The Power of ChoiceBabelcube Inc.

Whatever is given – even a difficult and challenging moment – is a gift. Living as if each day is a thank-you can help transform fear into courage, anger into forgiveness, isolation into belonging, and another's pain into healing. Saying thank-you every day inspires feelings of love, compassion, and hope. These ideas are the basis for this timely book. Authors Nina Lesowitz and Mary Beth Sammons present a simple, but comprehensive program for incorporating gratitude into one's life, and reaping the many benefits that come from doing so. The book is divided into ten chapters from "Thank You Power" and "Ways to Stay Thankful in Difficult Times" to "Gratitude as a Spiritual/Cultural Practice " and "Putting Gratitude into Action." Each chapter includes stories of individuals whose lives have been transformed by embracing this program, along with motivating quotes and blessings, and a suggested gratitude practice such as keeping a weekly gratitude journal and starting a gratitude circle.

Living Life as a Thank You

In Philosophies of Gratitude, Ashraf H. A. Rushdy explores gratitude as a philosophical concept. The first half of the book traces its significance in fundamental Western moral philosophy and notions of ethics, specifically examining key historical moments and figures in classical antiquity, the early modern era, and the Enlightenment. In the second half of the book, Rushdy focuses on contemporary meanings of gratitude as a sentiment, action, and disposition: how we feel grateful, act grateful, and cultivate grateful being. He identifies these three forms of gratitude to discern various roles our emotions play in our ethical responses to the world around us. Rushdy then discusses how ingratitude, instead of indicating a moral failure, can also act as an important principle and ethical stand against injustice. Rushdy asserts that if we practice gratitude as a moral recognition of the other, then that gratitude varies alongside the different kinds of benefactors who receive it, ranging from the person who provides an expected service or gift, to the divine or natural sources whom we may credit with our very existence. By arguing for the necessity of analyzing gratitude as a philosophical concept, Rushdy reminds us of our capacity and appreciation for gratitude simply as an acknowledgment and acceptance of our humble dependency on and connectedness with our families, friends, communities, environments, and universe.

In this set of novitiate conferences from the late 1950s, Thomas Merton provides a vivid and detailed introduction to the traditional pattern and practices of the monastic day during the period immediately preceding the momentous changes that would be introduced in the wake of the Second Vatican Council. Combining practical instruction with spiritual and theological reflection, this fifth volume of Merton's teaching notes brings the reader into the choir and chapter room, scriptorium and cloisters of the Abbey of Gethsemani, and provides insight into the ecclesial, contemplative, paschal, and Trinitarian dimensions of Cistercian life. Patrick F. O'Connell is professor in the departments of English and theology at Gannon University, Erie, Pennsylvania. A founding member and former president of the International Thomas Merton Society, he edits The Merton Seasonal and is coauthor (with William H. Shannon and Christine M. Bochen) of The Thomas Merton Encyclopedia. He has edited four previous volumes of Thomas Merton's monastic conferences for the Monastic Wisdom series: Cassian and the Fathers; Pre-Benedictine Monasticism; An Introduction to Christian Mysticism; and The Rule of Saint Benedict.

The power of choice is the strength that comes from the depths of the heart. It is never wrong, and the result of the action must always be accepted. Whether positive or negative, the result should always be seen as a teaching, in the end the good and the bad case leads to learning. The Power of Choice is subtle, you must learn to listen to your intuition accompanied by the energy of the heart, if you choose what you most want to do, you are on the path of Love, if you do not enter a path full of obstacles because you so wished, never blame others for your state, because you are solely responsible for your actions.

The Pyramid of Love and Gratitude and the Laws of the Universe

Rowan Williams, writing in partnership with the bestselling American Benedictine author, Joan Chittister, explores the meaning of a word often spoken in Christian worship, but rarely considered. What are we doing when we say the word 'Alleluia'? In the Old Testament, it is a summons to praise - when it feels appropriate and when it doesn't. In the New Testament it becomes part of the language of praise, used at all times, even to this day in the funeral liturgies in the Eastern Orthodox church. Here then is a clue - it is a call to see the whole of life 'as one long Alleluia moment' as the authors put it, to discover the richness and manifestations of God even when they are hidden from us. Some things we naturally feel grateful for - life, health, comfort, pleasure - but how is it possible to say 'Alleluia' to the parts of life that weigh us down and drain our spirits dry? This book aims to give some very practical answers to how we cultivate 'an Alleluia view' of every present moment, to find the meaning in Dag Hammarskold's famous words: 'For all that has been, thanks - for all that shall be, yes.'

The 100th Human

A Soldier's Experience; Or, A Voice from the Ranks

Unity [devoted to Practical Christianity]

This book is edited based on a series of lectures on Chinese cultural history delivered at the Peking University in 2004. It stands out with its distinctive methodology and unique stand, and is popular with readers, with 17 reprints for the Chinese edition since 2006. Before the 1980s, traditional culture was often the target of criticisms and put in a negative light in China. After the 1980s, due to the belief that traditional culture can contribute to modernization, people decided to 'take its essence and discard its dregs'. As of today, most books on this theme have been written in accordance with this principle. However, in this book, the author argues that many problems have emerged from the modernization of the Western society, and thus the need for reflection and re-examining. Traditional Chinese culture is a source for comparison and reflection. As such, when we discuss traditional culture nowadays, not only should we excavate its long-hidden meanings, but we should also develop contrastive resources to facilitate our collaborative development in future. The discussions in this book adopt a vertical structure that begins with how Chinese define a human, followed by topics on the human body, Qi, food, male and female, home and state, the relationship between heaven and human beings, ritual systems, historical consciousness, thinking patterns, the art of expressing sentiments, commitments to the politics of virtues and achievements, and cultural practices. In every chapter, there is also a horizontal method of comparison on Chinese, Western and Indian cultures, to foreground the particularities and advantages of the Chinese culture. Apart from elaborating on the major characteristics of traditional Chinese culture, there is also a discussion on how the modern disdain for and misunderstandings of the traditional culture originated from the West. The author also elaborates on Montesquieu's views of China and the various misconceptions and misunderstandings of the traditional Chinese legal systems. Finally, it ends with the author's thoughts on the revitalization of the Chinese civilization.

Colossians and Philemon have traditionally been overshadowed by other New Testament texts thought to express Pauline theology more clearly. In this notable commentary, however, Marianne Meye Thompson shows how these two epistles provide a unique formulation of the gospel in terms of creation and reconciliation rather than justification by faith. In Colossians she finds an overarching narrative of the Bible's grand creation-redemption story and an important emphasis on the relationship between creation and Christology, while her exploration of Philemon casts brighter light on the significance of Paul's familial metaphors for the church and the meaning of new humanity in Christ. Throughout her work on these two epistles, Thompson continually connects her insights to theological concerns, making this volume an excellent addition to the Two Horizons series.

Many today are discarding the evangelical label, and as a lifelong evangelical, Dan Stringer has wrestled with whether to stay or go. In this even-handed guide, he offers a thoughtful appreciation of evangelicalism's history, identity, and strengths, but also lament for its blind spots, showing how we can move forward with hope for our future together.

"the 100th human" tracks the life-or-death, heroic quest of three unforgettable characters as they navigate the epic challenges facing the earth and her inhabitants. In this novel, Chris Fenwick s complex scientific theories as critical mass, zero point, wave functions and punctuated equilibrium, making them accessible and even important to our daily lives. This fast-paced journey melds the the Vedas and Christ, fusing the universal concepts of purpose, gratitude, consciousness and love into one compelling story of hope, but also of responsibility.

This detailed exegetical study of Gal 3.28c in the light of 3.14-29 and 4.21-31 shows not only how integral this verse is to chapters 3 and 4 of the letter, but also that it is the key to understanding of promise in Galatians. Paul's use of the story of Abraham in 3.14-29 and of Sarah in 4.21-31 in light of God's promise to the patriarch and the matriarch in Genesis 17 have implications displays and Sarah in bringing about the promise, and underscores the unity of the believers in Christ. In light of this, Uzukwu examines important aspects of the history of the interpretation of Gal 3.28c link between Gal 3:28 and the three expressions of gratitude found in Greek writings. Links are also revealed to the three blessings of gratitude that appear at the beginning of the Jewish cycle 1.27c (in the Septuagint), and the alleged pre-Pauline baptismal formula. She goes further to demonstrate how 3.28c is related to the unity of Galatians 3-4, focusing on the theme of the promise effect of the Christ event in bringing about the fulfillment of that promise.

Archbishop of Canterbury Rowan Williams often says that, no matter what, the proper stance of the Christian in the world is one of gratitude. In this book, Sister Joan Chittister, OSB, and Archb us a sweeping set of things and circumstances to be grateful for 'things for which we can sing alleluia,' "praise and thanks be to God." Some are things we naturally feel grateful for: God, peace, unity. But when these are set alongside other things we would never think to sing alleluia about 'death, divisions, sufferings, and even sinners 'we begin to see, as Joan Chittister says in her intro an exercise in learning to sing 'alleluia ' here in order to recognize the face of God hidden in the recesses of time. To deal with the meaning of 'alleluia ' in life means to deal with moments that do moments' at al." In this series of reflections it becomes clear that singing "alleluia" is not a way to escape reality but receptivity to another kind of reality beyond the immediate and the delusional what is now and what is to come.
