writing depicts Chatti's journey from diagnosis to surgery and remission in meticulous chronology that binds body to spirit and advocates for the salvation of both. Chatti blends personal narrative, religious imagery, and medical terminology in a chronicle of illness, womanhood, and faith.

National Bestseller • New York Times "100 Notable Books of the Year" • NPR "Favorite Books of 2019" • Guardian "100 Best Books of the 21st Century" • Winner of the National Outdoor Book Award From the best-selling, award-winning author of Landmarks and The Old Ways, a haunting voyage into the planet's past and future. Hailed as "the great nature writer of this generation" (Wall Street Journal), Robert Macfarlane is the celebrated author of books about the intersections of the human and the natural realms. In Underland, he delivers his masterpiece: an epic exploration of the Earth's underworlds as they exist in myth, literature, memory, and the land itself. In this highly anticipated sequel to his international bestseller The Old Ways, Macfarlane takes us on an extraordinary journey into our relationship with darkness, burial, and what lies beneath the surface of both place and mind. Traveling through "deep time"—the dizzying expanses of geologic time that stretch away from the present—he moves from the

birth of the universe to a post-human future, from the prehistoric art of Norwegian sea caves to the blue depths of the Greenland ice cap, from Bronze Age funeral chambers to the catacomb labyrinth below Paris, and from the underground fungal networks through which trees communicate to a deep-sunk "hiding place" where nuclear waste will be stored for 100,000 years to come. Woven through Macfarlane's own travels are the unforgettable stories of descents into the underland made across history by explorers, artists, cavers, divers, mourners, dreamers, and murderers, all of whom have been drawn for different reasons to seek what Cormac McCarthy calls "the awful darkness within the world." Global in its geography and written with great lyricism and power, Underland speaks powerfully to our present moment. Taking a deep-time view of our planet, Macfarlane here asks a vital and unsettling question: "Are we being good ancestors to the future Earth?" Underland marks a new turn in Macfarlane's long-term mapping of the relations of landscape and the human heart. From its remarkable opening pages to its deeply moving conclusion, it is a journey into wonder, loss, fear, and hope. At once ancient and urgent, this is a book that will change the way you see the world.

Breaking new ground in the study of European colonialism, this book focuses on a nation historically positioned between the Western and Eastern Empires of Europe – Finland. Although Finland never had overseas colonies, the authors argue that the country was undeniably involved in the colonial world, with Finns adopting ideologies and identities that cannot easily be disentangled from colonialism. This book explores the concepts of 'colonial complicity' and 'colonialism without colonies' in relation to Finland, a nation that was oppressed, but also itself complicit in colonialism. It offers insights into European colonialism on the margins of the continent and within a nation that has traditionally declared its innocence and exceptionalism. The book shows that Finns were active participants in various colonial contexts, including Southern Africa and Sápmi in the North. Demonstrating that colonialism was a common practice shared by all European nations, with or without formal colonies, this book provides essential reading for anyone interested in European colonial history.
